TO AVOID DISEASE AND ATTAIN HEALTH IS NOW IN THE POWER OF EVERY ONE .- DR. BENJA-MIN BRANDRETH'S Vege-

table Universal Pills, Introduced into the United States, May 18, 1835 There has never been an instance of these celebrated Vegetable Universal Pills not giving relief and perseverance in old, obstinate cases, is sure making a cure, provided nature is not entirely exhausted. They have cured since their introducsold over twelve miltions of boxes, and have now they can be obtained in New York or Philadelphia, eighteen offices for their exclusive sale, at least and on as liberal terms. one in every principal city in the Union, at an expense of near forty thousand dollars per year-And with the expenses of advertising, and other incidentals, the sum was a little over One Hundred and Thirty Thousand Dollars for the year 1839; some idea may be formed how the medicine is appreciated from these facts; they are indeed the greatest blessing that ever yet has been bestewed on man.

I have often found persons desirous to know how soon this medicine will cure them. It is impossible to say-it altogether depends upon the state of the blood and humors. One thing may be relied upon-that if the pills are persevered with according to the printed direction which accompanies each box, the cure will be effected much sooner than the patient could have expected. The many lingering chronic diseases we daily see, are owing either to mercury or bleeding, or to not having been properly purged in fevers, inflamations, cold, measels, small pox or lying in. It is utterly impossible for us to attain or keep health without sound purging. We may fasten up the disorder by barks and tonics, but if it be in the body, it must come out before health is enjoyed, and sooner or later it will break out of itself, worse than ever, if this method of purifying the body is delayed too long. No danger can arise from purging with Brandreth's Pills. It has been proved, beyond doubt, that these celebrated Pills and the human body are naturally adopted one for the other. By the use of this Glorious Medicine the contents or humors of the body, can be entirely evacuated, altered, and completely regenerated; and in a manner so simple as to give every day ease and pleas-

Brandreth's Pills are no less a cure than a preventive of diseases. When we feel dull, pain in the head, back, or side-weary on the least exertion-it is then we ought to take a dose of these Pills. This will always have a good effect, because it is impossible for pain to be in the body without the presence of those humors which produce it, and it is only by their being forced out with purging that health can be restored.

All that I have been able to ascertain, either by experience or from books has confirmed me in the opinion, that pain, every feeling contrary to health, is produced when the natural outlets of the body become incapable of discharging the corrupt humors generated in the body, as fast as nature requires their expulsion. And that to secure health, we have only to purge ourselves, until health is restored. A practice which experience has established, is fully able to produce this result, without the possibility of any injurious effects. They ton street, Easton Pa. who have adopted this simple plan have secured the best state of health their bodes were capable of enjoying. The weak have become robust. The robust have become more so. All mankind would to benefitted by this practice, except physicians; and they would be bodily, though not profession-

The first weakens the principle of life, and long keeps the blessings of health from the body. And the last, to purchase a Pill called Brandreths of a Druggist, is to insure the purchaser a base counterfest, entirely incapable of producing the beneficial results of the genuine medicine. To insure this it must be purchased of the undermentioned Agents duly appointed by me, and who hold a regular certificate of agency, which is renewed yearly. There is an agent with one of these certificates in every town in the United Easton, March 31, 1841. States. Those purchasing at wholesale, must remember that all my travellers have a power of Attorney, regularly proved to be my act before the Clerk of the county of New York.

## THE CONSTITUTION.

What is that we call the Constitution? The constitution is evidently that which constitutes, and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost health, does not wish to have it restored. Use then the proper means. Expel with Purgative Medicine all currupt humors from the body, and the blessing, Health, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the only disease to which the human frame is subject, because they clog up the

CELEBRATED VEGETABLE ANTIBILOUS PILLS, are daily effecting some of the most astonishing popularity. In Dyspepsia, Sick Headache, deand wonderful cures that have ever been known, rangement of the Biliary organs, and obstinate the town and country are filled with their praise, constipation of the bowels, I know of no aperient the Palace and Poor-house alike echo with their vir- more prompt and efficacious; and I have had contues in all climates and under all temperatures siderable experience in all these complaints they still retain their wonderful virtues.

PETERS' VEGETABLE PILLS.

Breathes there the man who may not be occasasionally benefited by the use of Peters' Pills? No, assuredly not; for the human frame, like any other structure, will fall into confusion and ruin, if neglected; but, by the aid of medicine judiciously applied, it is enabled to preserve a healthy and even tone; and it is the firt of well-tested public opinion, that Dr. Peters' pills are the medicine of medicines in the prevention or cure of pills in the incipient stage of Bilious Fever, and For 10 copies, for 1 year, the general diseases which the human tenement obstinate constipation of the bowels; also in the

tain diseases unless duly regulated. If the blood is suffered to run riot without correcting laxatives, costiveness, megrin, biles, scurvy, spleen, pimples, furred tongue, or offensive breath, are the inevitable consequences; for exuberance of health, like over-rich soil, becomes rank, and prone to the production of weeds, if care is not taken to have it

judiciously moderated.

But healthy men have an antipathy to the very name of medicine! And no wonder, for nineteentwentieths of all the medicines in the world commence operations by making the people very sick, Extract of a letter by Dr. Joseph Williams, of Burwhom it was intended they should make very well; and thus in most cases the cure is considered rather no nausea, no sickness of any kind; nay, they are absolutely very pleasant to the taste, and rest as quietly on the stomach as so many confits of green peas, even when their operations are as sudden and effective, as if they were as disagreeable and as sickening as an old fashioned bolus. Thus the man who uses Peters' Pills, [and where is the makes his blood course as limpid and as gently complaints, (and they are not a few.) which have from abroad, New Publications, Moral Readings, through his veins as a mountain rivulet, without their source in the impurity of the blood." having put himself to any more inconvenience in Extract of a letter from Dr Pye, of Quebec, L. C. taking the medicine than he would have done in swallowing so many black currants.

lessly they should, for they not only assure them ters' pills are an excellent medicine. of health, complacency of spirits, and every bodily comfort, but through their miraculous agency in the purification of the blood, speedily remove every thing pertaining to harshness, pimples, or casual scurvy, from the flesh, animates the eye, and gives an elasticity and a vigor to the limbs. and the general carriage; and hence, when you see a lady with a cheek of velvet softness, a pure lily and carnation complexion, and an easy & graceful bearing, the general inference to be drawn is. that she is her own physician, and very particular in the choice of her medicine; and the especial one, that she is a patron of Peters' Pills.

Leaving health out of the question, should poets, carry out an idea, whether of composition or in- lings, biles, piles, spider and snake bites &c .-his subject, and think better and more to the point influence. Thus if properly applied it will remove life with due perspicuity, judgment, and pleasure and even in the bite of a rabid dog, for if applied and there is nothing in the world, at least that has in time, its powers of attraction are so wonderful been ever discovered, so efficient in brightening that they will at once arrest the poison and thus the faculties, and freeing them from participating prevent it from pervading the system. It is likein the languor, decay, and imperfectibilty of their mortal abode as Dr. Peters' pills.

To what may be attributed these singular and wonderful effects? Why, to their mysterious and inevitable action upon the chyle, and that particular region of the system whence the living fluid is generated; for thus they do not only purify the blood, but create pure blood, the issue of which is healthy veins, arteries, and other functions, unobscured vision, firm and pulpy flesh, smooth and clear skin, and the consequent buoyancy of heart, following samples, he was governed more by their feeling, and action. In short, whether we take them as a matter of health, business, feeling, or personal appearance, there is none of us should leave our houses without a regular supply of Peters' Pills.

More than six millions of boxes of these celebrated pills have been sold in the United States, Canada's, Texas, Mexico, and the West Indies, since January 1835. The certificates that have upwards of 500 of which are from regular pracjudges of their merits.
