

We learn by a gentleman from Plattsburgh, that loaded teams crossed Lake Champlain at that place on the ice, on Friday last.

There are three feet of snow only ten or twelve miles west of the Lake. The farmers are nearly all out of hay, and their cattle in a starving condition.—Troy Whig.

**MIND WHOM YOU KICK.**—Mr. Stratton, a Constable of Boston, is under bonds of \$100, to appear at the Municipal Court, for kicking the wife of a prisoner whom he was taking to the watch house! The kicked woman had come to bring her husband his hat, and received that unmanly salute for her pains.

**A Proposition worth Considering.**  
To induce persons to act as agents for procuring subscribers to the RIFLE we submit the following proposition.

For \$35 we will send one hundred copies to not more than ten addresses.

For \$15 forty copies to not more than four.

For \$5 twelve copies to one address.

This will afford over twenty-five per cent to agents for their trouble and as every one can procure one hundred or more subscribers, in their own neighborhood, he will be doing a fair business in these hard times. And one to make it a business for a month could procure two or three thousand at least, as no body will refuse to pay fifty cents for a paper for six months during so exciting a campaign as the approaching one will undoubtedly be. By some unaccountable error, it is stated in our prospectus that we will send fifty copies to one address for \$15—it should have been forty. The first would not pay the expenses with ten thousand subscribers.

**WOOD TYPE.**

Cut by Machinery, and warranted superior to any heretofore manufactured.

GEORGE F. NESBITT, Tontine building, corner of Wall and Water streets, New-York, respectfully informs the Printers of the United States, that he has now in full operation his machine for cutting Wood Types, which being an entire new invention, is warranted to cut Types, both plain and ornamental, far superior to any heretofore exhibited to the public; and in proof of the assertion, informs the public that he has obtained Diplomas and Medals from both the American and Mechanic's Institutes of the City of New-York, at their Fairs of 1836, 1838, and 1839, as the books of the Institute will show.

George F. Nesbitt would particularly invite the attention of Printers to the fact, that through the politeness of the proprietors of the Liverpool and Havre line of packets, he has been favored with the latest French and English specimens, that many of the new styles in them are very handsome, and have been got up by him; they were exhibited by him at the Mechanic's Fair in this city, now just closed and pronounced by the Committee of Printers, appointed to examine Types and Specimens, to be superior to any Wood Types ever before exhibited, and having a decided advantage over large Metal Types.

George F. Nesbitt, would also inform the Printers of the United States, that he is ready to cut Types on Wood of any size, from 5 lines Pica, upward, from any of the patterns of small or Types contained in the extensive specimen of Messrs. G. Bruce & Co., or from any new pattern that can be suggested.

If George F. Nesbitt is desirous that Printers, and those becoming Agents, should be acquainted with the fact, that his prices are much reduced from those heretofore charged by other manufacturers; that he allows his Agents thirty per cent. commission; that his terms are six months or ten per cent. discount for cash.

Agents are wanted for the following cities, viz: Charleston, Albany, Detroit, Rochester, and Buffalo.

N. B. Printers of Newspapers, who will publish the above for six times, within three months from this date, and will send me a copy of their paper, shall be entitled to \$3 in Types; and should the Types not prove superior to any ever before manufactured, they can be returned, and the money will be paid in place of them.
