LL Persons insuring in this company are members equally interested in its welfare burg. and in the election of its officers.

In order to become a member of this company and thereby be insured, the applicant gives a premium note, the amount of which is in proportion to the amount to be insured, and its degree of hazard, thus: If \$1000 is to be insured, at 5 per cent., he gives his note for \$50. If at 10 per cent. he gives his note for \$100, and in that proportion for a greater or less sum, according to the rate of hazard, on which note he advances 6 per cent, and an additional sum of \$1 50 for survey and policy. He then becomes a member on the approval of his application and is insured for five years. The aggregate of the premium notes constitutes the cash fund, chargable first, with the expenses, and second, with the losses of the Company; and should it prove insufficient to pay both losses and expenses the money to meet the losses, (should sides containing his written signature on a yellow beaming with joy, and his tongue pouring forth any occur) is borrowed agreeably to the act of incorporation, and paid. Dr. LEIDY has allowed his Blood Pills to become known by their effects; thus establishing them a character that can never be taken of their qualities.

Most other Pills have gone out of use since manufacture to order, all articles in his line of their introduction; many have fallen into disrepute, and some are now altogether unknown, still a few hangers-on endeavor to gull the ignorant by plausible (though false) reasoning of the extraordinary powers their Pills possess; but the public are fully sensible of such impositon.

Wright's Indian Vegetable Pills

Of the North American College of Health.

This extraordinary medicine is founded upon the principle that the human frame is subject to keep the body free from those humours which are ONLY ONE DISEASE, viz: Corrupt Humors, or in other words Impurity of the Blood, and nothing save vegetable cleansing, is wanted in order to drive disease of every description from the bo-

If the channels of our mighty rivers should be come choked up, would not the accumulated waters find new outlets, or the country be inundated! Just so with the human body; if the natural drains become closed, the accumulated impurities will most assuredly find vent in some form of disease, or death will be a certain consequence.

WRIGHT'S INDIAN VEGETABLE PILLS are eminently calculated for carrying out this GRAND PURIFYING PRINCIPLE, because they are a purgative medicine so justly balanced and withal so natural to the human constitution, that they cannot possibly injure the most delicate; at the same time, if used in such a manner as to produce free evacuations by the bowels, and repeated a few times, it will be absolutely impossible for pain or distress of any kind to continue in the body. NOTICE

TO SAW-WILL OWNERS, Or those who are about to build or repair.

The undersigned respectfully informs the public that he is duly authorised to sell the Right of the Johnson Re-acting Water wheel, to the counties of Monroe and Pike, parented the 22d day of June, A. D. 1840.

The Johnson re-acting wheel is the best now in use to propel a saw mill; it excels any other wheel in the United States under a low water head;-under a head from 5 to 7 feet is sufficient to cut from 2 to 3000 feet in twelve hours of inch or any other boards with ease. The wheels require, under a 7 foot head, 140 inches of water and so in proportion to any other head, Under a 7 loot head, the Saw will make from From three to six of said Indian Vegetable Pills 200 to 250 strokes per minute. The advantaken every night on going to bed, will, in a short tage which those wheels have over any other of every description, will despair, as if by magic, the crank shaft. Two wheels are what is required for a Saw mill, and the pasts planked inside the same as a pen stock. I have built one of those mills this season, on the Rearing Brook, in Luzerne county, for Mr. S. P. Templin, under about a 7 foot head, which will cut from 3 to 4000 in twelve hours of inch boards; -- therefore, I can recommend them as the best wheels now in operation. There are several more mills in that part, all under low heads, which answers the same purpose as that of Mr. Templins. For further information, please call
