such an interest, as to justify the interposition of the Legislature. I speak in refer- tion. ence to the establishment of a Natinal Foundery, and the construction of a Dry Dock at Philadelphia. The first of these has recently engaged the attention of Congress, and seems likely to be received with general favor. Not disparaging the claims of other dence. The condition of the public treasusections of the country, we may without fearing contradiction on very rational grounds, urge in behalf of Pensylvania, the most conclusive reasons. Among them are our central position, our contiguity to the sea board, our numerous and perfectly safe inland communications with almost every section of the Union, and above all, the deposites of coal and iron scattered throughout our borders, to an extent unknown in any other quarter of point, perhaps in the valley of the Susquehanna, to the selection of Congress, as a site for a National Foundry; and the same reasons in point of location, apply with equal force in favor of constructing a Dry Dock at Philadelphia. In addition to those, its safety from the attacks of an enemy, its fresh water supplies, its conveniences of procuring timber and workmen, all conspire to enforce its claims upon the notice of the General Government in the most convincing form. I will cheerfully co-operate with you in any manner deemed most advisable in impressing these considerations npon the National not think they can be overlooked.

The great body of our citizens are free from debt, tion have never engaged in ruinous fancy stock speculations, are abundantly able and willing to comply with all their obligations, to each other, and to the citizens of every other State or country. It is true, our situation and habits of business have rendered us a debter State, and subjected us to responsibilities, which might easily have been avoided under a different system of policy. We purchase large amounts of manufactured goods of all kinds from the eastern States, to consume ourselves, and to sell to the citizens of the south and south west. GIVE EASE AND PLEASURE,

The above named Indian Vegetable Pills, have been three years before the American public; and we can now say without fear of contradiction, that of all the various medicines which have heretofore been popular, not one has given such universal satisfaction, or obtained such a permanent hold upon the affections of the people. Not only do all who use it invariably experience relief, and recommend it in the strongest terms: but it has effected some of the most astonishing cures ever performed by medicine.

Hitherto, very few of the numerous testimonia's which have been received in favor of this extraordinary medicine have been published, as the medvertising. It has been deemed proper however to cede all others in this city. offer the following opinions of the public press, together with a few extracts from letters of Agents, merely to show, that the fame of the Indian Vegetable Pills, is not confined to any one section, but is rapidly extending itself to every part of the Union. From the Philadelphia Saturday Evening Post.

THE INDIAN VEGETABLE PILLS.

Wright's Indian Vegetable Pills are attaining great celebrity in New England as well as other parts of the United States. The attempt of persons to defraud the public by the sale of spurious articles, meets with general reprobation. Mr. Wright is an indefatigable business man, and shows an array of cures by the medicine which warrant confidence in the virtues of his Indian Vegetable Pills.

There used to be in the community, a great repugnance to the use of QUACK medicines, as they are all indiscriminately termed, but it was mainly owing to the regular M. the consequence is that good vegetable medicines are now more extensively used than formerly. ceived a bale of superior BUFFALOROBES, Extract of a letter from Peter Christ, Uniontown, Carrol County, Md., Nov. 17th, 1838.
