

calling, other than that of his duties of cashier, such cashier upon conviction thereof in any court of criminal jurisdiction shall be sentenced to pay a fine of not less than one hundred, and not exceeding five hundred dollars and to undergo an imprisonment in the common jail, for any period of not less than one, nor more than five years.

Sec. 8. That hereafter no medium shall be received in the payment of tolls, taxes, or other revenue of the commonwealth, other than gold and silver, the notes of specie paying banks, or the legal issues under the act of fourth May, one thousand eight hundred and forty-one.—Provided, That this section shall not be construed as a repeal of a resolution passed at the present session of the Legislature in relation to tolls for carrying the mail on the Columbia railroad.

**Relief of Choked Cattle.**

Having by accident discovered a way to relieve cattle when choked by attempting to swallow too large a piece of ruta baga or other roots, I thought I would communicate the process of relief to the Cultivator.—Some two or three years ago, my beef cow got choked with a tuft of ruta baga, and having tried the usual mode of pouring soft soap down her throat without the desired effect, I concluded to butcher her before the turnep had done its work; she had fallen down before I could get a knife ready; so I took hold of the fore leg to turn her in a better position for opening the veins in the neck, when I perceived that she was relieved and soon got up. I attributed it to drawing the fore leg forward and out from the body.

I have recommended the same process to my neighbors, some of whom have tried it with complete success. I would suggest that each fore leg be pulled alternately.

Yours respectfully,  
DAVID F. LOTT.

**Practical Hints.**

The following items relating to rural economy are derived from conversations which we have from time to time entered into with sundry practical farmers.

**Tar for Sheep.**—A gentleman who keeps a large flock of sheep says, that during the season of grazing he gives his sheep tar, at the rate of a gill a day to every twenty sheep. He puts the tar in troughs, sprinkles a little fine salt over it, and the sheep consume it with eagerness. This preserves them from worms in the head, promotes their general health, and is thought to be a specific against the rot.

**Botts in Horses.**—A traveller informs us that the stage drivers on the routes leading from Albany to the western parts of the State of New York, in giving water to their horses on the road, mix a little wood ashes with their drink, which they say, effectually preserves them against botts.

**Thistles.**—It is said that if thistles are cut after they are in full bloom an inch or two above the ground they will be more easily subdued than those cut at the same time with the hoe below the surface. In the former case the remaining stub of the thistle gets full of water, which resting on the crown of the plant injures it so far as to occasion a few feeble shoots only to rise, whilst in the latter strong and luxuriant stems were produced.

**Cut worms.**—A friend informs us that he succeeded in destroying cut worms, by watering ground infested by them with brine in which hams had been preserved, diluted with a large proportion of water. In his first application he destroyed some of his vegetables, as well as the worms in consequence of using the brine without diluting it sufficiently. In succeeding trials he attained his object, and destroyed the worm without injuring the vegetables.—N. E. Farmer.

**COMFORT FOR THE BOOT AND SHOE MAKERS.**—By a recent arrival at Boston from Havre, we understand, there was an importation of six thousand pairs of Boots!

**MARRIED.**

**The American Laborer.**

**PROSPECTUS.**

Under the above title the subscribers will publish on the 1st of April, 1842, and on the 1st of each succeeding month, a Magazine of Facts, Arguments, Statistics, Speeches, Editorials, &c. &c., devoted exclusively to the advocacy and defence of the policy of Protection to American Labor against the selfish and grasping policy of Foreign Nations, especially of those with which we chiefly made, which shut out of their ports the great bulk of our Products, and especially those of our Free Labor, while they glut our markets, bankrupt our Merchants, depreciate our currency and furnish our Laborers and Artisans by pouring in upon us the products of their skill and Industry, on the easy terms proffered them by our low and non-Protective Duties. This Magazine will inflexibly and ardently advocate the true American Policy of countervailing these gross exactions of Great Britain and other Nations by a system of direct, avowed Protection to our Home Industry which shall be thorough and efficient.

The American Laborer will affirm and maintain the policy of encouraging and fostering by wise legislation the establishment and growth in our country of new or yet feeble branches of Industry, such as the Culture of Silk, the Manufacture of whatever fabrics of Wool, Cotton, Iron, &c., may be necessary for the supply of our own wants and to secure an perfect our Independence. It will demonstrate that the true and permanent interests of all, but especially of the Agricultural and Working Classes universally, will be inflexibly and signally promoted by adopting and carrying out the Protective Policy, and that the Wages of Labor, the average price of its Produce, and the aggregate

Product of the National Industry, will be surely and largely enhanced thereby. In short, this work is intended to form a complete text-book for the friends of Protection, and a thorough refutation at every point, of the pernicious fallacies put forth by the foreign and misguided American apologists for the policy of one-sided Free Trade.

The American Laborer will be published monthly in a large octavo form, each number containing 32 large double-column pages of closely printed matter. Each number will contain one great Speech, Report, or other convincing document, and a variety of shorter articles. The work will form one complete and comprehensive volume of three hundred and eighty-four large and fair pages; and will be afforded to single subscribers for seventy-five cents each, three copies for Two Dollars, five copies for Three Dollars, nine copies for Five Dollars, or twenty copies for Ten Dollars. Payment is required in advance, in all cases. The lowest possible price has been fixed in order that its circulation may be rendered universal, should the work receive the approbation of the public.

The several Home Leagues, Agricultural Societies, Mechanics' Associations and individual friends of Protection throughout the Country are earnestly solicited to aid us in extending the circulation of The Laborer.

GREENLY & McELRATH, 30 Ann-st. N. Y. New-York, March 4, 1842.

The first number will contain the able SPEECH OF HON. WILLIAM SLADE of Vermont, embodying the recorded opinions of WASHINGTON, JEFFERSON, MADISON, MONROE, J. Q. ADAMS, JOHN C. CALHOUN, &c. &c. in favor of Protecting our Home Industry—with a variety of other important matter.

Editors throughout the United States, by sending us a copy of their papers containing the above Prospectus (marked), will be entitled to the American Laborer, without continuing their papers in exchange.

Remittances must be made in bills of specie-paying Banks, or the discount will in all cases be charged to the person remitting. Postmasters are authorized by law to remit subscription money to Editors, and Bank bills or drafts so remitted to us may always be considered as at our risk.

**NOTICE.**

Commissioners of Monroe county, you are hereby respectfully cautioned to beware of giving any order to James Rafferty, of payment for printing a statement of the receipts and expenditures of Monroe county for 1841, as such a step would not be in accordance with your advertisement to receive sealed proposals for that job, as I am informed that Mr. Rafferty never offered any proposals until after Saturday noon, 8th January, the time specified—but that Mr. Schoch, did hand in proposals to perform that work for the sum of \$25.00, which sum you will by law, be bound to pay to Mr. Schoch, at any time that he demands the same of you, but should you pay Rafferty any thing for printing said statement, you would be violating the very letter and meaning of that advertisement, and laying yourselves liable to refund the same to the county. I would also, in addition, request you, in good faith to our county, to give all other printing to the lowest bidder, all blanks, &c., as it is our county retrenchment was effected in our county finances.

With sentiments of respect,

I remain your brother tax payer.

**NATURAL REMEDY,**

Suited to our Constitutions, and competent to the cure of every curable disease will be found in the **INDIAN VEGETABLE PILLS,**

OF THE **NORTH AMERICAN COLLEGE OF HEALTH.**

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil; and are therefore, better adapted to our constitutions, than medicine concocted from foreign drugs, however well they may be compounded; and as THE INDIAN VEGETABLE PILLS are founded upon the principle that the human body is in truth

**SUBJECT TO BUT ONE DISEASE,** viz: corrupt humors, and that said medicine cures this disease on

**NATURAL PRINCIPLES—**

by cleansing and purifying the body; it will be manifested, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a Swamp or Morass to fertility, we drain it of the superabundant waters; in like manner if we wish to restore the body to health, we must cleanse it of impurity.

**THE INDIAN VEGETABLE PILLS**

Will be found one of the best, if not the very best medicine in the world for carrying out this

**GRAND PURIFYING PRINCIPLE,**

because they expel from the body all morbid and corrupt humors, the cause of disease in an easy and NATURAL MANNER; and while they every day

**GIVE EASE AND PLEASURE.**

disease of every name is rapidly driven from the body.

The above named INDIAN VEGETABLE PILLS, have been three years before the American public; and we can now say without fear of contradiction, that of all the various medicines which have heretofore been popular, not one has given such universal satisfaction, or obtained such a permanent hold upon the affections of the people. Not only do all who use it invariably experience relief, and recommend it in the strongest terms; but it has effected some of the most astonishing cures ever performed by medicine.

Hitherto, very few of the numerous testimonials which have been received in favor of this extraordinary medicine have been published, as the medicine obtained its present great celebrity more by its own intrinsic goodness than from extensive advertising. It has been deemed proper however to offer the following opinions of the public press, together with a few extracts from letters of Agents, merely to show, that the fame of the Indian Vegetable Pills, is not confined to any one section, but is rapidly extending itself to every part of the Union. *From the Philadelphia Saturday Evening Post.*

**THE INDIAN VEGETABLE PILLS.**

Wright's Indian Vegetable Pills are attaining great celebrity in New England as well as other parts of the United States. The attempt of persons to defraud the public by the sale of spurious articles, meets with general reprobation. Mr. Wright is an indefatigable business man, and shows an array of cures by the medicine which warrant confidence in the virtues of his Indian Vegetable Pills.

*From the Philadelphia Spirit of the Times.*

**THE INDIAN VEGETABLE PILLS.**

People are pretty well satisfied by this time, that Calomel, and the other thousand and one mineral preparations of the shops, are better adapted, as a general rule, to kill rather than cure the patient; as a matter of course, vegetable medicines are therefore in great request. There are very many humbugs, however, among the latter, and we would advise all those who have the least regard for their health, to try the INDIAN VEGETABLE PILLS OF THE NORTH AMERICAN COLLEGE OF HEALTH, sold at 169 Race street, Philadelphia; as they are the preparation of one intimately acquainted with the healing art.

*From the Boston Daily Times.*

**INDIAN VEGETABLE PILLS.**

Of all the public advertised medicines of the day, we know of none that we can more safely recommend for the "ills that flesh is heir to" than the Pills that are sold at the depot of the North American College of Health, No. 198 Tremont street, Boston. Several instances we know of where they are used in families with the highest satisfaction; and no longer ago than yesterday, we heard an eminent Physician of the city recommend them in high terms. There used to be in the community, a great repugnance to the use of QUACK medicines, as they are all indiscriminately termed, but it was mainly owing to the regular M. D.'s constantly denouncing them. They are

however, becoming more liberal in this respect, and the consequence is that good vegetable medicines are now more extensively used than formerly.

Extract of a letter from Peter Christ, Uniontown, Carroll County, Md., Nov. 17th, 1838.

Dear Sir—About two months ago, I had business in Baltimore, and called at your office, and bought a few boxes of the Indian Vegetable Pills; and upon trying them I found them to be far superior to — Pills, or any other medicine I had ever used. I had been subject to a cough for five years past, and during the time have taken a variety of medicines without any relief, until I got the Indian Vegetable Pills, and by taking four doses the cough began to leave me; and I now enjoy better health than I have done for years past. After I found them to be a valuable medicine, I immediately sent to Baltimore for a large supply. I have received so much benefit in using the INDIAN VEGETABLE PILLS that I cannot help but recommend them to every invalid I see, and think so well of the medicine that I have sent two dozen boxes to my invalid friends, in the State of Indiana. Signed, PETER CHRIST.

From G. C. Black, New York.

Mr. Wm. Wright—Dear Sir—you will please to forward as soon as possible, some of your Indian Vegetable Pills; as we are almost out of the article, and they appear to be getting into general use here. We have a great call for the medicine at present, and those that have used them, speak very high of them. One gentleman attributes his being cured of Dropsy to the use of them; and another has been cured of DYSPEPSIA, solely by the use of your INDIAN VEGETABLE PILLS, and is willing you should publish his case if you think proper.

G. C. BLACK,

No. 1 Chatham Square, New York

Extract of a letter from Mr. A. Larrimore, Indiana.

Doctor Wright—Dear Sir—Having some knowledge of your most excellent compound INDIAN VEGETABLE PILLS, and not knowing how to get a fresh supply, my stock being nearly exhausted, and wishing to always have them in my family, I take this method to open a correspondence with you. The pills alluded to are well thought of here and very much wanted. I wish to make arrangements with you for a constant supply, as I think a very great quantity could be sold in this section of the county.

Extract of a letter from Samuel Griffith, Stewartstown, York County, Pa.

Mr. W. Wright—Dear Sir—I am selling the Indian Vegetable Pills by the dollar's worth, and at that rate the stock of Pills, left by your travelling agent, will soon be out.

I am pleased to find they are such ready sale. Those who have used them, speak in the highest terms of them. Many have already found great relief from their use, and when the cures are finally effected, I shall do you the justice to inform you of the same.

Extract of a letter from Washington City.

Mr. Wm. Wright—Dear Sir—you will have the kindness to forward me as soon as possible, too or three gross of the Indian Vegetable Pills. The sales have, for the last two months, increased rapidly; those who buy, generally remarking, "that they are the best pills they have ever used;" and my opinion is that they will in a short time supercede all others in this city.

ROBERT FARNHAM,

Washington City, D. C.

Extract of a letter from Lycoming County, Pa.

Mr. Wm. Wright—Dear Sir—On being appointed Agents for the sale of the INDIAN VEGETABLE PILLS in this place, we only took one gross on trial; but it would have been better if we had taken a half dozen gross; for on a fair trial they have far exceeded our most sanguine expectations. In fact so much so that we have been obliged to send to Mr. Zimmerman, at Lancaster, more than a hundred miles from here, for ten dozen; but these will last but a very short time, the way we are selling them since they have been fairly tested. In the first place, I gave some to our Physicians, to make trial of since which they have purchased a number of boxes, and highly approve of them. A few days ago, there was a lady sent 30 miles to get a box of the Pills, she at the time was very low, and unable to turn herself in bed; but in two days, my informant says she was able to help herself.

We could mention many other cases, but deem it unnecessary at this time; but would merely say, that as the season is fast approaching when there will be a great demand for the INDIAN VEGETABLE PILLS; and if we only could get a supply of the medicine, we could establish other agents, which would be of immense advantage not only to the NORTH AMERICAN COLLEGE OF HEALTH; but to the public generally. Please let us know your views on the subject, and any directions relative to the same, will be promptly attended to by

Very respectfully, your friends,
