

G. W. JONES, the newly appointed Surveyor of Iowa, was one of the seconds in the duel in which Cilley was killed. Wonder if the *Reverend* Mr. Sheppard of Bradford county, has heard of this fact. We hope the "Pulk and Dallas" papers will give this a notice.

IN PRESS POPULAR LECTURES ON SCIENCE AND ART; DELIVERED IN THE Chief Cities and Towns in the U. S. BY DIONYSIUS LARDNER.

The publishers announce that Dr. Lardner having brought to a close his public Lectures in this country, they have availed themselves of the opportunity thus presented to induce him to prepare for publication a complete and authentic edition of these Discourses. The general interest which for the last four years they have excited in every part of this country is universally felt and acknowledged. Probably no public lecturer ever continued for the same length of time to collect around him so numerous audiences. Nor has there been any exception to this favorable impression. Visit after visit has been made to all the chief cities, and on every succeeding occasion audiences amounting to thousands have assembled to hear again and again these lessons of useful knowledge. The same simplicity of language, perspicuity of reasoning, and felicity of illustration, which rendered the oral discourses so universally acceptable will be preserved in the published report, which will indeed be, as nearly as possible, identical with the Lectures as they were delivered. The publishers feel that in the volume now proposed they will present to the American public a most agreeable offering, and an interesting and useful miscellany of general information, which will also afford that large class of persons who have attended the Lectures, an agreeable means of reviving the impressions from which they have already derived so much profit and pleasure. The subjects which will be included will embrace a variety of topics in the Astronomical and Physical Sciences, and in their application to the arts of life. Among these the following may be mentioned:

The Plurality of Worlds; The Sun; The Moon; The Planets; The Comets; The Solar System; The Atmosphere; Popular Fallacies; Artificial Illumination; Light; Sound; Electricity; Galvanism; The Bridge Water Lecture; Lunar Influences; Weather Almanacs; Babbage's Calculating Machinery; Electric and Magnetic Telegraphs; The Telescope and Microscope; Galileo; Copernicus; Lavoisier; Newton; The Stellar Universe; The Power of Steam; Steam Navigation; Aurora Borealis; Water Spouts; Thunder and Lightning; Theory of Dew; Heat; The Barometer; The Thermometer. The work will appear in numbers, or parts, will be well printed on good type, and copiously illustrated with engravings on wood. It will be completed in ten or twelve numbers, and the entire volume will be published within six months. The price will be 25 cents for each number. Any person wishing to procure this valuable work may apply to our agents, or to any of the Booksellers or Country Merchants in any part of the United States. Postmasters remitting one dollar will be entitled to five numbers. Orders are respectfully solicited.

A NEW BOOT & SHOE ESTABLISHMENT.

William Blair, Respectfully informs the citizens of Stroudsburg and vicinity, that he has commenced the Boot & Shoe Making business at the shop formerly occupied by W. J. Breimer, as a Tin Shop, where he will be happy to receive orders for all kinds of work in his line of business, and also intends keeping on hand a stock of

READY MADE WORK: and will devote his best efforts to the accommodation of those who will favor him with their patronage. With an experience in the business of no inconsiderable length—a determination to adhere strictly to his promises—and a resolution never to make unreasonable charges, he flatters himself that he will receive a fair proportion of the custom of the Borough and neighborhood. Country produce of all kinds, taken in payment for work, if brought in reasonable time. N. B.—Repairing done at the shortest notice.
