upon the heads of any men, as has been heaped upon the heads of the "Native Americans," since the election, by the locofocos in Strondsburgh. "The d-n black Natives," says one. "Wouldn't the strong democratic counties turn out and put down the Natives, if another collision should take place between them and the Cath olics !" says another. " It's a pity they hadn' been all killed off," says a third ; and more an athemas and maledictions have been hurled a them, than were ever thundered from the Vatican, against those who disbelieved in the in tion. fallibility of the Pope. The Locos, poor felwhen they heard the returns from Philadelphia surprising that they should have thus denounced the Natives. They have been trying to get lieve, that there has been a quarrel between the Adams Natives and the Whigs since the election .-

"Affidavit" Kerr.

This is all gammon.

In the last Loco Foco paper, published in Berks Bradford Stroudsburg, " Affidavit" Kerr comes out with Bucks an article, in which he attempts a denial of one Butler Cambria published by us, in our paper of the 26th ult. relative to a conversation which he had with Centre several persons in Stroudsburg, about Francis Chester Clarion R. Shunk. It is not a bold and manly denial, Clearfield but a week attempt to get out of an ugly fix, by Clinton denying certain words, and by giving false quo-Columbia Crawford tations, and then denying that he said so. For Cumberland instance, he says, "I never said Mr. Shunk was Dauphin Delaware in the habit of attending balls. I never said he danced all night at balls." We never said that Erie he did say so. This is what we said-'he (Mr. Fayette Franklin Kerr) stated that F. R. Shunk was a very clever Greene man, but that he spent a great deal of his time Huntingdon in the ball room, and sometimes danced all night.' Indiana lefferson We further stated that this worthy ex-member luniata said that " if Francis R. Shunk was elected, he Lancaster Lebanon was ofraid he would not keep his foot on the Lehigh Treasury chest as tight as he should." This Mr. Kerr does not undertake to deny. He says that we kept our statement "until just before the election with a view to injure Mr. Shunk's election, knowing there would not be time to contradict it until after the election." Now this is not true. We published the conversation as soon as we heard it. It was published first in our paper of the 26th of September, which was eleven days before the election, and again in our paper of the 3d of October, and the gentleman certainly had time enough to contradict it before the election, which took place on the Sth of October. He says he would have let it pass unnoticed, was it not a duty he self. If he had said he would have let it pass unnoticed were it not that he was afraid that if Shunk was elected, he would not be appointed Associate Judge in the place of Joseph Keller, whose term expires within the next three years, he would have come nearer the truth in our opinion. But not to trouble our readers with any further remarks, we will close by referring them to the statement of George H. Miller and Charles Boys, contained in another column, and will then leave the community to judge whether any thing short of another Harrisburg affidavit will get Mr. Kerr out of this tight Dist. place.

JEFFERSONIAN REPUBLICAN

We have never heard such abuse heaped To the Editors of the Jeffersonian.

In the Monroe Democrat of the 10th inst., exmember Kerr undertakes to contradict a statement, contained in your paper of the 26th ult., of a conversation which he had with several citizens of this place, relative to Francis R. Shunk. We were present and heard the conversation referred to in your paper, and have no hesitation in saying that the statement of said conversation, as given by you, is substantially true. We will merely add that Jacob Singmaster was present at the same conversa-

Polk Advice to Birneyites.

The Wayne County (Pa.) Herald says: "If the Abalitionists wish to cultivate and sustain a truly Christian and liberal policy in wards the African race within our borders, let them support the nominations of the Democrate party-James K. Polk and George M. Dallas Mr. Birney is a Democrat and a worthy man but he can never be elected President. Let the votes intended to be cast for him be cast for Polk and Dallas, and the anti-slavery men will at least have the consolation of reflecting that they have not aided by their votes; either directly or indirectly, in elevating Henry Clay, their greatest and worst enemy, to power !"

This genius might have said more if he had known more-to wit, that if the Birney me, would do their utmost to elect Polk, either by seducing Whigs to throw away their votes in secretly voting the Polk Electors, the Pol. men would repay the service by electing Bgney himself to the Michigan Legislature. This is on the sound old principle of 'tickle me,' de [N. Y. Thoune.

The Tariff.

"It can be shown, by calculations founded on official statements, that the people of this country have been compelled to pay, since the passage of the tariff act, nearly one hundred mit lions of dollars for the protection and support of the manufacturers."

The above assertion we copy from "Th Democrat," a paper published in New York, and bearing the flag of Polk and Dallas. The paper from which we copy it bears date A gust 24, 1844.

This is the friendship of Mr. POLK to the TARIFF. His organs, his friends, his partisan, denounce it,-he himself denounces II, and ythe leaders of the Locofoco party in this Star and New Jersey have the audacity to tell the people that he is in favor of protection, and favor of the tariff! Nay, they have the ase rance to claim the tariff of 1842 as their own measure, and as having been passed by them"

We saw and copied a handbill, posted on a house standing at the northeast corner of Charse and Seventh street, and used as the Loculos head quarters on the day of the election, which read as follows :

"OREGON AND TEXAS-POLK. DAL LAS, AND SHUNK-DEMOCRATIC TA-On the final passage of the present tariff art the yeas were 105; of whom 85 were Whigand 20 were Locos, 19 of whom had voted against the same bill when it contained a clust reserving the distribution of the public lan Stratton, (W.) Thompson, (L.) money to the States. The navs were 103; 2138 whom 68 were Locos, and 35 Whigs. SE 1181 ENTEEN Locofocos, namely, five from N York, 637 five from Pennsylvania, two from Maine, at 417 five other States did not vote. Of the White 310 who voted against the bill, twenty-two had w 529 led for the same bill before the distribution clause was stricken out, and voted against go ing up distribution, and not against the tar.ff. Now did the Locofocos pass the bill, or d the Whigs ? Are they the friends of the tart or are the Whigs ? Is the present variff a "de ocratic tariff" or a Whig tariff ?- U. S. Gas.

The Election.

The election is over, and from the returns which have been received, it is probable that Mr. Shunk is elected Governor, by between two and three thousand majority. The aggregate vote in the State is very large. General Markle received a larger vote than was ever before cast for any candidate in Pennsylvania, and has only been defeated in consequence of felt he owed to Mr. Shunk, the public and himthe immeuse foreign vote, which went nearly unanimously against him. Although we have probably lost our Governor, the result of the election is a decided triumph to us. Our opponents confidently expected 20,000 or 30,000 majority for Mr. Shunk, which has dwindled down to two or three thousand. We have probably elected a majority of the Congressmen, and also Simeon Guilford, our Canal Commissioner. The Legislature is still in doubt. We can now see our way clearly through the Presidential Election. Our friends are already actively at work, and will give Mr. Clay the State by a handsome majority.

Monroe County.

We publish the official returns of this county in another column. They are not as favorable as we could have wished, but as much so as could have been expected under the circumstances. The Whigs had not fair play shown them. We have collected some of the evidence, and will lay it before our readers next tion. week. In the mean time we can say, that we are confident of reducing their majority somewhat in the county.

Giorious Philadelphia.

In 1840, the City and County of Philadelphia, gave Mr. Van Buren 237 majority. Now they have given Gen. Markle nearly six thousand; and promise to do two thousand better for Mr. Clay in November. Three cheers for Philadelphia.

The British Party.

The editor of the Dorchester, (N. Y.) Democrat gives the following nine reasons for calling the Locofoco party the "British Party."-

1. James K. Polk's grandfather was a tory. 2. James K. Polk voted against giving Pensions to the surviving soldiers of the Revolu-

3. He has uniformly favored British interest by opposing Protection to Domestic Industry. 4. He advocates the English policy of con-

The Whigs have increased majorities in nearly all their counties, while the Locos in their districts have suffered heavy losses. By comparing the recent vote in the counties heard from with the vote of 1842, it is evident Clay's majority at the Electoral Election cannot be short of 20,-000.

The Locofocos fought with desperation, and were confident of success.
