

The Methodist General Conference and Slavery.

The case of Bishop Andrew, which has occupied the attention of the Methodist General Conference in New York about a fortnight, and which has awakened so deep an interest in all parts of the country, was, on Saturday morning decided by the passage (110 to 68) of a resolution, declaring it to be the sense of the Conference that the Bishop desist from the exercise of his office so long as he is connected with slavery.

The following is the resolution referred to: "Whereas, The discipline of our Church forbids the doing of any thing calculated to destroy our Itinerant General Superintendency; and whereas, Bishop Andrew has become connected with slavery by marriage and otherwise, and this act having drawn after it circumstances which, in the estimation of the General Conference, will greatly embarrass the exercise of his office as General Superintendent, if not in some places entirely prevent it, therefore,

"Resolved, That it is the sense of this General Conference, that he desist from the exercise of this office so long as this impediment remains."

The vote upon the resolution having been decided as above stated, Dr. Pierce, of Georgia, gave notice of the intention of Southern members to offer a protest against the action of the Conference.

Messrs. Winans and Early made a few remarks in relation to the embarrassing position which the South was placed by this vote, and said they were not prepared to transact any further business. The Conference then, agreeably to what was understood to be the wish of the Southern members, adjourned.

What course the South will now pursue is as yet unknown, except so far as relates to her determination to protest against the action of the Conference. During the debate, the Southern members have declared that division would be inevitable if the resolution were adopted, but in what form the division will occur, if indeed it shall take place at all, it is impossible at this time to say.

General Markle at Home. The editor of the Miner's Journal at Pottsville, says that he lately conversed with a gentleman from Westmoreland county, a near neighbor of Gen. Markle's:

"Although opposed to the General in politics, he admits that if elected, he will make one of the most upright, honest, and capable Governors Pennsylvania ever had.

He said he was astonished to hear the numerous charges made by his loco foco brethren with regard to his capacity; and admitted that these charges would only have the tendency of swelling his vote at home among his friends and neighbors.

"They could differ with him honestly in politics—but they could not, or would not permit one who had rendered such important services to his country in time of need, to be traduced even by their own party."

Such is the feeling of the honest and right minded of all parties.

NOTICE TO SAW-MILL OWNERS,

Or those who are about to build or repair.

The undersigned respectfully informs the public that he is duly authorized to sell the Right of the Johnson Re-acting Water wheel, to the counties of Monroe and Pike, patented the 22d day of June, A. D. 1840.

The Johnson re-acting wheel is the best now in use to propel a saw mill; it excels any other wheel in the United States under a low water head;—under a head from 5 to 7 feet is sufficient to cut from 2 to 3000 feet in twelve hours of inch or any other boards with ease. The wheels require, under a 7 foot head, 140 inches of water and so in proportion to any other head. Under a 7 foot head, the Saw will make from 200 to 250 strokes per minute. The advantage which these wheels have over any other wheels is, that it requires but four posts to make the floor or bulk head; the wheels are hung on the crank shaft. Two wheels are what is required for a Saw mill, and the posts planked inside the same as a pen stock. I have built one of those mills this season, on the Roaring Brook, in Luzerne county, for Mr. S. P. Templin, under about a 7 foot head, which will cut from 3 to 4000 in twelve hours of inch boards;—therefore, I can recommend them as the best wheels now in operation. There are several more mills in that part, all under low heads, which answers the same purpose as that of Mr. Templin's. For further information, please call on the subscriber.

FERDINAND DUTOT, Agent. Lower Smithfield, Monroe co., November 9, 1842.

Another Premium of \$250.

For the best Line, Stipple or Mezzotint Engraving, from an Original Picture, or a combination of any two or three of the styles, of a subject to suit Godey's Magazine, and worthy to be published therein, the above premium is offered. A reference to the engravings for the last two years will give an idea of the kind of subject that will suit. The successful plate only will be retained. It is requested that a price may be put upon each engraving, so that the purchase of the best of the unsuccessful may be treated for with the artist. A decision will be made by competent judges on the first of October. Address

L. A. GODEY, Philadelphia.

Extract from our Advertisement published in December last.

"Russell Smith has been engaged to furnish a series of pictures representing some of the most celebrated places in the United States, battle-grounds, &c. We have two of his designs in the hands of our engravers, and they would have appeared ere this, but the government works now in their hands occupy nearly all their time. The idea originated with us. The offer of our premium no doubt will produce many good pictures, battle-grounds, celebrated places, &c.

It will be perceived that the idea of furnishing views of battle-grounds was first conceived by publisher "Godey." They will be engraved in Dick's best style, and given with other plates as rapidly as possible.
