

**Wonderful Escape from Lightning.**

From the Worcester (Mass.) Spy.  
A more remarkable escape from death by lightning than that we now place on record, perhaps has never occurred in this country. On the afternoon of the 30th ult., the children from our several schools, to the number of upwards of four hundred, were assembled at the vestry of the Baptist Meeting house, preparatory to a picnic which they were to attend to the 3d inst. About 4 o'clock a small cloud came up, from which a heavy clap of thunder proceeded, apparently very near by, in consequence of which, and of other indications of a shower, they were dismissed in the hope that they would have time to reach their homes before it would rain. It is estimated, however, that not more than about one third of them had left the room, when the building was struck by a discharge of the electric fluid, which spent most of its force in the lower part of the house, particularly in the vestry where the children were assembled. The scene which ensued may be imagined but cannot be described. Of the 250 children who were in the room, a considerable portion were struck instantly to the floor. Fifteen or twenty who were crowding to the door were laid prostrate in a heap, piled one upon another. Some were stunned, and others appear to have been deprived, for a time, of their reason. Some dozen or fifteen of them were more or less injured, but not one of them dangerously! A daughter of the publisher of this paper, about 9 years old, was blistered on her wrist, on her left arm and on the bottoms of her feet. Her shoes were torn from her feet, the upper leather rent to tatters and a hole about as large as would be made by a good sized buck shot was pierced by the electric fluid, through the sole of each. When brought home, her feet were much swollen and looked red and inflamed, as if they had been dipped in water not quite hot enough to raise a blister, except on the soles directly over where the holes were burnt in the bottom of the shoes, where blisters were raised. She could not stand, and complained of numbness from her knees downward, except in her feet, which were exceedingly sore to the touch. But she recovered so as to be about the house, apparently as well as usual, the next morning, except a slight lameness from the burn on one of her feet. A child of Lewis Thayer had her shoes torn from her feet in a similar manner. Other children were burnt on different parts of their bodies. All of them, we believe, were in a good degree recovered the next morning, except a daughter of Peter Slater, who was more injured than the rest, but not dangerously so.

The damage by lightning was owing to the unscientific and defective manner in which the conductor was fitted. In putting it up, a hole was drilled into a rock some three or four feet deep, into which the lower end was inserted and there left, instead of being carried to where it could communicate with some conducting substance. It might just about as well have been cut off at the surface of the earth. As might have been expected, the fluid, unable to escape at the lower end, exploded, and entered the side of the house about midway from the eaves to the ground, and apparently at some other places lower down. It tore off the clapboards and covering for some extent about the place where it first entered. Thence it seems to have spread itself in all directions through the lower part of the house. Timbers were shivered, and the marks of the fluid are to be traced with more or less distinctness over a considerable portion of the vestry floor. The children who were most injured were at the end of the room next to the conductor, some of them standing directly under an open window, where, it is believed a portion of the fluid entered. The door is at the end of the room.

The cloud from which this shock proceeded, was, as we have before said, small; but little rain fell from it at all, and, at the same time the house was struck, we believe the sun shone bright.

**WOOD TYPE.**

Cut by Machinery, and warranted superior to any heretofore manufactured.

GEORGE F. NESBITT, Tontine building, corner of Wall and Water streets, New-York, respectfully informs the Printers of the United States, that he has now in full operation his machine for cutting Wood Types, which being an entire new invention, is warranted to cut Types, both plain and ornamental, far superior to any heretofore exhibited to the public; and in proof of the assertion, informs the public that he has obtained Diplomas and Medals from both the American and Mechanic's Institutes of the City of New-York, at their Fairs of 1836, 1838, and 1839, as the books of the Institute will show.

George F. Nesbitt would particularly invite the attention of Printers to the fact, that through the politeness of the proprietors of the Liverpool and Havre line of packets, he has been favored with the latest French and English specimens, that many of the new styles in them are very handsome, and have been got up by him; they were exhibited by him at the Mechanic's Fair in this city, now just closed and pronounced by the Committee of Printers, appointed to examine Types and Specimens, to be superior to any Wood Types ever before exhibited, and having a decided advantage over large Metal Types.

George F. Nesbitt would also inform the Printers of the United States, that he is ready to cut Types on Wood of any size, from 5 lines Pica, upward, from any of the patterns of small or Types contained in the extensive specimen of Messrs. G. Bruce & Co., or from any new pattern that can be suggested.

George F. Nesbitt is desirous that Printers, and those becoming Agents, should be acquainted with the fact, that his prices are much reduced from those heretofore charged by other manufacturers; that he allows his Agents thirty per cent. commission; that his terms are six months or ten per cent. discount for cash.

Agents are wanted for the following cities, viz: Charleston, Albany, Detroit, Rochester, and Buffalo.

N. B. Printers of Newspapers, who will publish the above for six times, within three months from this date, and will send me a copy of their paper, shall be entitled to \$3 in Types; and should the Types not prove superior to any ever before manufactured, they can be returned, and the money will be paid in place of them.

**THE CONSTITUTION.**

What is that we call the Constitution? The constitution is evidently that which constitutes, and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost health, does not wish to have it restored. Use then the proper means. Expel with Purgative Medicine all corrupt humors from the body, and the blessing, Health, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the only disease to which the human frame is subject, because they clog up the veins and arteries, and prevent the free circulation of the blood.

Brandreth's Vegetable Universal Pills cure this disease: because they remove the corrupt or vitiated humors by the stomach and bowels, leaving the good humors to give life and health to the body. It is morally impossible that they can fail to cure, provided Nature is not entirely exhausted. Dr. Brandreth's Office for the sale of his pills in Philadelphia, is No. 8, North Eighth street. Sold in Stroudsburg, by RICHARD S. STAPLES, in Milford, by J. H. BRODHEAD, and in Monroe and Pike counties, by the agents published in another part of this paper.  
June, 5 1841.

**Stagnation of the Blood.**

The repeated changes in the atmosphere, by acting as they do upon the consistency and quality of the blood, give occasion for the most fatal and malignant disorders. The blood from a state of health becomes stagnant and is plunged into a state of corruption.

Thus it loses its purity: its circulation is impeded; the channels of life are clogged; the bowels become costive, and if not an immediate attack of some malignant fever, headache, nausea, loss of appetite, and a general debility of the whole frame are sure to follow.

It requires the tempest and the tornado to bring about a state of purity in the ocean, when its waters become stagnant; and it will require repeated evacuation by the stomach and bowels before the blood can be relieved of its accumulated impurity.

Brandreth's Vegetable Universal Pills, should be taken, then there will be no danger; because they purge from the stomach and bowels these humors which are the cause of stagnation, cleanse the blood from all impurities, remove every cause of pain or weakness, and preserve the constitution in a state of health and vigor that casual changes cannot effect.

Dr. Brandreth's Office for the exclusive sale of his Vegetable Universal Pills, in Philadelphia, is at No. 8, North Eighth street. Price 25 cents per box.

For sale by RICHARD S. STAPLES, in Stroudsburg; in Milford by J. H. BRODHEAD, and in Monroe and Pike counties by agents published in another part of this paper.

**SHERMAN'S WORM LOZENGES**

Are the greatest worm medicines in the world. Dr. Churchill has used them in over fifty cases, cured ten of spasms, and three of fits. He considers them safe and sure, and recommends them to all.  
Mr. J. B. Noyes has used them in his family with entire success, and several of his friends have great confidence in them.  
Col L. Clark cured one of his children of spasms, and one of fits accented by worms.  
The Hon B. B. Beardsley thinks they have saved the life of one of his children. It had been a long time in a decline, and was attended by the best physicians without any relief. His family doctor recommended Sherman's worm Lozenges as the only hope; he did so, and through the blessing of God his child is now well—another living evidence of their wonderful virtues. Mr B says no family should be without them. More than 2,000 certificates might be added to their truly wonderful properties.

Capt Coffin, of Nantucket, consulted Dr Sherman, on account of his son, 8 years old. He had been in a decline for several months, and attended by four Physicians, who could afford him no relief. His symptoms were leanness, pallid hue, very offensive breath, disturbed sleep, broken off by fright and screaming, headache, a distressing cough, itching of the nose through the day, and of the anus towards night, with slimy discharges from the bowels. The doctor pronounced the case one of worms and recommended his Worm Lozenges. After the first dose the child ran to his parents frightened at the quantity of worms that came from him—he began to mend at once, and before he used one box, was entirely cured.  
Benj. F. Goodspeed, 130 Sixth Avenue has always cured his children of worms, by Sherman's Lozenges. He would not be without them in his house on any account.

The Rev. Jabez Townsend's little girl, nine years old, was given up as incurable by two physicians. She was fast wasting away, and was miserable, that death was alone looked for to relieve. Three doses of Sherman's Worm Lozenges entirely cured her.

Dr. Stevens, one of the most distinguished physicians in this country, says Sherman's worm Lozenges are the safest, best article he knows of for destroying worms.

Dr. Hunter, another celebrated physician, uses no other worm medicine in his practice.  
Dr. Castle, 297 Broadway, has used Sherman's Lozenges in his practice for more than two years, and never knew them to fail.

These valuable Worm Lozenges can be obtained at the Office of the JEFFERSONIAN REPUBLICAN, Stroudsburg, Monroe county, Pa.  
(Only 31 cts. per box.)
