To our Subscribers.

We call the attention of our subscribers to the fact, that the September Term of our Courts will commence on Tuesday next, a week, and that it will afford them an excellent opportunity of either bringing or sending the amounts which they owe us for subscription. We are very much in want of money, and out patrons by attending to this notice will confer an especial favor upon us.

This Fall's Election.

The din of preparation which is now resounding the growth of the Republic, and become so deeperadicate and wipe it away.

The abuses which creep into party arrangements, and the corruptions which are incident to them, may occasionally induce the voters to disregard party ties, and act independent of party nominations. But heretofore, whenever this has been the case, we have always seen them return, 'in a very short time, to their first love, and as an atonement for their defection, by their energy and and stable than it was before.

Party ties, therefore, having such an influence over us, it is the duty of every man to see that none but good and capable men are placed in nomination for offices of trust and profit. If this is attended to, it matters but little which party is successful; for our high places will be honestly filled, and the welfare of the community cared for. The prostrate condition of Pennsylvania, at this time, imperiously calls upon us to select proper men for office. Will not Monroe county attend to the call? We trust she will.

The Mauch Chunk Boatmen.

The difficulties between the Coal Companies on the Lehigh, and their Boatmen, have at length been amicably arranged. The boatmen are to receive an advance of ten cents for every ton of coal they carry from Mauch Chunk to the City, in accordance with the practice which has heretofore prevailed every fall. The trials, at Easton, against a number of the boatmen for conspiracy the title of "The North Arkansas," under date and riot, we learn, have been continued until No- of August 9th, we copy the following : vember Court, to which time the parties have been hable that those against whom charges have been preferred, will then be discharged without trial.

A Remarkable Fact.

On the 2d of July last, which was decidedly the hottest day this summer, and when the thermomcter rose to above 1000 in many places in the U. States, the weather was so cold in London, that fires were found to be very comfortable. The 2d the neighborhood of Ross, arrived here a few mainder of the week. of July is considered the height of summer in both places. Here we had summer weather, whilst in England they had exactly the reverse.

Rumers are again becoming plenty, of changes . and Wickliffe, are, it is said, to leave their offices, Ross, by violence, would be, of itself, an event do not believe a word of it.

Camps De Kalb and Jackson.

Those two Encampments have just come off,the former at Pottsville, and the latter at Doylestown. They were both well attended by volunteers and citizens, and gave entire satisfaction. Col. Johnson, who was expected to be present at both, was prevented from attending, by indisposition, which detained him at home until it was too resolved to write you the following: - which, if late to reach them.

Seduction and Attempted Marder.

It is our painful duty to record another case of seduction in Philadelphia, which had very nearly terminated the same as that in which young Heberton was an actor, last winter. On Monday a a terrible state of excitement, in consequence of a advertisements for the Jeffersonian Republican, bold attempt to murder a man named Joseph S. and give receipts for the same. About two years ago, Wimer, who is a married man with two children, became acquainted with Mary Crawford, a beautiful young girl, who resi ded as a domestic with one of his neighbors. After her confinement, she returned to the City-made her sister acquainted with everything, and soon afterwards went to Frankford, where she obtained a situation as nurse.

On Saturday a week, her brother, Joseph Crawford, who had been clerk in a store in New York, arrived at his mother's house, and immediately inquired for his unfortunate sister. Having found her, she told him all, and he returned to the City, determined on revenge. Having found out Wimer's dwelling, he entered, and upon seeing Wimer, made a deadly thrust at him with a small sword which he drew from a cane, and stabbed him in the right side. Wimer fell into the arms of his wife, who had followed him into the room, off, making only a flesh wound.

It is rumored that Wimer, throughout the Commonwealth, gives token that ried Miss Crawford, after effecting her ruin, and our fail election is fast approaching. Tyler Victories.

The newspapers have adopted the practice of heading the articles, in which they announce the removal of the incumbent, and the appointment of his successor to office, under the National Administration, "Tyler Victories." They are the only zeal, render their party organization more firm ones which the Captain can ever again achieve, and as his time is fast passing away, we can scarcely blame him for indulging in their pleasures. Monuments.

The people of the United States are becoming patriotic in earnest, and appear determined that the stale assertion "that Republics are ungrateful," shall no longer rest upon them. Since the completion of the Bunker Hill Monument, the cities of Philadelphia and New York have both taken measures to complete beautiful Monuments to the memory of Washington. And we now see that the people of Trenton, New Jersey, are moving upon the subject of a Monument commemorative of the battle at that place during the Revolution. Success to all their efforts.

Trouble in the Camp.

The New Haven Courier of Saturday has the following in a postscript:

A gentleman who came over from Bridgeport, Conn., ip the steamboat yesterday aftermoon, states that it was estimated there were from 12 to 15,000 persons at the Camp Meeting on Thursday, and about the same number yesterday. Our informant further states that the Millerites, who had engaged for next week the ground now occupied by the Methodists, had arrived prepared to hold their meeting and had issued hand bills giving notice to that effect. In the mean time the Methodists had agreed to continue their camp meeting, another week, and were holding possession of the premises for that purpose. Which party would have precedence, was uncertain, but as the ground is owned by one of the Methodist brethren, it was supposed the odds were in their favor. Trouble, however, was anticipa-
