## CURING PRACTICE.

The principle of purifying the body by purgg with vegetable physic is becoming more and ore understood as the only sensible method by which sound health can be established. Hundreds of individuals have become convinced of this doctrine, and are daily acknowledging the that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is the town and country are filled with their praise, this doctrine, and are daily acknowledging the no person who, having lost health, does not wish to the Palace and Poor-house alike echo with their vir- more prompt and efficacious; and I have had conpractice to be the best ever discovered. #### Harrison's Specific Ointment.

The great celebrity of this unrivalled Composition-especially in the Northern States-leaves the proprietor but little need to say any thing in its favor; for it has been generally conceded to it, that it is beyond all comparison the best remedy for external complaints that has ever been discovered. Indeed the speed and certainty of its oper- stowed on man, ations have the appearance of miracles: as ulcers, wounds, corns, fever sores, chilblains, white swellings, biles, piles, spider and snake bites &c .-immediately yield to its apparantly super human influence. Thus if properly applied it will remove an inveterate, corn or break and heal a bile in five days, will allay and perfectly cure an ulcer in two weeks; and the most desperate cases of white poisonous reptiles its efficacy is truly surprising; and even in the bite of a rabid dog, for if applied in time, its powers of attraction are so wonderful that they will at once arrest the poison and thus prevent it from pervading the system. It is likewise greatly superior to any medicine heretofore discovered for the chaied backs and limbs of horses -for tetters, ring worms, chapped lips,-and in short for every external bodily evil that may fall to the lot of man or beast.

certificates and other documents, in favor of his "Specific Ointment" upwards a hundred of which were written by respectable members of the Medical Faculty; and in selecting from this pile the following samples, he was governed more by their brevity, than their contents, as they all breath the same spirit of eulogy and satisfaction.

To Dr. Harrison, Dear Sir, I write to congratulate you on the extraordinary virtue of your Specific Ointment,' in the curing of burns. A little boy of mine, 4 years old, fell against the fire-place three weeks since, when his clothes bebecaue ignited, and he was instantly enveloped in flames. After some difficulty the fire was extinguished, but not before the poor little fellow's lower extremities were almost covered with a continual blister. Having much faith in your ointment. I immediately purchased three boxes, which I applied unsparingly, according to your directions in such cases; and it is with great pleasure and gratitude, that I am able to inform you that it allayed the pain in a few hours; and in ten days Agents in Monroe and Pike counties. had effected a complete cure. I need scarcely add that it ought to be in the possession of every family, as there is no telling when such accidents may occur. Yours respectfully,
