WAYNE COUNTY MUTUAL INSURANCE COMPANY

A LL Persons insuring in this company are In members equally interested in its walker

In order to become a member of this company and thereby be insured, the applicant gives a premium note, the amount of which is in proportion to the amount to be insured, and its degree of hazard, thus: If \$1000 is to be insured, at 5 per cent., he gives his note for \$50. If at 10 per cent he gives his note for \$100, and in that proportion for a greater or less sum, according to the rate of hazard, on which note he advances 6 per cent and an additional sum of \$1 50 for survey and policy He then becomes a member on the arproval his application and is insured for five years. To aggregate of the premium notes constitutes the cash fund, chargable first, with the expenses, and second, with the losses of the Company; and should it prove insufficient to pay both losses and expenses the money to meet the losses, (she any occur) is borrowed agreeably to the act of incorporation, and paid. An assessment is then made to repay such loan upon the premium notes, in proportion to their respective amounts, and in m case to be made but once a year, notwithstanding several losses may happen.

At the expiration of five years the note, if any assessments have been made and paid, is given up, and the insured may renew his application.

Policies may at any time be assigned or surrendered and cancelled, and the premium notes given up, according to the by-laws of the Company. No more than three fourths of the cash value of any property will be insured, and all great hazards: such as Cotton Factories, Powder Mills, Distilleries, Machine Shops, Manufactories for Printer's Ink, and all establishments of the same class of hazards, are not insured upon any conditions whatever, and that no one risk is taken over \$5000, it is considered much more safe and less expensive than in Stock companies, where they insure large amounts and hazardous property.
