

TO AVOID DISEASE AND ATTAIN HEALTH IS NOW IN THE POWER OF EVERY ONE.—DR. BENJAMIN BRANDRETH'S Vegetable Universal Pills.

Introduced into the United States, May 18, 1835. There has never been an instance of these celebrated Vegetable Universal Pills not giving relief and perseverance in all obstinate cases, is sure to cure a cure, provided nature is not entirely exhausted. They have cured since their introduction into this country at least 20,000—twenty thousand persons—of disease's heretofore always considered incurable. It is only five years since I opened the first office for the exclusive sale of this medicine in New York; yet, in that time I have sold over twelve millions of boxes, and have now eighteen offices for their exclusive sale, at least one in every principal city in the Union, at an expense of near forty thousand dollars per year—and with the expenses of advertising, and other incidental, the sum was a little over One Hundred and Thirty Thousand Dollars for the year 1839; some idea may be formed how the medicine is appreciated from these facts; they are indeed the greatest blessing that ever yet has been bestowed on man.

I have often found persons desirous to know how soon this medicine will cure them. It is impossible to say—it altogether depends upon the state of the blood and humors. One thing may be relied upon—that if the pills are persevered in according to the printed direction which accompanies each box, the cure will be effected much sooner than the patient could have expected. The many lingering chronic diseases we daily see, attending either to mercury or bleeding, or to not having been properly purged in fevers, inflammations, colds, measles, small pox or lying in. It is utterly impossible for us to attain or keep health without purging. We may fasten up the disorder with barks and tonics, but if it be in the body, it must come out before health is enjoyed, and sooner or later it will break out of itself, worse than ever, if this method of purifying the body is delayed too long. No danger can arise from purging with Brandreth's Pills. It has been proved, beyond doubt, that these celebrated Pills and the human body are naturally adapted one for the other. By the use of this Glorious Medicine the contents of humors of the body, can be entirely evacuated, altered, and completely regenerated; and in a manner so simple as to give every day ease and pleasure.

Brandreth's Pills are no less a cure than a preventive of diseases. When we feel dull, pain in the head, back, or side—weariness on the least exertion—it is then we ought to take a dose of these Pills. This will always have a good effect, because it is impossible for pain to be in the body without the presence of those humors which produce it, and it is only by their being forced out with purging that health can be restored.

All that I have been able to ascertain, either by experience or from books has confirmed me in the opinion, that pain, every feeling contrary to health, as produced when the natural outlets of the body become incapable of discharging the corrupt humors generated in the body, as fast as nature requires their expulsion. And that to secure health, we have only to purge ourselves, until health is restored. A practice which experience has established, is fully able to produce this result, without the possibility of any injurious effects. They who have adopted this simple plan have secured the best state of health their bodies were capable of enjoying. The weak have become robust. The robust have become more so. All mankind would be benefited by this practice, except physicians; and they would be bodily, though not professionally.

Let me now recommend two things, never to be fled, and never go to a Druggist for Brandreth's Pills. The first weakens the principle of life, and keeps the blessings of health from the body. And the last, to purchase a Pill called Brandreth's of a Druggist, is to insure the purchaser a base counterfeit, entirely incapable of producing the beneficial results of the genuine medicine. To insure this it must be purchased of the undermentioned Agents duly appointed by me, and who hold a regular certificate of agency, which is renewed yearly. There is an agent with one of these certificates in every town in the United States. Those purchasing at wholesale, must remember that all my travellers have a power of Attorney, regularly proved to be my act before the Clerk of the county of New York.

The following is a list of names of all the Agents in Monroe and Pike counties. To purchase of any in these Counties not mentioned in this list will subject the purchaser to sure deception.

MONROE COUNTY. Stroudsburg, RICHARD S. STAPLES. New Marketville, TROXEL & SCHOCH. Duottsburg, LUKE BRODHEAD.

PIKE COUNTY. Milford, JOHN H. BRODHEAD. Bushhill, PETERS & LABAR. Dingman's Ferry, A. STOLL & Co.

Observe, no pills are genuine sold under the name of Brandreth's in Monroe or Pike counties, except those sold by the above agents. Philadelphia Office, No. 2, North Eighth street. B. BRANDRETH, M.D.

THE CONSTITUTION.

What is that we call the Constitution? The constitution is evidently that which constitutes, and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost health, does not wish to have it restored. Use then the proper means. Examine with Purgative Medicine all corrupt humors in the body, and the blessing, Alvida, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the only disease to which the human frame is subject, because they clog up the veins and arteries, and prevent the free circulation of the blood.

Brandreth's Vegetable Universal Pills cure this disease, because they remove the corrupt or vitiated humors by the stomach and bowels, leaving the good humors to give life and health to the body. It is morally impossible that they can fail to cure, provided Nature is not entirely exhausted.

Dr. Brandreth's Office for the sale of his pills in Philadelphia, is No. 2, North Eighth street. Sold in Stroudsburg, by RICHARD S. STAPLES; in Milford, by J. H. BRODHEAD, and in Monroe and Pike counties, by the agents published in another part of this paper.

KEEP IT BEFORE THE PEOPLE.

Doct. Joseph Priestly Peters' CELEBRATED VEGETABLE ANTI-BILIOUS PILLS, are daily effecting some of the most astonishing and wonderful cures that have ever been known, the town and country are filled with their praise, the Palace and Poor-house alike echo with their virtues in all climates and under all temperatures they still retain their wonderful virtues.

PETERS' VEGETABLE PILLS.

Breathes there the man who may not be occasionally benefited by the use of Peters' Pills? No, assuredly not; for the human frame, like any other structure, will fall into confusion and ruin, if neglected; but, by the aid of medicine judiciously applied, it is enabled to preserve a healthy and even tone; and it is the first of well-tested public opinion, that Dr. Peters' pills are the medicine of medicines in the prevention or cure of the general diseases which the human tenement is incidental to.

Do men in robust health require medicine? Certainly, for the very excess of health begets certain diseases unless duly regulated. If the blood is suffered to run riot without correcting laxatives, costiveness, megrim, biles, scurvy, spleen, pimples, furred tongue, or offensive breath, are the inevitable consequences; for exuberance of health, like over-rich soil, becomes rank, and prone to the production of weeds, if care is not taken to have it judiciously moderated.

But healthy men have an antipathy to the very name of medicine! And no wonder, for nineteenth-twentieths of all the medicines in the world commence operations by making the people very sick, whom it was intended they should make very well; and thus in most cases the cure is considered rather worse than the disease. But Dr. Peters' Pills is the celebrated and particular exception to this almost universal rule. In them there is no gripe, no nausea, no sickness of any kind; nay, they are absolutely very pleasant to the taste, and rest as quietly on the stomach as so many conifers of green peas, even when their operations are as sudden and effective, as if they were as disagreeable and as sickening as an old fashioned bogus. Thus the man who uses Peters' Pills, [and where is the man that does not use them?] expels headaches, fevers, blue devils, blotches, pimples, &c. &c. and makes his blood course as limpid and as gently through his veins as a mountain rivulet, without having put himself to any more inconvenience in taking the medicine than he would have done in swallowing so many black currants.

Should ladies take Dr. Peters' Pills? Doubtless they should, for they not only assure them of health, complacency of spirits, and every bodily comfort, but through their miraculous agency in the purification of the blood, speedily remove every thing pertaining to harshness, pimples, or casual scurvy, from the flesh, animates the eye, and gives an elasticity and a vigor to the limbs, and the general carriage; and hence, when you see a lady with a cheek of velvet softness, a purely and carnation complexion, and an easy & graceful bearing, the general inference to be drawn is, that she is her own physician, and very particular in the choice of her medicine; and the especial one, that she is a patron of Peters' Pills.

Leaving health out of the question, should poets, novelists, editors, machinists, and men of genius and science in general, patronise Peters' Pills? Unquestionably, for the vigor which they impart to the frame, exercises a most wholesome influence upon the intellect; and the writer of this feels justified in saying, that any person about to carry out an idea, whether of composition or invention, will have a more lucid understanding of his subject, and think better and more to the point on it, after he has vivified his system by a dose of one to four of Peters' pills. Persons in business, merchants, store keepers, clerks, speculators, &c. will derive great advantage from them on the same principle; for if the mind is not buoyant, no man can attend to the usual pursuits of life with due perspicuity, judgment, and pleasure and there is nothing in the world, at least that has been ever discovered, so efficient in brightening the faculties, and freeing them from participating in the languor, decay, and imperfection of their mortal abode as Dr. Peters' pills.

To what may be attributed these singular and wonderful effects? Why, to their mysterious and inevitable action upon the chyle, and that particular region of the system whence the living fluid is generated; for thus they do not only purify the blood, but create pure blood, the issue of which is healthy veins, arteries, and other functions, unobscured vision, firm and pulpy flesh, smooth and clear skin, and the consequent buoyancy of heart, feeling, and action. In short, whether we take them as a matter of health, business, feeling, or personal appearance, there is none of us should leave our houses without a regular supply of Peters' Pills.

More than six millions of boxes of these celebrated pills have been sold in the United States, Canada, Texas, Mexico, and the West Indies, since January 1835. The certificates that have been presented to the proprietor, exceed 20,000, upwards of 500 of which are from regular practicing physicians—who are the most competent judges of their merits.

TESTIMONIALS.

OPINIONS OF THE REGULAR FACULTY. The following are but a few taken at random, from a pile of complimentary epistles forwarded to Dr. Peters by regular physicians, touching the efficacy of his pills. He feels proud and grateful in being able to lay such documents before the public.

New Orleans, April 24, 1837.

Dear Sir—As an old classmate of yours in Yale college, I take the liberty of opening a correspondence.

I learn that you are making a fortune by the sale of your pills, which I trust is the case as I am fully aware that through them you are conferring a great blessing on the public.

I myself am among those who have been peculiarly benefited by their use. Since my arrival here I had been subject to severe bilious attacks, which had nearly brought me to the grave, but (and I acknowledge it with gratitude,) a few boxes of your pills have completely restored me. I would add that their effect upon Sick Headache and sour stomach is almost miraculous.

With sentiments of esteem, H. M. SHEPHERD, M. D.

Clarksville, Mecklenburg Co., Va., Feb. 7, 1837.

Dear Sir—I embrace this opportunity of expressing to you my pleasure at the unrivalled success of your pills in this section of the country. It is the general fault of those who vend patent medicines to say too much in their favor; but in

regard to your pills I am firmly persuaded that they deserve far more praise than you seem inclined to give them. Six months ago they were scarcely known here, and yet at present there is no other medicine that can compare with them in popularity. In Dyspepsia, Sick Headache, derangement of the Biliary organs, and obstinate constipation of the bowels, I know of no aperient more prompt and efficacious; and I have had considerable experience in all these complaints. I would add that their mildness and certainty of action render them a safe and efficient purgative for weekly individuals; and that they may be given at all times without apprehension of any of those injurious consequences which so frequently attend the application of calomel, or blue pill. On the whole I consider your Vegetable Pills an invaluable discovery.

Very respectfully, S. H. HARRIS, M. D. Charlotte, N. C., January 1, 1837.

Dear Sir—I have made frequent use of your pills in the incipient stage of Bilious Fever, and obstinate constipation of the bowels; also in the enlargement of the Spleen, Chronic Diseases of the Liver, Sick Headache, General Debility, and in all cases have found them to be very effective. J. D. BOYD, M. D. Mecklenburg Co., Va., February 7, 1837.

Having used Dr. Peters' Pills in my practice for the last twelve months, I take pleasure in giving my testimony of their good effects in cases of Dyspepsia, Sick Headache, Bilious Fevers, and other diseases, produced by inactivity of the liver. They are a safe and mild aperient, being the best article of the kind I have ever used. GEORGE C. SCOTT, M. D.

Extract of a letter by Dr. Joseph Williams, of Burlington, Vt. July 9, 1837.

"I cordially recommend Peters' Pills as a mildly effective, and in no case dangerous family medicine. They are peculiarly influential in costiveness and all the usual diseases of the digestive organs."

Extract of a letter from Dr. Edward Smith, of Montreal, U. C. September, 29, 1836

"I never knew a single patent medicine that I could put the slightest confidence in but Dr. Peters' Vegetable pills, which are really a valuable discovery. I have no hesitation in having it known that I use them extensively in my practice, for all complaints, (and they are not a few,) which have their source in the impurity of the blood."

Extract of a letter from Dr. Pye, of Quebec, L. C., March 6, 1837

"For bilious fevers, sick headaches, torpidity of the bowels, and enlargement of the spleen, Dr. Peters' pills are an excellent medicine."

Those who have used these valuable Pills in this State, give them the preference to all other kind. Prepared by Joseph Priestly Peters, M. D. inventor and sole proprietor, No. 129 Liberty street, New York.

These Valuable Pills can be obtained of Doct. Samuel Stokes and J. D. & C. Malvin's, Stroudsburg, only agents for Monroe county. Stroudsburg, October 23, 1840.

Stagnation of the Blood.

The repeated changes in the atmosphere, by acting as they do upon the consistency and quality of the blood, give occasion for the most fatal and malignant disorders. The blood from a state of health becomes stagnant and is plunged into a state of corruption.

Thus it loses its purity: its circulation is impeded; the channels of life are clogged; the bowels become costive, and if not an immediate attack of some malignant fever, headache, nausea, loss of appetite, and a general debility of the whole frame are sure to follow.

It requires the tempest and the tornado to bring about a state of purity in the ocean, when its waters become stagnant; and it will require repeated evacuation by the stomach and bowels before the blood can be relieved of its accumulated impurity.

Brandreth's Vegetable Universal Pills, should be taken, then there will be no danger; because they purge from the stomach and bowels these humors which are the cause of stagnation, cleanse the blood from all impurities, remove every cause of pain or weakness, and preserve the constitution in a state of health and vigor that casual changes cannot effect.

Dr. Brandreth's Office for the exclusive sale of his Vegetable Universal Pills, in Philadelphia, is at No. 8, North Eighth street. Price 25 cents per box.

For sale by RICHARD S. STAPLES, in Stroudsburg; in Milford by J. H. BRODHEAD, and in Monroe and Pike counties by agents published in another part of this paper. October 16, 1840.

EASTON

UMBRELLA MANUFACTORY.

The subscriber grateful for past favors, would thank his friends and the public generally, for their kind encouragement, and would beg leave to inform them that he is now manufacturing a large assortment of Umbrellas and Parasols which he offers for sale at Philadelphia and New York prices.

Merchants will find it to their advantage to give him a call before purchasing in the cities. He would state that his frames are made by himself, or under his immediate inspection, and that he has secured the services of an experienced young lady, to superintend the covering department.

N. B.—As the subscriber keeps everything prepared for covering and repairing, persons from the country can have their Umbrellas and Parasols repaired and covered at an hour's notice. CHARLES KING.

401-2 Northampton Street next door to R. S. Childsey's Tin ware manufacturing Establishment. Easton, July 1, 1840.

PAINTING & GLAZING.

The subscriber respectfully informs the public, that he is prepared to execute all kinds of Plain & Ornamental Painting, Glazing, &c.

at his shop nearly opposite the store of William Eastburn, where all orders in his line will be thankfully received and punctually attended to. JAMES PALMER.

Stroudsburg, Jan. 15, 1839.

Paper Hanging,

In all its various branches will be punctually attended to. J. P.

LADIES' COMPANION.

New Volume commenced with the Nov. Number. A Circulation of 20,000.

THE Ladies' Companion, established in May, 1834—a popular and highly esteemed magazine of General Literature and the Fine Arts; embellish with gorgeous and costly engravings on steel, and the Quarterly fashions; and also with Fashionable and popular Music, arranged for the Piano-Forte, and Guitar.

Since the publication of the number for May, the demand for the Ladies' Companion has been unprecedented and beyond the most sanguine anticipations. At the commencement of the volume an additional number of copies were printed, which was considered at the time adequate to satisfy all the orders which might be received, and leave a considerable number on hand for subsequent calls. The publisher is more than gratified in stating that the whole of an edition of six thousand, five hundred copies, was completely exhausted before the issuing of the third number of the volume; and, consequently, he was compelled to reprint a second edition of two thousand copies, making the circulation of the Ladies' Companion eight thousand five hundred, at the termination of the tenth volume. In consequence of this great and unparalleled increase of new subscribers, he has determined to commence the new volume for the ensuing year with thirteen thousand; hoping that he will thus be enabled to supply all the demands for the Ladies' Companion, as well as those disappointed in commencing with the tenth volume. The proprietor feels grateful for that encouragement which has been so lavishly bestowed upon his magazine, and at the same time he begs to assure the readers of the Ladies' Companion, that it is determined resolution to meet it with a corresponding liberality to merit its continuance. The work appears in beautiful new type, printed on the finest paper; smoothly pressed, and neatly stitched in a handsome cover.

The Ladies' Companion contains a larger quantity of reading than any other magazine issued in this country, and its subscription price is only three dollars a year, while the great combination of talent secured for the coming year will render it unequalled by any other periodical. Splendid Steel Engravings, prepared by Mr. A. Dick, ornament the work—one of which accompanies each number. These plates are entirely new, and are engraved at a heavy expense by one of the best artists in America, expressly for the magazine. The designs are selected with a view of interesting the general reader, and enhancing the value of the work, for its superior pictorial embellishments. It is with pride the proprietor announces that the Ladies' Companion is the only magazine published, in which new and elegant steel plates appear regularly. Those accompanying other monthly periodicals, are generally first worn out in annuals. In addition to the engravings mentioned, a correct plate of the Quarterly Fashions for Ladies, will appear in the June, September, December, and March numbers, independent of the usual embellishment. It is the determination of the proprietor, that these fashion plates shall appear in a style hitherto unknown. It literary character will undergo no change, as it will remain under the charge of the same Editors as heretofore. Articles from the pens of the most distinguished writers, will appear in the forthcoming numbers, among which may be enumerated the following—Mrs. Holland, Emma C. Embury, Lydia H. Sigourney, Frances S. Osgood, Ellet, Caroline Orne, Seba Smith, Ann S. Stevens, Miss Hannah F. Gould, Mary Ann Browne, Charlotte Cushman, Mary Emily Jackson, Henry W. Herbert, author of 'Cromwell,' &c. Professor J. H. Ingraham, author of 'Burton,' 'Capt. Kidd,' &c., Professor H. W. Longfellow, author of 'Outre Mer,' Wm. E. Burton, Chief Justice Mellen, John Neal, Park Benjamin, Grenville Mellen, N. C. Brooks, A. M., George P. Morris, Rot. Hamilton, Isaac C. Pray, Wm. Comstock, Hiram B. Dennis, Rev. J. H. Clinch, James Brooks, Albert Pike, F. A. Durivage, C. F. Daniels, former Editor of the N. Y. Gazette, together with several others, with whom negotiations are pending. They will hereafter be announced.

Mrs. Ann S. Stephens, } William W. Snowden, } Editors.

The Musical Department of the Ladies' Companion has ever commanded a large share of attention, and has been looked upon with no little interest by its readers, and more especially the Ladies, whom the publisher is anxious to please. It will continue to be a subject of more than usual care to him, and to the Professor under whose supervision it is placed, to make that portion of the magazine deserving of the countenance of every lover of music. Tac Work in General. Of every department an equally careful supervision will be strictly exercised by the Editors, and all appropriate expenditures will be liberally bestowed, as it is the design of the publisher, with the aid of his contributors and the advice of his friends to make the Ladies' Companion distinguished for the beauty and accuracy of its typography, the variety and high tone of its literary articles, the quality and value of its music, and the unequal splendor of its pictorial embellishments, and the accuracy of its quarterly fashions. The proprietor pledges himself to use all honorable means to maintain the superiority which the Ladies' Companion has obtained.—For five years he has steadily pursued a course of improvement, and he flatters himself that his present facilities are such as to give the work eminent advantages over all other publications. From the foregoing it will be perceived that the Ladies' Companion embraces every department within the range of Belles-Lettres and the Fine Arts: and no exertions or expense will be deemed too great to render the work equal to any other extant. The flattering and general testimonials of nearly every contemporary journal in the United States, and in fact, many on the other side of the Atlantic, have strongly asserted the undeniable claims of the Ladies' Companion to the support of the public generally. There is no work that gives its readers such a great return for their money. Terms—Three Dollars a year in advance, or Four Dollars during the year. No subscription received for less than a year. Letters must be post paid, otherwise the postage is deducted, and credit given only for the balance. Address WM. SNOWDEN, 109 Fulton street, New York.

A CARD.

THE holders of the certificates or notes of the Taylorsville Delaware Bridge Company, are hereby informed that said certificates of notes are redeemed by the Treasurer, at the office of the company, on presentation as usual. M. K. TAYLOR, Treasurer. January 20th, 1841.

BAR IRON.
