

### Towanda Bank.

Look out!—Don't take its Notes!—Some weeks ago it was reported that the Towanda Bank had failed, and every body refused to receive its notes. After a day or two of an interval, Mr. Matthew T. Miller advertised that he would redeem them at one per cent. He did so. Of course an arrangement had been made by the bank to that effect. The bank placed five or six thousand dollars in his hands for the purpose. But mark the pernicious effect this device had upon the community! Finding the Towanda Bank in apparently such good credit, every body took its notes, and hence on the faith of five or six thousand dollars, perhaps a quarter of a million of these good for nothing promises were forced into circulation. Who suffers? Why the people—for the notes are now at a discount of thirty per cent! Who gains? Why the bank and the brokers. The former exchange an immense amount of their irredeemable paper, for hard cash, and the latter are making a harvest of the distress of the credulous holders. Just such a game was played by the Commercial Bank of Millington. M. T. Miller had several thousand dollars placed in his hands—he advertised and redeemed its notes while the money lasted—the bank got into credit in consequence—forced a vast amount of its paper on the community—burst up—its officers ray away—and the people as usual were left the sufferers by the nefarious transaction. These things should be inquired into. Has a broker a moral, or a legal right, to thus aid a corporation to defraud the public, by getting its paper into a credit which its worthlessness does not deserve!—Philadelphia Spirit of the Times.

The skeleton of a female, as was mentioned a few days ago, had been found in the woods in Salem county, N. J. We now learn, through the Woodbury Constitution, that an individual residing in the neighborhood of the place where the bones were found has been arrested, under the following suspicious circumstance:

It appears that a short time since a female while on her way to some relatives, stopped at the house of a colored person in the vicinity with the intention of remaining over night. She was however induced by the person arrested, to accompany him to the house of his mother for that purpose, taking with her a cloak, which was loaned her to be returned next morning. The cloak was not returned for several days, which excited some remarks, when it was brought back by the brother of the person arrested and thrown down, he saying, there's your cloak, I suppose you're satisfied. On inquiry it was ascertained that the young woman had not been at the house of the mother, and she has not since been heard of. These circumstances lead strongly to the belief that after suffering the most horrible treatment, she was murdered and interred as above described.

### Globe Calumnies Refuted.

The National Intelligencer says: "We are authorized to say that there are essential errors in the statement which appeared in the Globe of Saturday last, respecting the appointment of the U. S. Consul at Paris, and that the friends of young Mr. Brent, most interested for him, do not complain of the course of the administration in regard to that appointment."

William Brent, the father of young Mr. Brent, never walked from church with Gen. Harrison, and never was in the same church with him. Nor did he ever mention to Gen. Harrison the subject of the appointment of his son for the Consulate at Paris, except at the President's house, not on a Sunday; and then the conversation was very brief.

### A Proposition worth Considering.

To induce persons to act as agents for procuring subscribers to the RIFLE we submit the following proposition.

For \$35 we will send one hundred copies to not more than ten addresses.

For \$15 forty copies to not more than four.

For \$5 twelve copies to one address.

This will afford over twenty-five per cent to agents for their trouble and as every one can procure one hundred or more subscribers, in their own neighborhood, he will be doing a fair business in these hard times. And one to make it a business for a month could procure two or three thousand at least, as no body will refuse to pay fifty cents for a paper for six months during so exciting a campaign as the approaching one will undoubtedly be. By some unaccountable error, it is stated in our prospectus that we will send fifty copies to one address for \$15—it should have been forty. The first would not pay the expenses with ten thousand subscribers.

GEORGE F. NESBITT, Tontine building, corner of Wall and Water streets, New-York, respectfully informs the Printers of the United States, that he has now in full operation his machine for cutting Wood Types, which being an entire new invention, is warranted to cut Types, both plain and ornamental, far superior to any heretofore exhibited to the public; and in proof of the assertion, informs the public that he has obtained Diplomas and Medals from both the American and Mechanic's Institutes of the City of New-York, at their Fairs of 1836, 1838, and 1839, as the books of the Institute will show.

George F. Nesbitt would particularly invite the attention of Printers to the fact, that through the politeness of the proprietors of the Liverpool and Havre line of packets, he has been favored with the latest French and English specimens, that many of the new styles in them are very handsome, and have been got up by him; they were exhibited by him at the Mechanic's Fair in this city, now just closed and pronounced by the Committee of Printers, appointed to examine Types and Specimens, to be superior to any Wood Types ever before exhibited, and having a decided advantage over large Metal Types.

George F. Nesbitt, would also inform the Printers of the United States, that he is ready to cut Types on Wood of any size, from 5 lines Pica, upward, from any of the patterns of small or Types contained in the extensive specimen of Messrs. G. Bruce & Co., or from any new pattern that can be suggested.

George F. Nesbitt is desirous that Printers, and those becoming Agents, should be acquainted with the fact, that his prices are much reduced from those heretofore charged by other manufacturers; that he allows his Agents thirty per cent. commission; that his terms are six months or ten per cent. discount for cash.

### CURING PRACTICE.

The principle of purifying the body by purging with vegetable physic is becoming more and more understood as the only sensible method by which sound health can be established. Hundreds of individuals have become convinced of this doctrine, and are daily acknowledging the practice to be the best ever discovered. Now is the unhealthy season when our bodies are liable to be affected with disease; and now is the time the state of the stomach and bowels should be attended to, because on the healthy state of those organs depends the healthy state of the general system; and every one will see at once, if the general health be bad while that remains, local disease cannot be cured.

All the medicine that is requisite to restore the body to a state of health is Brandreth's Vegetable Universal Pills, which have performed cures upon thousands of helpless and hopeless persons, after the usual scientific skill of physicians have consorted them with the assurance that they could do no more. The properties of these Pills as anti-bilious and aperient medicine are unrivalled; all who use them recommend them, their virtues surpass all eulogy, and must be used to be appreciated. The weak and delicate will be strengthened by their use, not by bracing but by removing the cause of weakness, the gross and corrupt humors of the body. They require no change in diet or care of any kind. Plain directions accompany each box, so that every one is his own competent physician. Remember, none are genuine sold by druggists.

DR. BRANDRETH'S Office in Philadelphia for the sale of his Pills, is No. 8, North Eighth street.
