FOR THE JEFFERSONIAN REPUBLICAN. Messrs. Schoch & Kullock :

GENTLEMEN-In the Monroe Democrat of the 13th instant, there appears an article purporting to come from Hamilton, over the signature of H. S. Said article has a very Storm.y commencement, with somewhat of a Bush-y tail, Were it not for the manifold and various falsehoods contained therein, no notice would have been taken of the matter, but the people are lovers of truth, and when an endeavor is made to deceive the public, it becomes the duty of every honest man to endeavor to undeceive them as much as lays in his power, because truth is mighty and ought to prevail. Occupying as I do a central position in our County, and having of late become thoroughly acquainted with the past management of the financial affairs of our County, I feel it a duty incumbent upon me to say a few words respecting the article above alluded to, and very repectfully solicit you, Messrs. Editors, to give this a place in your columns.

The writers of the article in question have given my neighbor Andrew a first rate whitewashing, and have drawn the brush across Jacob a few times, leaving poor Jake only half finished. I am of opinion that the article alluded to, is the joint production of a very numerous family in your borough, consisting of Dr. Daddu and some half dozen Dr. Sonnies, with little Jemmy L. L. D. aided by Miff, and the former tender of the Smut Machine. Poor Jake has reason to entertain feelings of jealousy towards the writers of the article in question, on account of the very partial manner in which they apply the white-wash to Andrew, to the almost utter neglect of poor Jake. They term Andrew the most worthy and honorable man in our County, and assert that the said Andrew is the noblest work of God, but say nothing respecting the honesty, integrity, or virtues of poor JAKE who succeeded this hoble work to the office aforesaid. Why is so much partiality shown to Andrew? I think I perceive the reason to be simply this. That in consideration of the excellent white-washing that Andrew has received at the hands of those eminent writers -he is to employ the family aforesaid to perform all the physical, surgical, and legal operations that may become necessary for himself, family and all the friends he can control during his natural life, and the other two personages are to supply him, family and friends aforesaid, with all the Snut Machines, and miscellaneous matters in their line for the period aforesaid. We will now proceed to an examination of the points made use of, and charges preferred in the aforesaid piece of White-wash

I gave every article which appeared in 1842 in both the Monroe county of the white-wash to keep within the bounds Indian Meal, quarter of a peck papers, a fair consideration, and an impartial perusal, and have found every article which tion. They will then pass off without attractappeared in the Jeffersonian true to the very ing notice, for I am inclined to think there is Mutton, per pound, letter. All the suppositions and matters which were not immediately shown to the satisfaction | of the public, have since been conclusively verified, and the truth, the whole truth, and nothing but the truth, laid before the public, through the columns of the Republican. I am sorry that as much cannot be said with respect to the MONROE DEMOCRAT. I am of the opinion that the JEFFERSONIAN REPUBLICAN, and those who have written for its columns, have poor Monroe. It seems that the \$40.00 Attor-1200 dollars in little over a year in matters of far from procuring the advice necessary to Rye Flour, per hundred saved to our tax ridden population upwards of County charges, and amounts refunded, &c. from which an inference could be drawn, to the bounds of the law, and sworn duties of prove the Republican the most Democratic of their offices, for it appears by the records of the two. the same manner that all former Treasurers had Andrew must owe the Commonwealth nearly done in this County. This is incorrect-my twice as much, having been in office twice as neighbor Joseph Fenner, was the first and only long as friend Jacon, and charged fees upon Treasurer who preceded friend Andrew, and he settled his accounts very differently, nor had took from the Commonwealth ten per cent. of HENRY MILLER, late of Lower Smithdid he retain a single Dollar in the shape of on all matters, licenses and state tax, when depreciated, spurious, or redemption monies, but the law only allows 5 per cent. on licenses on the contrary, immediately accounted for, and one per cent on state tax, and any man of and paid over every dollar to his successor common sense can search the 5th or 6th Edi-Andrew.

Here we have no less than three of the most notorious and bare faced falsehoods connected.

Andrew was bound under his official oath which may remain in his hands at the expiration of his term of office, to his successor, and 6th edition, which makes it the duty, of all other in the selenin march to the tomb.

Treasurers of all counties within this Commonwealth, immediately after the passage thereof, to pay over to their respective successors in office all redemption monies on unseated lands, which may be remaining in their hands at the expiration of their respective terms of office. Did our friend Andrew do so? It appears not. This Act of Assembly was passed about nine months before Andrew rendered his last settlement, being from April 1840 to January 1841, and about eleven months before the then Auditors prepared the refunding clause above referred to, being from April 1840 to

The manufacturers of the aforesaid whitewash say that even Johnny Merwine did not mention the matter in his dissenting paper, to the settlement of 1841 held in January 1842. am somewhat acquainted with Merwine, and approve of his course when it is straight forward, and true to the interests of our tax-payers. The writers aforesaid have endeavored in the Eggs, per dozen change their opinion of the \$25.00 check business of neighbor Andrew.
