New and Extraordinary Invention!!!

FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER.—By this wonderful invention a letter and duplicate can be written in one operation with more ease and greater facility than a single letter with an ordinary pen and ink.

To the mercantile, professional and travelling part of the community this truly great invention is of infinite value as it is a great saving of time, trouble and expense. The principal advantage to be derived from the manifold writer is, that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an inkstand or a pen.

The following is from the Chairman of the Committee on Chemicals, appointed by the managers of the American Institute at their late Fair: "The judges appointed by the Managers of the Fair of the American Institute, held at Nibbles Garden, October, 1841, report, that we have examined into the merits of Francis's Manifold Writer, and find it to be a very ingenious and useful contrivance, by which two or more letters, or other documents, may be written at once.

The principal advantage to be derived from a use of the Manifold Writer is, that a copy of any document may be kept without any additional trouble to the writer, and without the necessity of using either an inkstand or a pen. It is stated that a copy-right is secured. We consider Mr. Francis deserving a reward from the Institute.

Consequently a medal was awarded. Francis's Manifold Writer has now been in successful operation two years, during which time the proprietor has had the pleasure of receiving the unfeigned approbation of all whose observation it has come under. At the late fair of the American Institute the merits of the article were examined into by three of the most able chemists in the country, who pronounced it to be a very ingenious and useful contrivance, and not liable to change color by exposure to air, moisture, or chemical agents.

The proprietor has lately made great improvements in this article. The paper is of the best quality manufactured in the United States, being made for the Manifold writer expressly to his order. The ruling of them, which has for some time been thought impossible, has at length been brought to perfection for which a copyright has been secured. The copying books are bound in a variety of forms and sizes, varying in price from 50 cents upwards.

Stationers and Country Merchants in general will find it to their advantage to procure the article, as they meet with a ready sale. A liberal deduction made to those who buy by wholesale. Newspapers or magazines throughout the country copying the above entire without alteration or abridgement (including this notice) and give it twelve inside insertions shall receive a copy subject to their order by sending a paper containing the advertisement to the office of the subscriber.
