Congress.

During the past week nothing scarcely of increst or importance, transpired in either House of Congress. The members spent their time principally in observing the Christmas Holidays, and forming acquaintances among each other. Southern Chivalry leaving a back door open for Retreat. A probable Coalition to destroy the Tariff.

There is a deal of Quixotteism in the chivalry of the South. The Charleston Mercury, the Calhoun organ of the South, has repeatedly asserted that it would have nothing to do with the Baltimore Convention, composed as it probably will be of delegates not elected by the district system. Right valiently has the Mercury couched lance against the old hunkers and the dangers of a packed Convention. But a change seems to have come over the spirit of its dreams -the chivalry have lowered their spear-points, become as docile as lambs, and are willing to enter into terms of compromise! The Mercury now says, " with the nomines of such a Convention, we may have something to do-and it is this contingent problem that we look for the present Congress to solve."

The wind has shifted-Calhounism has turned another flipflap; and we should not be surprised to see the Cataline of the Globe's chrisening, bow cap in hand, before the footstool of

The Fruits of the Tariff.

A sheet iron manufactory is now in operation at Boonton, New Jersey, which is now employing a large number of hands, and paying them wages amounting to \$20,000 a year .--This is one of the many good effects of our protective tariff. The iron is sold cheaper, we learn, than that of a similar quality, which is passed 135 to 35. The bill was passed in half imported !

At Cincinnati there is a cotton manufactory which employs fifty-five girls and forty-five men, whose wages average six dollars per week.

Speaker and members.

Mr. Davis resumed, and said there was no general sentiment in favor of Abolition in the North; he said he believed that Slavery would be abolished in the District and in the Territories in time. He believed the law referred to in the debate should be repealed, and that public sentiment demanded it. Mr. Davis was called to order for saving this, and soon took

Mr. Haralson, of Geo., intimated that if gentlemen supposed that the South were quiet upon this subject, they were mistaken.

Mr. Stephens, (a new member from Georgia, and a very eloqueat one,) continued the discussion. He was for the reference of the memo rial to the Committee on the Judiciary with instructions to report what the law now in force is, and whether amendments ought not to be made to the law.

Mr. Adams said he could not help comparing this incident with one that occurred here in the 27th Congress. Mr. White, of La., then introduced a bill regulating arrest on meane process in this city. The bill was read a first and second time, and the rules of the House were suspended to act upon it. An effort was made to deleat the bill, but it was rejected and the bill an hour after it had been introduced. The occasion of this precipitation gentlemen would remember. Under the laws of this District a citizen of Louisiana was in jail here, and the House were inflamed by the fact. The citizen imprisoned was a freeman. He was a white man, it is true, and that was the only difference in the case.

Mr. Adams said his mind had been painfully A freeman had now sent his petition here stating that he had been imprisoned for two months, and that he was now advertised to he sold for had no power to act upon this subject, that it of Va., was imprisoned now.
