Strondsburg, December 14, 1842.

Terms, \$2,00 in advance; \$2,25, nalf yearly; and \$2,50 if not pad before the end of the year.

#### The President's Message.

This annual document of the Chief Magistrate gislature. of the Union, was submitted to both Houses of Congress on Wednesday last. In our opinion it is a very ordinary affair-twice as long as neces- six years from the 4th of March. sary-and by no means as well written as some of its prodecessors. The most of it is occupied with a recital of our foreign relations, and a statement of the condition of the several departments of State. It is remarkable inasmuch as it contains but four recommendations to Congress. The first, is a modification of the defects in the new Tariff act, and an alteration in the mode of collecting the revenue arising from duties, by adopting the Warehousing System, as it is called. The second, is an increased appropriation of nearly a million of dollars to the expenses of the Navy, to support a squadron on the Coast of A frica, and to purchase a stock of clothing for sailors and marines. The third, is the adoption of the Exchequer Plan, as recommended by him last winter. And the fourth, is the re-imbursement of the one thousand dollar fine, imposed upon General Jackson, by Judge Hall, at New Orleans, during the late War. This is the sum total of all which John Tyler deems necessary for Congress to do for the good of the Country. The whole tenor of the Message is calculated to create the impression that the country is in a happy and prosperous condition. Nothing can be further from the truth than this. The country was never in a more deplorable situation than it has been during the past year, and is at this time. We give the Message entire, however, in to-days paper, so that our readers can see for themselves, and form their own opinions.

### Congress.

On Monday a week, was the day for the annual convening of Congress, and at 12 o'clock the Mem bers of both branches met in their respective Halls. In the House 175 members answered to their names, more than sufficient to constitute a quorum, but in the Senate, only 24 members were present, not a quorum. No business was therefore transacted in either House. Languages, &c. On Tuesday, a quorum of Senators still being wanted, nothing was done in either branch. On Wednesday, however, three additional Senators appeared and took their seats, and the business of the Session was taken up. The Presidents Message was received and read, and a large number of copies, with the accompanying documents, ordered to be printed. A number of motions were made by different members, among which was one by Mr Adams, of the House, to repeal the Rule prohibiting the reception of abblition petitions, ond one by Mr. Bention of the Senate, for permission to bring in a Bill to repeal the Bankrupt Act. At our latest accounts the standing committees had not yet been appointed. As soon as they are named, we expect both Houses will proceed to business, in real earnest.

## Resignations.

The Hon. William C. Preston, U. S. Senator, from South Carolina, has resigned his seat in the Senate, to take effect immediately. The Hon. John C. Calhoun, the other Senator from South Carolina, has also resigned his seat, the resignation to take effect on the fourth of March next. They are both able, distinguished, and highly talented men, and will be much missed in the Council of the Nation.

## John C. Colt.

The excitement incident to the fate of this un happy individual, still continues to disturb the public mind. Many of the citizens of New York entertain a suspicion that Colt is still alive. They think the circumstances attending his rumoured death, viz: the postponement of the execution until almost night-the firing of the prison at that time-the private examination of the body by the Coroner's Inquest-and the speedy removal of the coffin, said to contain the dead body, to Connecticut, are too strange to be implicitly relied upon. Dr. Hosack, however, who was well acquainted with him, has published a letter in which he positively declares that Colt did kill himself. He says he saw him the morning of his death, and again immediately after he was found with the dirk in his heart, and that he could not have been mistaken in the identity.

## A Giant.

Lambert, of England, and Mr. Lewis Cornelius, fore the sale. late of Milford, Pike county. His name was Bateas-he was only 48 years old, and weighed seven hundred and ninety-five pounds. No hearse of sufficient dimensions could be found to contain his body, and it took twelve men to carry him to

## The Expunging Resolutions.

Mr. Bayard, of Delaware, has introduced a Resolution in the Senate to rescind the celebrated Expunging Resolutions, from the Journal of that body, and restore it to its original shape.

### Editorial Changes.

Mr. Forsman has given up the control of the Easton Sentinel," and gone to Doylestown for the purpose of establishing a new loco foco paper. James A. Dunlap, Esq., Deputy Attorney General for Northampton county, has assumed the management of the "Sentinel," by whom it will be hereafter edited and published.

#### New U. S. Senators.

On the 2d inst. the Hon. George McDuffie, of South Carolina, was elected U. S. Senator, in the place of Mr. Preston, resigned. Also to be U. S. He received an almost unanimous vote of the Le-

souri, has also been re-elected for another term of ings and tastes and their requirements. In entering

TO SATY-MILL OTYNERS, Or those who are about to build or repair.

The umdersigned respectfully informs the public that he is duly authorised to sell the Right of the Johnson Re-acting Water wheel, to the counties of Monroe and Pike, patented the 22d day of June, A. D. 1840.

The Johnson re-acting wheel is the best now Farm. & Drov. bk, Waynesburg \$3 in use to propel a saw mill; it excels any other Farm. & Mech's bk. Pittsburg wheel in the United States under a low water Farm. & Mech's bk, Fayette co 5 head;-under a head from 5 to 7 feet is suffi-10 cient to cut from 2 to 3000 feet in twelve hours of inch or any other boards with ease. The wheels require, under a 7 foot head, 140 inches of water and so in proportion to any other head. Under a 7 foot head, the Saw will make from \$5 200 to 250 strokes per minute. The advantage which those wheels have over any other wheels is, that it requires but four posts to make the floom or bulk head; the wheels are hung on the crank shaft. Two wheels are what is required for a Saw mill, and the posts planked inside the same as a pen stock. I have built one of those mills this season, on the Roaring Brook, in Luzerne county, for Mr. S. P. Templin, under about a 7 foot head, which will cut from 3 to 4000 in twelve hours of inch boards; -therefore, I can recommend them as the best wheels now in operation. There are several more mills in that part, all under low heads, which answers the same purpose as that of Mr.
