#### The Stockholders

Of the SYLVANIA PHALANX, but particularly those residing on the Domain, in announcing the abandonment of their enterprise, think it advisable, before separating, to inform the friends of Association and the public of the causes which have impelled them to this step, lest it might be considered as a failure of the System discovered by C. Fourier, and the erroneous impression that association is impracneable, spreading abroad uncorrected, should materially injure the cause of Social Reform. After one year's experience in this new mode of life we are sausfied that the principles, which under very unfavorable circumstances we have attempted to carry out are true, -- greatly favorable to the improvement of morals,-to the elevation of the laboring class,-capable of reconciling the various interests of individuals, thereby establishing justice in their social relations and kindness in their intercourse.

But we find that coming from cities as most of us do, and consequently unused to the severe toil necessary to clear and subdue this wild land, the task is beyond our physical strength, and not being able to accomplish it profitably to ourselves and our friends, we have come to the conclusion that it was inexpedient to solicit any farther investment of capital, for the prosecution of the enterprise, and resolved on the sale of the property, payment of debts, and immediate winding up of the business.

Persons having claims against the Society. will please present them to J Whitney, Secretary on the Domain, and one of the Committee appointed by the Stockholders to settle the affairs of the Association.

SAMUEL KINZER, Pres't.
