AVOID DISEASE AND ATTAIN THEALTH IS NOW IN THE POWER OF EVERY ONE .- DR. BENJA-MIN BRANDRETH'S Vegetable Universal Pills,

Introduced into the United States, May 18, 1835. There has never been an instance of these celebrated Vegetable Universal Pills not giving relief and perseverance in old, obstinate cases, is sure making a cure, provided nature is not entirely exhausted. They have cured since their introduceighteen offices for their exclusive sale, at least and on as liberal terms. one in every principal city in the Union, at an expense of near forty thousand dollars per year-And with the expenses of advertising, and other incidentals, the sum was a little over One Hundred and Thirty Thousand Dollars for the year 1839; some idea may be formed how the medicine is appreciated from these facts; they are indeed the greatest blessing that ever yet has been be-

I have often found persons desirous to know how soon this medicine will cure them. It is impossible to say-it altogether depends upon the state of the blood and humors. One thing may be relied upon-that if the pills are persevered with according to the printed direction which accompanies each box, the cure will be effected much sooner than the patient could have expected. The many lingering chronic diseases we daily see, are owing either to mercury or bleeding, or to not having been properly purged in fevers, inflamations, cold, measels, small pox or lying in. It is utterly impossible for us to attain or keep health without sound purging. We may fasten up the disorder by barks and tonics, but if it be in the body, it must come out before health is enjoyed, and sooner or later it will break out of itself, worse than ever, if this method of purifying the body is delayed too long. No danger can arise from purging with Brandreth's Pills. It has been proved, beyond doubt, that these celebrated Pills and the human body are naturally adopted one for the other. By the use of this Glorious Medicine the contents or humors of the body, can be entirely evacuated, altered, and completely regenerated; and in a manner so simple as to give every day ease and pleas-

Brandreth's Pills are no less a cure than a preventive of diseases. When we feel dull, pain in the head, back, or side-weary on the least exertion-it is then we ought to take a dose of these Pills. This will always have a good effect, because it is impossible for pain to be in the body

and I have been able to ascertain, either by experience of from books has confirmed me in the opinion, that pain, every feeling contrary to health, is produced when the natural outlets of the body become incapable of discharging the corrupt humore generated in the body, as fast as nature requires their expalsion. And that to secure health, we have only to purge ourselves, until health is restored. A practice which experience has esout the possibility of any injurious effects. They ton street, Easton Pa. who have adopted this simple plan have secured the best state of health their bodes were capable of enjoying. The weak have become robust. The robust have become more so. All mankind would be benefitted by this practice, except physicians; and they would be bodily, though not profession-

Let me now recommend two things, never be bled, and never go to a Druggist for Brandreth's Pills. The first weakens the principle of life, and long keeps the blessings of health from the body. And the last, to purchase a Pill called Brandreths of a Druggist, is to insure the purchaser a base counterfest, entirely incapable of producing the beneficial results of the genuine medicine. To insure this it must be purchased of the undermentioned Agents duly appointed by me, and who hold a regular certificate of agency, which is renewed yearly. There is an agent with one of these certificates in every town in the United Easton, March 31, 1841. States. THE CONSTITUTION.

the constitution ! constitution is evidently that which constitutes and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and Eastern, March 31, 1841. that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost heaith, does not wish to have it restored. Use then the proper means. Expel with Purgative Medicine all currupt humors from the body, and the blessing, Health, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every of the blood.

Do men in robust health require medicine! Certainly, for the very excess of health begets certain diseases unless duly regulated. If the blood is suffered to run riot without correcting laxatives, costiveness, megrin, biles, scurvy, spleen, pimples, furred tongue, or offensive breath, are the inevitable consequences; for exuberance of health, like over-rich soil, becomes rank, and prone to the production of weeds, if care is not taken to have it

judiciously moderated. But healthy men have an antipathy to the very name of medicine! And no wonder, for nineteentwentieths of all the medicines in the world commence operations by making the people very sick, whom it was intended they should make very well; and thus in most cases the cure is considered rather worse than the disease. But Dr. Peters' Pills is ly effective, and in no case dangerous family methe celebrated and particular exception to this al- dicine. They are peculiarly influential in cosmost universal rule. Thus the man who uses Peters' Pills, [and where is the man that does not use them !] expels headaches, fevers, blue devils, blotches, pimples, &c. &c. and makes his blood course as limpid and as gently through his veins as a mountain rivulet, without having put himself to any more inconvenience in taking the medicine than he would have done in swallowing so many black currants.
