PROSPECTUS

OF THE
SEMI-WEEKLY TRIBUNE.

The publishers of The Tribune have been frequently solicited to issue a Semi-Weekly edition of their paper for the benefit of those who require the news of the day oftener than once a week, and yet are without daily mails or do not choose to incur the expense and heavy postage of a Daily. Circumstances have hitherto rendered such publication impossible, without trenching upon the due issue of our Daily and Weekly editions. We are preparing to obviate this difficulty in the new building now being erected for us on the site of our burnt establishment, where we hope to be again located by or soon after the 1st of May.

The NEW-YORK TRIBUNE SEMI-WEEKLY, will therefore be issued from our office, 160 Nassau-st. on or before the 17th of May, and will be published thenceforward on Wednesday and Saturday of each week. It will be printed on good paper of the size of the Daily Tribune, and will contain nearly or quite all the matter of the Daily, including Money Market, daily report of Commercial Transactions, Sales of Stocks, City Intelligence, &c. An Assistant Editor devotes his whole time to the collection of this kind of intelligence, reporting it twice a day for the Morning and Evening editions of our Daily. Two reporters are constantly watching the proceedings of the various Courts of our City and noting every thing deemed interesting to our readers. We hope to make the Semi-Weekly Tribune a most acceptable paper for Business men out of this City, and for all who wish a more prompt and detailed map of busy life than a Weekly paper can possibly be made.

Correspondents at Washington during the Session and at every point of general or transitory interest will at all times be employed; the liberal patronage bestowed on The Tribune demanding and justifying a corresponding liberality of outlay on our part. In the department of General Literature and Criticism, we have secured assistance of the highest order, while we hope soon to announce a department of Agricultural and General Science, under the immediate conduct of one of the most experienced and popular writers on Agriculture in the Country. In fine, we shall spare no expense or effort to make The Tribune, whether in its Daily, Semi-Weekly or Weekly edition, eminently worthy the patronage of the Business and Reading Public, but especially of Whigs.

The Semi-Weekly Tribune will be issued every Wednesday and Saturday on a sheet of good paper the size of the Daily Tribune. Terms, Three Dollars a year; Five Dollars for Two Copies; payable always in advance. Orders, enclosing cash are respectfully solicited by

purchased for cash, which they will sell at a very small advance on the same terms, and would call the particular attention of their friends to the same.

IN PRESS
POPULAR LECTURES

ON
SCIENCE AND ART;

DELIVERED IN THE
Chief Cities and Towns in the U. S.
BY DIONYSIUS LARDNER.

Doctor of Civil Law, Fellow of the Royal Societies of London and Edinburgh, Member of the Universities of Cambridge and Dublin, and formerly Professor of Natural Philosophy and Astronomy in the University of London, &c. &c.

The publishers announce that Dr. Lardner having brought to a close his public Lectures in this country, they have availed themselves of the opportunity thus presented to induce him to prepare for publication a complete and authentic edition of these Discourses. The general interest which for the last four years they have excited in every part of this country is universally felt and acknowledged. Probably no public lecturer ever continued for the same length of time to collect around him so numerous audiences. Nor has there been any exception to this favorable impression. Visit after visit has been made to all the chief cities, and on every succeeding occasion audiences amounting to thousands have assembled to hear again and again these lessons of useful knowledge. The same simplicity of language, perspicuity of reasoning, and felicity of illustration, which rendered the oral discourses so universally acceptable will be preserved in the published report, which will indeed be, as nearly as possible, identical with the Lectures as they were delivered.

The publishers feel that in the volume now proposed they will present to the American public a most agreeable offering, and an interesting and useful miscellany of general information, which will also afford that large class of persons who have attended the Lectures, an agreeable means of reviving the impressions from which they have already derived so much profit and pleasure.

The subjects which will be included will embrace a variety of topics in the Astronomical and Physical Sciences, and in their application to the arts of life. Among these the following may be mentioned:

The Plurality of Worlds; The Sun; The Moon; The Planets; The Comets; The Solar System; The Atmosphere; Popular Fallacies; Artificial Illumination; Light; Sound; Electricity; Galvanism; The Bridge Water Lecture; Lunar Influences; Weather Almanacs; Babbage's Calculating Machinery; Electric and Magnetic Telegraphs; The Telescope and Microscope; Galileo; Copernicus; Lavoisier; Newton; The Stellar Universe; The Power of Steam; Steam Navigation; Aurora Borealis; Water Spouts; Thunder and Lightning; Theory of Dew; Heat; The Barometer; The Thermometer; &c. &c.

The work will appear in numbers, or parts, will be well printed on good type, and copiously illustrated with engravings on wood. It will be completed in ten or twelve numbers, and the entire volume will be published within six months. The price will be 25 cents for each number.

Any person wishing to procure this valuable work may apply to our agents, or to any of the Booksellers or Country Merchants in any part of the United States. Postmasters remitting one dollar will be entitled to five numbers. Orders are respectfully solicited.

A NEW BOOT & SHOE ESTABLISHMENT.

William Blair,

Respectfully informs the citizens of Stroudsburg and vicinity, that he has commenced the

Boot & Shoe Making

business at the shop formerly occupied by W. J. Breimer, as a Tin Shop, where he will be happy to receive orders for all kinds of work in his line of business, and also intends keeping on hand a stock of

READY MADE WORK.

and will devote his best efforts to the accommodation of those who will favor him with their patronage.

With an experience in the business of no inconsiderable length—a determination to adhere strictly to his promises—and a resolution never to make unreasonable charges, he flatters himself that he will receive a fair proportion of the custom of the Borough and neighborhood.

Country produce of all kinds, taken in payment for work, if brought in reasonable time.

N. B.—Repairing done at the shortest notice.
April 3, 1845.—6m.

A subject for Congratulation.

The Postage on Godey's Magazine and Lady's Book, to any distance is reduced to 4 1/2 cents on each number. To commence on the first day of July next.

It will then be cheaper than the large class of weekly papers—the postage on the former being only 4 1/2 cents, and that on the newspapers six cents per month.

In the LADY'S BOOK you will find the best articles of Poetry and Prose by the best authors of the day—new Music—and, in addition, from three to five monthly plates including the authentic Ladies Fashions. The heavy postage tax on periodicals has been very detrimental to a great deal of distribution. That tax has now been removed, and our subscribers, and those about to subscribe, will have to pay only 4 1/2 cents per month postage on one of the most beautiful and useful works of the day.

This agreeable alteration of what was a very unjust law towards periodicals, now places us in a better position to mail subscribers. We give four times more original matter than any of the weekly papers. Three Engravings a month gratis—Original Music, and at Less Postage.

L. A. GODEY, Philadelphia.

STRAYED

From the premises of the subscriber, on Wednesday the 12th instant.

A WHITE SOW FIG,
