**New and Extraordinary Invention!**

**FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER.**—By this wonderful invention a letter and duplicate can be written in one operation with more ease and greater facility than a single letter with an ordinary pen and ink.

To the mercantile, professional and travelling part of the community this truly great invention is of infinite value as it is a great saving of time, trouble and expense. The principal advantage to be derived from the manifold writer is, that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an inkstand, or a pen. The instrument used for writing is an agate point, consequently it never wears by use. For banks, insurance offices, merchants, men of business generally, lawyers, postmasters, editors, reporters, public officers, and all who may be desirous of preserving copies of their letters, documents, &c. with an immense saving of time and the satisfaction of having an exact copy of what they have written, this will be found invaluable.

The following is from the Chairman of the Committee on Chemicals, appointed by the Managers of the American Institute at their late Fair:—

"The judges appointed by the Managers of the Fair of the American Institute, held at New-York Garden, October, 1841, report that they have examined into the merits of Francis's Manifold Writer, and find it to be a very ingenious and useful contrivance, by which two or more letters, or other documents, may be written at once. The ink used is not in a liquid state, but consists of a composition applied to sheets of paper. The nature of this composition is such that it is not liable to change color by exposure to the air or moisture; nor is it easily removed from paper by chemical agents.

"The principal advantage to be derived from the use of the Manifold Writer is, that a copy of any document may be kept without any additional trouble to the writer, and without the necessity of using either an inkstand or a pen. It is found that a copy-right is secured. We consider Mr. Francis deserving a reward from the Institute.

(Signed) **JAS. R. CHITON, M. D. Chm.**

Consequently a medal was awarded.

Francis's Manifold Writer has now been in successful operation two years, during which time the proprietor has had the pleasure of receiving the unfeigned approbation of all whose observation it has come under. At the late fair of the American Institute the merits of the article were examined into by three of the most able chemists in the country, who pronounced it to be a very ingenious and useful contrivance, and not liable to change color by exposure to air, moisture, or chemical agents. Consequently a medal was awarded by the Institute.

The proprietor has lately made great improvements in this article. The paper is of the best quality manufactured in the United States, being made for the Manifold writer expressly to his order. The ruling of them, which has for some time been thought impossible, has at length been brought to perfection for which a copyright has been secured. The copying books are bound in a variety of forms and sizes, varying in price from 50 cents upwards.

Stationers and Country Merchants in general will find it to their advantage to procure the article, as they meet with a ready sale. A liberal deduction made to those who buy by wholesale.

Newspapers or magazines throughout the country copying the above *entire* without alteration or abridgement (including this notice) and give it twelve inside insertions shall receive a copy subject to their order by sending a paper containing the advertisement to the office of the subscriber

**Fashionable Tailoring ESTABLISHMENT.**  
**M. M. BURNETT.**

Would respectfully inform the citizens of Stroudsburg and county generally, that he is still exerting himself for their accommodation at his stand, one door below the office of **Wm. Davis, Esq.** on Elizabeth street, and has now in his possession plates and diagrams of the

**Very Latest City Fashions;** from which he is enabled to cut all kinds of gentlemen's wearing apparel in a manner that cannot fail to please those who may wish to dress in strict accordance with the prevailing modes. For others whose tastes may not incline to the latest fashions, or whose ages may suggest ideas of comfort rather than display, he trusts he is equally well prepared; having had the advantage of many years experience in the difficult, yet not unsurmountable task of adapting his work to the wishes of many and various persons. He is prepared to supply orders with promptness and despatch. With his sincerest thanks for the patronage heretofore bestowed upon him, he respectfully solicits its continuance—determined to neglect no means of giving his customers full and ample satisfaction.

All kinds of cutting neatly executed at the shortest notice, and in the most fashionable style.
