The Recorder promptly refused such

From the Doylestown Intelligencer. The Delaware Division.

Mr. Editor :- I have waited with many others of my fellow citizens to hear whether those who could would make any reply to the many questions which have been asked concerning the Delaware Division of the Penn. Canal, but I have waited in vain. There seems to be no answer to the grave charges that have been made against those who have that canal in their hands. Silence in such cases generally implies guilt. After some enquiry into the facts, I am satisfied that the silence of the accused, warrants the worst construction. They will not answer because they cannot do so satisfactorily, for the truth condemns them. There has been a system of favoritism practised along all our public works, and the Delaware division is an instance.

On that Division, men have been brought from Lancaster and other remote places to receive bers of the Cabinent are truly hard working contracts for work at high prices, when better workmen would have done the work in a better manner, and at a moderate rate on the spot. Why is this? Why have certain individuals from a distance been brought into Bucks county, at an expense to the State, and why have band in the grounds of the President's house last our own native workmen been treated with ne-Wm. T. Rogers, as an officer of the canal, has given private contracts to certain favorites, who are strangers among us, and for some cause best known to himself and the Canal Commissioners, whose tool he is, has allowed them much higher prices for their work than the State should pay-prices that they never could have obtained, had there been as the law intends, a fair and honest competition for those contracts, among those who were willing to do the work. If this favoritism was only a preference for certain political friends, at the same price, the plain of being shut out from competition for all their ingenuity to torture it into any thing work; but when the Commonwealth is injured elso. in having the work badly done by these pets of the Supervisor, and when the people are obliged to pay those favorites more than others would charge for doing the work well, the evil cries aloud for reform. There is daily evidence of the negligence of those employed on the Canal, and while the daily pay of these inefficient operators is going on, the Delaware Division remains in a useless condition, unprofitable to the community, and without a prospect of soon being otherwise. I would ask Rogers two or three questions. Did not a breach take place on your section of the canal, during the last week? Is not that the THIRD break that has occurred at the same place since you have had to the chase! The cry now is, the murderer the management? Has not every break at that place been the result of negligence, and might John Banks! And can any one tell the motive they not have been prevented by vigilance and reasonable carefulness? If you answer these questions honestly, your own answer will convict you of unfitness for the station you hold.

The late Charles Ogle, of Pa,

The Bill to establish the Fiscal Bank of the Whig with which the memory of this man is bers, on a habeas corpus, sued out by order of United States finally passed the Senate yester- pursued by the Locofocos, would excite abhor- his counsel. Mr. Manchester, to shew cause day, and has come down to the House of Re- rence in the bosoms of a savage people. He why he should not be admitted to bail. There presentatives. This is another very important was scarcely cold in the grave, before with one are three indictments against him for forgery Bank Bill has passed the Senate by a majority step made in the progress of the business of accord, they opened upon him their batteries of amounting to \$1200, and one complaint for the of three. It will receive a few amendments in the Extra Session. We have no means of vilification and traduction .--- Some of them even same offence in \$220 more. After hearing alt the House, which will be concurred in by the judging with certainty of the fate of the bill in anticipated that solemn and melancholy event, the arguments of counsel, the Recorder decided the House; but, from the visible satisfaction in and sought to embitter his last moments by her- that Mitchell might be admitted to bail in \$1500 fied. To which Mitchell, going the round of the whole Locofoco press --- with a significant shrug, said "I think so too." with exclamation: "See what a Whig says to This may give one some idea of the way in Ogle's lies!"--- Now, we have but a word to say which some of the manufactories are carried to Mr. Watterson and the rest touching this let- on. The parties are to have a hearing before ter: It was not written by a Whig---and if it the Recorder this day, when the bail will be were, there is no conflict between its state- produced and justified .--- Cour. & Enq. ments and those of Mr. Ogle. The difference is only apparent, not real. Mr. Ogle gave, from official vouchers, the list of gorgeous articles purchased by the late dynasty for the White House. The letter describes the present tattered and dilapidated condition of those articles. The statement of the former referred to the purchase; that of the latter to the bad usage, which had soiled and dimmed their lustre. And this so far from extenuating the original prodigality, is an aggravation of it.

We beg of these jackalls of faction, if they has been brought from the river Amazon, the are determined to persist in their atrocious at- first of the kind, it is believed, that has ever tack upon the dead, that in future they forbear been brought here. REMOVALS FROM OFFICE .- The Locos complain that Gen. Harrison and John Tyler have made more removals from office in three months than the eight former Presidents did in fifty-two vears.

This is easily accounted for: there were more rogues and unworthy men in office at the commencement of the present administration, than were found in office since the organization of the Government!--Buck Eye.

IT It is rumored that the locos are so fully GAZE OFF THE ROBBERIES AND PECimpressed with the efficacy of coon skins du- ULATIONS OF GOV. men. They perform a vast deal of labor, and make no noise about it. A more able and laborious Cabinet has not perhaps been known. They work intensely, and what is more, they work harmoniously. The music of the marine evening, was very fine. A host of beautiful la- glect and contempt? dies were there to hear it, and gentlemen sufa porpoise floundering in shallow water.

The Weathercock turned again!

The assailants of Judge Banks, are at a perfect loss to find a vulnerable point of attack. Standing so immeasurably superior to their petty assaults, guarded by his rectitude of charac-

ter and defended by troops of friends, the shafts of malignity fall harmless around him. He has on an armor which cannot be penetrated-he is clothed with the protecting love of the people, and the ægis of truth is interposed between him and those ribald attacks, which compose the weapons of his political adversaries. As John Banks stands thus proof to the shock on his individual merits, the strangest contortions are apparent among the locos, to identify him and his principles with somebody else! He has been at times denounced as the tool of every person, against whom locofocoism had a settled and abiding hatred; but as no great amount of capital has been made by the operation, the political weathercock is now turned towards a new point, and Daniel Webster and the McLeod Case are made arguments against the election of John Banks!

With this new cue, by which to "tune their distressful notes," the whole pack has opened McLeod, the traitor Webster and their friend of this movement? why has this false issue been joined or what has it to do with our state politics? IT IS TO KEEP THE PUBLIC
