ELOPEMENT OF A WHITE WOMAN WITH A COLORED MAN ... The Norfolk papers mention the elopement of a young white woman, from the North, eighteen years of age, with a likely young mulatto, from one of the hotels, and a lave of the proprietor. They registered themselves at the railway offices as man and wife, in Elizabeth street, one door east of George II. character previous to their departure.

A gentleman in Lowell, Mass, is said to be so strongly attached to the ten hour system that he will not drink root beer, because it works more than ten hours per day.

THE HEIGHT OF INDOLENCE .- There is a man in St. Louis who does nothing all the time, and piles it up the next day. He has a clerk to keep tally.

The following recipe is said to be a sovereign cure for bed bugs :

Take a quantity of whale oil, and about the same quantity of lard or tallow, simmer them a few moments together; so as they will mix .---Apply the mixture with a feather or fine brush, to the crevices and joints of the bed steads, and these vermin will not only desert the bed but leave the room.

IN PRESS POPULAR LECTURES

ON SCIENCE AND ART; DELIVERED IN THE

Chief Cities and Towns in the U. S. BY DIONYSIUS LARDNER.

Doctor of Civil Law, Fellow of the Royal Societies of London and Edinburgh, Member of the Universities of Cambridge and Dublin, and formerly Professor of Natural Philosophy and Astronomy in the University of

London, &c. &c. The publishers announce that Dr. Lardner having brought to a close his public Lectures in this country, they have availed themselves of the opportunity thus presented to induce him to prepare for publication a complete and authentic edition of these Discourses. The general interest which for the last four years they have excited in every part of this country is universally felt and acknowledged. Probably no public lecturer ever continued for the same length of time to collect around him so numerous audiences. Nor has there been any exception to this favorable impression. Visit after visit has been made to all the chief cities, and on every succeeding occasion audiences amounting to thousands have assembled to hear again and again these lessons of useful knowledge. The same simplicity of language, perspicuity of reasoning, and felicity of illustration, which rendered the oral discourses so universally acceptable will be preserved in the published report, which William H Love will indeed be, as nearly as possible, identical with J Godley Spry & Co the Lectures as they were delivered.

The publishers feel that in the volume now proposed they will present to the American public a most agreeable offering, and an interesting and useful miscellany of general information, which will also afford that large class of persons who have attended the Lectures, an agreeable means of reviving the impressions from which they have
