Strondsburg, February 15, 1843.

Terms, \$2,00 in advance: \$2.25, half yearly; and \$2,50 if not paid before the end of the year.

We return our thanks to Mr. Kidder of the Senate, at Harrisburg, for valuable Public Docu-

End of the World.

Father Miller, the Millennium preacher, is now in Philadelphia, where he has been holding forth, during the past week, on his favorite doctrine of the "end of the world." Some of the City papers say it is really surprising to see the crowds of people which flock to the large hall of the Museum to hear him. The hall, it is estimated, will hold over 6000 souls, and it has been filled nightly to overflowing. He has already succeeded in deluding hundreds of men and women, who are now meglecting their domestic concerns, under the impression that the end of time is near at hand. Many too are trying to dispose of most of their household goods, alledging that as they cannot use them much longer they may as well have the money for them, and enjoy what it can procure.

Mr. Miller is a man well advanced in years, and has a wife and family who reside somewhere in the State of New York. He has evidently read and studied the Bible a great deal-particularly that portion which embraces what is supposed to be an account of the unfulfilled prophecies. He is however, by no means a well educated man. His preaching is at all times simple, and sometimes quite ridiculous. The interpretations which he gives to his texts are strained, and palpably wrong. What should convince even the weakest minds, that he is either an impostor or misguided enthusiast, is, that when he first began to preach tricts. about the end of the world, the 23d of April, 1843 was fixed upon as the time when it would take place-but now as the period of alledged destruction draws nigh, he is less certain of its happening, but believes it will take place sometime between the 21st of March, this year, and the 21st of March 1844. Still in spite of this, and in face of the declarations in Scripture that "no man knows of that day," "that it will come like a thief in the night," &c. he is daily making new prose- that the members of the present and future lytes, and adding scores to the number who must Legislatures shall only receive \$2 per day for very soon be convinced of the imposture by me: of which they have been so miserably duped.

They are to be Destroyed.

Gov. Porter has signed the Bill which provides for the cancelling, monthly of \$100,000 worth of Relief Notes, and ere this the first batch have been crossed and committed to the flames. The approval of this Bill has already had the effect of bringing down the discount, is Philadelphia on their notes, from 15 to 7 per cent. They will soon be

General Jackson's Fine.

A joint Resolution, instructing our Senators and requesting our Representatives in Congress to vote for refunding to Gen. Jackson the \$1000 fine imposed upon him by Judge Hall, at New Orleans during the late War, has passed both branches of our Legislature. The Resolution passed the Senate by a vote of 25 yeas to 4 nays, and the House nearly unanimously. It is free from censure towards Judge Hall.

Thomas W. Dorr.

Dorr, the Great Charter Chief of Rhode Island who has been rusticating in New Hampshire for the last nine months, was in Boston on the 8th inst. The election of Marcus Morton as Governor, and the temporary ascendency of the loco focos in Massachusetts, is a god send to poor Thomas. He can lionize it in the Old Bay State now, without fear or hindrance, till after the next General Election.

to indisposition in his family, Judge Jessup was unable to be here, and consequently but little business was transacted. Among other matters, their Honors, the Associates took up and tried the case of the Commonwealth against two Negro Sweeps, for Robbery. The darkies were found guilty, and sentenced to six months imprisonment in the County Jail.

The War Sword of Washington. A most interesting ceremony took place on Wednesday last in the Hall of Congress. Mr. Summors, of Virginia, presented to Congress, and through them to the nation, the identical sword which Gen. Washington used throughout our the License laws, &c., &c. whole struggle for independence, and also the fine left as a legacy to Washington. Both these precious relics have been preserved in the family of Washington, since his death, and were presented by Mr. Summers on behalf of Mr. Samuel T. John Quincy Adams made an appropriate address upon the occasion,

Another Resumption.

The Mechanics and Manufacturers Bank Philadelphia, commenced paying specie, for its demand notes and deposites, on Wednesday last. This is one of the institutions which was obliged to suspend specie payments during the time of the Bank explosions a year ago. By the proper management of its officers, it has again so far recover

Division of the County.

The Bill for forming a new county out of parts of Monroe and Northampton, which passed the House of Representatives a few weeks ago, is still hung up in the Senate. The better opinion appears to be that it will not become a law, at least at this session. Yet this is by no means certain.

The Legislature and Congress.

The members of Congress, and the members of our State Legislature, are busy doing what it would be almost impossible to describe. Neither of them are doing anything, however, for the good of the people. In Congress, the locos keep up their continual clatter about Democracy, and Federalism, and prevent the public business from being acted upon, and in the Legislature the same party are quarrelling and abusing each other in a manner which must convince every one that they are not the pure and unspotted patriots they would have us to believe they are. They talk a great deal about economy and reform too, but as vet have not given us a specimen of it.

HARRISBURG NEWS.

Correspondence of the Daily Chronicle. Harrisburg, Feb. 9, 1943.

House.-A communication was received from the President of the Board of Canal Commissioners, in reply to a requisition of the House, giving a statement of the accounts for repairs, &c., on the Delaware Division of canal.

Mr. Sharswood introduced a bill to incorporate the Liberty Fire Insurance Company, of Holmesburg, in the county of Phila.

Mr. Hood a bill relative to the education of poor children, in non-accepting School Dis-

Mr. Long, from the select committee, reported a bill for a new county, out of parts of Westmoreland and Indiana. Mr. McBride maide an adverse report from the minority of the same committee.

Mr. Lowry offered a resolution instructing the committee on the Judiciary system to bring in a bill reducing the pay of all officers of the Government that can be constitutionally reached, 25 per cent., and that they farther provide their services, and that only when actually at their posts. And that the said bill, when reported, be the order of the day every day until it is disposed of.

This resolution, introduced as it was, probably, to set-off against, and defeat, the bill proposing reform in the expenses of the Canal Board, and other matters, to the great astonishment of all concerned-no less to the mover, than others-was adopted by a very handsome majority, notwithstanding sundry attempts to load it down with other absurdities. Yet the people need not be too sure of this proposed Reform's being carried into effect, for my private opinion is, that such a result is not contemplated at all, especially that part which relates to the present Legislature. Indeed there is not much encouragement for such acts of self denial; I knew a member not long since, who was so patriotic that he carried home the extra pay he received during a recess of some weeks, and paid it into the county treasury at home, not doubting, perhaps that his constituents would appreciate his disinterestedness-yet, not withstanding all this, they unfeelingly left him at home ever since! I presume, therefore, that his constituents concluded that if he did not know how to take care of himself when he had an opportunity, he was not fit to trust with the interests of others.

Mr. Elwell introduced a bill to defer the farther cancelling of Relief notes until next September, and then to resume the same, at the rate of \$50,000 per month.

The bill relative to the appointment and expenses of the Board of Canal Commissioners, came up again in order, Mr. Kerr, of Mercer, having the floor. When Mr. K. had concluded his defence of the present Board, which he per-Our Court last week was a slim affair. A bill for the protection of wild cats, in some of the Northern counties, by revoking the reward offered for their scalps.

The bill in relation to the Board of Canal Commissioners, passed second reading, and was ordered to be transcribed. A motion was then made to dispense with the rule, and read it a third time, which requiring two thirds was not agreed to-yeas 49, nays 38.

The Bill as passed on second reading, consists of Mr. Elwell's amendment, (which was adopted by a vote of 86 to 5,) which provides for the election of three Commissioners by the people at the next annual election, who shall settle by lot which shall serve one, which two, and which three years, so that one may be elected annually thereafter---with an amendment added by Mr. Roumfort, providing that, ten days after the passage of the act, the two Houses shall meet in convention, and elect one Commissioner, and each House separately one other member of the Board, to serve until the next annual election by the people, as provided above. There are various other items of reform in the bill calculated, if carried into effect, to reduce the expenses of Government in the management of the public improvements.
