

JEFFERSONIAN REPUBLICAN

Stroudsburg, August 24, 1842.

Terms, \$2.00 in advance; \$2.25, half yearly; and \$2.50 if not paid before the end of the year.

The Millerites.

This is the name of a new sect of Christians which has lately sprung up in Connecticut, and whose proselytes are rapidly spreading over the Eastern States and the State of New York. A portion of the brethren held a protracted meeting at Albany week before last, and made many converts. They had a large tent pitched on Arbor Hill, which measured one hundred and forty feet in diameter, was one hundred feet high, and held over four thousand people. The Rev. Mr. Fitch, one of their ministers, spoke upwards of two hours, on Friday a week, to an attentive audience, and in a very learned and elaborate address endeavoured to prove, from Scripture texts, that the end of recorded time would take place on the 23d of April, 1843. We believe that this is the only point of faith in which they differ from other religious denominations; so that all of their members may still remain in full communion with their former churches. In our opinion this is the least objectionable of all the new sects which have sprung up in modern times. It teaches men to think of the nearness of their approach to death, and thus humbles them before God and their fellows. For our own part, we do not think that the fullness of time mentioned by our Great Master has yet arrived, or is near at hand. Or if it had, we know that the Bible does not furnish a clue to man to ascertain its date; for it is expressly written that that event shall come as a thief in the night, when it shall least be expected. Yet many who now live in imagined security, may have time ended to them even before the 23d of April, and as we are especially commanded to live with the fear of death always before us, it might be well for us all if we had a little more *Millerism* in our composition.

Affairs at Washington.

At our latest accounts, nothing definitely had been fixed upon for the relief of the country, at Washington. Several attempts had been made by Whig Members to take up and pass the vetoed Tariff Bill, with the exception of the 27th section, which alludes to the division of the public lands, all of which were defeated by the combined votes of the Tylerites and loco focos. It is currently reported at Washington, by the friends of Mr. Tyler, that he will not sign any Bill which the Whigs may pass, which will give protection to American Industry. Some of our friends think it useless therefore to spend any more time in preparing another Bill for him to kill. Others, however, are determined that they will not desist until they have tried every expedient to give relief to a suffering people. Mr. Adams' Report upon the Veto, which we insert entire in to-day's Republican, is an able paper, and should be read by every freeman in the land. It contains the right doctrine, and shows up the narrow and selfish policy to which the traitor Tyler, wishes to sacrifice the country.

Clay Meeting.

Our friends in Northampton county, who are in favor of Henry Clay, for the next Presidency, had a large and enthusiastic meeting at the Court House, in Easton, on Tuesday of last week. The Hon. Samuel Yobe, presided, and a series of able and spirited Resolutions were introduced by A. E. Brown, Esq. Delegates were also appointed to the Harrisburg Clay Convention which meets on the 14th of September. One of the Resolutions recommended the Hon. John Banks, as a suitable candidate for the Vice Presidency.

Camp Delaware.

The grand Military Encampment, at Easton, will begin on Tuesday morning next, and continue until the following Saturday. The most of the companies will arrive in town on Monday. At least eight companies will be present from Philadelphia, and probably several more. New Jersey will send five of her best, and the adjoining counties of Bucks and Lehigh will send several more. These with the two fine volunteer companies of Easton, will form one of the most beautiful displays of Volunteers, seen in the country for a long time. The Grand Review will probably take place on Thursday.

A Declaration.

The Hon. George M. Keim, in a letter to his constituents, declines being a candidate for reelection to Congress. He is trying to shape his course for the loco loco nomination for Governor in 1844.

Fifty-eight houses and barns have been destroyed by lightning in this country this summer. And upwards of sixty persons have been killed.

The shipments of coal from Pottsville, Port Carbon, and Schuylkill Haven, for the week ending on Thursday last, amounted to 14,308 tons. The total amount of coal shipped this season is 249,977 tons.

A New Orleans musquitoe got mad at something, swallowed a poker out of spite, broke the hind legs of an old tom cat, smashed a looking glass, and run off with a hind quarter of mutton, after killing a Frenchman.

The Grand Jury of Albany have found an indictment against Rev. Abel Brown for a libel on Henry Clay in advertising to prove, in a public lecture that Mr. Clay was a 'thief, duelist, gambler, robber, adulterer, man-stealer,' &c. The reverend gentleman will now have an opportunity to prove his infamous charges or to suffer the punishment for his villainous slanders.

To Cook Cucumbers.

Pare off the rind, then cut the cucumber into slices, *lengthwise*, dust either side of these slices with corn meal or wheat flour, pepper and salt them to please your taste; this done, fry them brown, and you will have one of the most delicious dishes that you can imagine, combining in their flavor those of the oyster plant and egg plant. Of their healthfulness, thus cooked, there can be no question, and of their palatableness, it is only necessary that you try them, to say with us that they are exquisite.

Flour is selling at Lebanon, Pa., at \$4 50 per barrel, at Louisville, Ky., on the 19th inst., at \$3 50, and at Cincinnati on the 12th, at \$3.

To cure a snake bite. Drink a half wine-glass of sweet or salad oil, bind lint thereon soaked in it.

A colored barber named Thomas Mellon, recently died at Bedford, Pa., having conceived that a snake was in his stomach. After death he was opened, and a pit of cherry stones were found therein.

There will be one of the largest crops of corn this year in Virginia, ever raised in that State.

First rate potatoes were selling on the Levee at New Orleans, on the 5th inst., at seventy five cts. per barrel.

Methodists in the United States.

There are the following Methodists in the United States:
Lay members, 913,001
Effective travelling & local preachers, 10,920
Superannuated preachers, 269
Total, 925,090

CHEAP—Potatoes in St. Louis, 12 1-2 cents per bushel.

Don't knock down your cobwebs—they are an excellent net to catch flies, and also afford an ornamental drapery for your rooms.

Mesmerism.

The following facts we had from the husband of the patient: Mrs. Irkson has been confined since May last, at which time she had lost her infant child, with that most painful disease called the Milk Leg. She had, in all that time been unable to sit in a chair, more than ten minutes at a time. About a week ago she was mesmerised by Dr. Ewing and kept in this state about two hours. During this sleep her husband left her with the family, to visit his office on business. On his return his wife was going about the house, and has ever since attended to her household affairs, doing the work thereof without the aid of a servant, with more strength she thinks than she had before taken sick. If mesmerism will cure such diseases, there must be something in it. [Pitts. D. Amer.]

Cholera Morbus and Cholera Infantum.

At this season of the year, when cholera morbus and cholera infantum daily carries off scores of children, we apprehend we shall be doing the public an acceptable service in promulgating the following efficient remedy for those prevalent and fatal diseases. The antidote is a sure one, and will not hurt the most delicate infant, if judgment is used in prescribing the quantity.—Take a handful of peach leaves, put them in cold water, and steep them about ten or fifteen minutes, without boiling; then sweeten the liquid with loaf sugar, and give it in small draughts, as the patient can bear it—a table spoonful at a time, once in two hours, to an infant of six or eight month old, or oftener, if the extremity of the case requires.

We find the following recipe for making a "good healthy soup," in an old newspaper: "Take three buckets full of water, four onions, two cabbage leaves, and a small marrow bone, and put them in a large kettle, over the smoke. When the mess boils, stir with a tallow candle, and add one pint of fine salt."

A Poser.

A boy asked one of his father's guests who his next door neighbor was, and when he heard his name asked him if the gentlemen was not a fool. "No, my little friend," said the guest, "he is no fool, but a very sensible man; but why did you ask the question?" "Why," said the little boy, "my mother said the other day you were next door to a fool, and I wanted to know who lived next door to you."

"Darkness prevails around," as the stranger observed on entering a 'nigger chapel.'

The General Distress.

The Philad. Evening Journal gives another picture of the misery and suffering that overspread the land. It states that over 4000 looms are unoccupied in this county, and that there are full 10,000 of the industrious classes in that city who are vainly endeavoring to earn the means by which to buy bread. Distress, real, positive, naked distress, is seen in almost every section of Philadelphia,

Mechanics and Workmen taking the Lead.

In Madison, Indiana, the Mayor is a cabinet-maker; the Marshal, a blacksmith; the City Attorney, a plasterer; the Secretary, a carpenter; the Assessor, a pattern-maker; the Collector, a tobacconist. Of the Town Council—three are tailors, two are carpenters, one a machinist, one a wheelwright and one a millwright. It is said the place is thriving, and the city affairs well and ably conducted.

The New-Orleans Picayune of the 6th announces the arrival of the famous Captain Elliott, renowned for his contests with long-tailed Commissioner Lin and cunning Commissioner Keshen, in the war with China. He landed on the 15th at New-Orleans, being on his way to Texas, where he was appointed consul-general some time ago.

Gen. Lafayette's last aid-de-camp in our Revolution, Gen. John K. Smith, died at Portland, Me., on the 7th—aged 89 years.

Review of the Markets.

Philadelphia, August 20, 1842.
FLOUR AND MEAL.—There has not been much activity in the Flour Market, and prices have declined during the week 12 1-2 cts. per bbl. owing to the rapid declines in neighbouring markets. Sales of fresh ground Penna. Flour, for shipment, early in the week, at \$5 62 per bbl., part made from old and new Wheat mixed; later in the week at \$5 50. Yesterday 700 bbls. Since then, sales of Penna. Wheat at 92 cts. to \$1 12, and Southern at \$1 to \$1 12, according to quality. To-day we quote Southern at 95 cts. to \$1 03, and Penna. at \$1 to \$1 03 a \$1 10, for inferior to prime quality. The week's sales reach 10 a 11,000 bushels. Rye—Sales of old Penna. at 72, and new Southern at 75 cts.—Corn—Sales of round yellow at 53, flat do. at 53 to 55, and white at 53 cts. Note.—It may be proper to remark, that the notes of nearly all the country banks are redeemed in specie on presentation at their counters; and that the cause of their depreciation in the city, is owing to a resolution of the city banks to receive on deposit the notes of those banks only which have effected an arrangement with a city bank to redeem their notes when presented. Those country banks therefore, which are quoted at par, have an agency in the city where their notes are paid in specie on demand.
