Grand National Mass Meeting.

Among the published proceedings of the Celebration of the 4th of July by the Whigs of Philadelphia, we find the following Resolution, which was offered by James S. Wallace, Esq. the able to Philadelphia. The price has heretofore, adopted with acclamation by the company,

Resolved. That the Whigs of Philadelphia tender an invitation to the Whigs of the WHOLE UNion, to meet in Grand Mass Convention, on the 4th of July 1844, at Independence Square, in the City In the meantime, no businesss is doing on the Stage proprietors," and other devices we did of Philadelphia, to respond to the nomination of the National Whig Convention."

For us, we approve of the proposition with all our hearts, and hope that the invitation so extensively given, will be responded to by the gallant little for carrying coal, and that 70 cents Whigs of the Union, in the same liberal spirit .-The National Whig Convention, to nominate candidates for President and Vice President, will be held at Baltimore, on the 4th of May 1844, two months previous to the anniversary of our Independence, which will allow full and ample time for persons from every part of the Union to be apselected. What spot in the Union is calculated to rouse up the same patriotic feelings and resolutions, on the Fourth of July, as the Hall of Independence, in which, on that day, our glorious Declaration was adopted, and afterwards signed. Besides, Philadelphia is a strong Whig City, and the firm and steadfast love of her citizens for the character of Henry Clay could not but have the the most important movement that has yet been broached, for the success of the Whig candidates in 1844. It will create an enthusiasm, which will spread like witdfire over the Union, and work the most happy results.

Our Borough.

Stroudsburg never looked more beautiful than it does at present. The grand and majestic scenery which surrounds and hems it in, is now in its pride, and the lovely streams, which cross it at almost every point, never appeared more cheerful and refreshing. With reviving nature, our languishing trade and business also seem to and potatoe fields and gardens have revived have received a new impetus. The pressure, in a wonderful manner. The grass, also does which rested so heavily upon us, is gradually giving way, and activity and confidence appear fire, but is green, as it ought to be. A great once more to be assuming their sway.

Business of every kind has improved, and sev eral new establishments have been started, with every prospect of success. All the houses in the Borough are occupied, and the demand for dwellings has been such as to induce some of our cittended for the accommodation of the public genhimself, and is pronounced, by those who know him, to be the prince of landlords.

Another Steamer Lost.

The Royal Steam Ship Columbia, which left Boston on the 1st inst. ran the day after, during a heavy fog, upon a craggy rock partially covered with land near Seal Island, on the southernmost coast of Nova Scotia. She was going at the time the accident happened at the rate of ten knots an hour, and drove upon a rock five feet above high water mark. At the latest accounts, she had already partly broken, and was swinging by her bows, certain to be dashed to pieces by the ordinary commotion of the waves. The mails, and all the furniture on board of her were secured, and taken to Halifax, from whence the steamer Margaret was despatched to Liverpool, taking with on board ninety passengers, and a crew of eighty men, making one hundred and seventy, all of whom were saved. The accident was altogether owing to the fog, and no blame is attached to any of the WHICEIS.

Eeston, July 17th, 1843. Our Borough was quite enlivened on Saturday, by the sound of "fife and drum," and procession of several hundred tow path boys the Lehigh, along the Mauch Chunk Canal, ton, the workmen on which have resolved to suspend operations, until the Mauch Chunk Company agrees to give them 20 cents additional for carrying a ton of coal from the mines live of France, and weighs only 180 lbs. editor of the Philadelphia National Forum, and (this summer,) been fifty cents, and seventy is asked. The Company refuses to give the advance, and the boatmen refuse to go to work. Lehigh Canal, and the Collector on the Delaware Canal, does not take in \$200 a week. For my part, I think 50 cents a ton entirely too would no more than afford the boatmen a decent means of living.

We have already quite as many papers in Northampton, as the people can afford to support, and consequently I think this new one will turn out but a poor speculation for its proprietor. It was a wise and good saying of Washington, that in 'time of peace we should prepare for war," and in following that excellent man's injunction we are sure we can do no wrong. We hope then that the young men of Stroudsburgh, disregarding all unmeaning clamor, and not being deterred from their good intentions by the opposition of a few, will go on and build up a company, which will be an ornament to their Borough, and a defence to their country.
