

STROUDSBURG IRON AND BRASS FOUNDRY.

The subscriber, having purchased the interest of Wm. Schlaugh in the above establishment, takes this method to inform the public generally, and Millers and Farmers especially, that he has removed to the large and convenient

Foundry and Machine Shop, in the rear of John Boys' Store, and would be thankful for any patronage extended towards him, and respectfully announces that he is prepared to execute all orders in his line of business in the best manner and with despatch. He will manufacture

MILL GEARING

for Flour and other Mills, together with Castings of every description turned and fitted up in the best possible manner. He feels confident in his ability to execute all orders with which he may be entrusted in a workman-like manner. Particular care will be taken to employ none but good workmen in the different departments of the establishment, and no pains will be spared by the proprietor to give general satisfaction to those who may favor him with orders for work.

BRASS CASTINGS,

such as Spindle Steps, Shaft and Gudgeon Boxes, &c. will be made to order. Old Copper and Brass taken in exchange at the highest price. Patterns made to order.

Thrashing Machines & Horse Powers of the most approved construction, will be furnished to order at the shortest notice.

Wrought Iron Mill Work

will be done on the most reasonable terms, and all kinds of smith work.

The best kind of Sled Shoes and polished Wagon Boxes will always be kept on hand.

Ploughs of the most approved plan will be kept on hand, and an excellent assortment of Plough Castings which he offers for sale to Plough makers.

- 5,000 Square Hearth do.

All kinds of produce (cash not refused) taken in exchange.

C. W. DEWITT.

Milford, Nov. 21, 1844.

FARMERS' LIBRARY.

Prospectus of the *Farmer's Library*, and *Monthly Journal of Agriculture*. JOHN S. SKINNER, Editor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefited with every advantage that science can confer and the most enlightened industry make available! Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply for its followers high mental cultivation and various attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture! Who, among modern Literati, enjoys more enviable distinction than Liebig and Johnston, and Boussingault and Candolle? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the *Farmer's Library* and *Monthly Journal of Agriculture*, to be edited by JOHN S. SKINNER, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.

Far from being designed or in any way calculated to affect injuriously the circulation of existing journals of less price and wider circulation, they may supply the Farmer's table with lighter and more agreeable refreshment, while in the Library he may find more solid as it will be more costly food.

Each number will consist of two distinct parts, viz.:

I. *The Farmer's Library*, in which will be published continuously the best *Standard Works* on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plough. In the *Farmer's Library* they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginning in Farming, owing to differences of Soil, Climate, &c. The works published in the Library will form a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology, and Mechanics, have yielded and may yield to lighten the labors and swell the harvests of the intelligent husbandman. The work will be so arranged that the *Farmer's Library* may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound separately.

II. *The Monthly Journal of Agriculture* will likewise contain about 50 pages per month, and will comprise, 1. *Foreign*: Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the Library, &c. &c. 2. *American*: Editorials, communications and selected accounts of experiments, improved processes, discoveries in Agriculture, new implements, &c. In this department alone will out resemble any American work ever yet published. It can hardly be necessary to add that no Political, Economic, or other controverted doctrine, will be inculcated through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each.

Each number of the Library will be illustrated by numerous engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country, the fault shall not rest with the publishers, and we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical after the 1st of July—say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post Office. As Postmasters are permitted to frank money letters to publishers until that period, and as we wish to print only so many copies as may be wanted, we respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience. Address

GREELEY & McELRATH,

Tribune Office,
Corner of Spruce-street, opposite the City Hall,
New York, July 31, 1845.

The first number will be published on the 1st day of July, and thence regularly on the first secular day of every month.

INDIAN QUEEN HOTEL,

Stroudsburg, Pa.

JOHN SHIVELY,

Has fitted up a commodious and elegant Hotel on Elizabeth street, nearly opposite the store of G. H. Miller & Co., and directly opposite the residence of Daniel Stroud, Esq. He has every convenience for entertaining strangers and travellers. Persons from the cities, and others who wish to take a pleasant jaunt in the country will be accommodated in the most satisfactory manner at his house.

THE TABLE

will be supplied with the best productions afforded by the market.

HIS ROOMS AND BEDS

are such, as will, he hopes, prove satisfactory to all reasonable customers.

THE BAR

is, and will continue to be, furnished with a choice assortment of Liquors.

THE STABLING

is new and extensive and surpassed by none in the county for comfort and convenience.

With these advantages backed by some experience in the business and a determination to keep a good public house, he confidently expects a fair portion of public patronage.

Permanent boarders will find a quiet home and be satisfactorily accommodated at moderate prices.

Stroudsburg, Sept. 28, 1843.

Dissolution of Partnership.

The partnership heretofore existing between the subscribers, as publishers of this paper, was on the 17th of August last, dissolved by mutual consent. All persons having demands against the said firm, will present them to Theodore Schoch for settlement, and all who are indebted thereto are requested to make immediate payment to him, he being authorized to receive the same.

THEODORE SCHOCH,
THOMAS L. KOLLOCK.

P. S. The Jeffersonian Republican will continue to be published by Theodore Schoch and F. E. Sperry, who respectfully solicit a continuance of public patronage.

THEODORE SCHOCH,
F. E. SPERRY.

Spitting of Blood,

NIGHT SWEATS AND PAIN IN THE SIDE.

Jonathan Haworth, Esq. the well known Temperance Lecturer, was attacked with a cold from sleeping in damp sheets, in the winter of 1841. He neglected it at first, but soon found it assuming a somewhat alarming aspect, and then resorted to the various remedies usually recommended for lung complaints. When one thing failed he tried another, until he had exhausted his patience and the whole catalogue of remedies. His cough was almost incessant, so that he could get little or no sleep—attended with pain in his side, spitting of blood, night sweats, and all the usual symptoms of Consumption. While at Rome, (N. Y.) he felt that his end was nigh—that in that place he must end his journey of life. Provisionally, a lady who visited him advised a trial of Dr. Sherman's Cough Lozenges. He accordingly sent and got a box, and the first dose gave him more relief than all the other medicines he used before. By the time he had taken one small box, he was able to start for the city of New York, and in three weeks' time he was perfectly restored to his usual health. He often announces the fact to his hearers, when lecturing on Temperance, and says he owes his life to Dr. Sherman's Lozenges.

From the Cincinnati Daily Times, of Jan. 4th 1841.

Coughs—The variability of the weather this winter has caused an unusual number of persons to be afflicted by colds and coughs—scarcely a family has escaped; and with many, carelessness in attending to a cough, has laid the foundation for consumption. Our family has not escaped the general affliction, but owing to a remedy, used for the first time, they were speedily cured. Sherman's Cough Lozenges, which we were induced to try, proved what they are represented to be, and affected a cure in a few days of a troublesome cough, which appeared so deeply seated that seemed doubtful if it could be removed at all. We have not written the above as a puff, but as facts which the community should know. G. F. Thomas, No 147 Main street, is the sole agent in this city.

WORMS CAUSE DEATH.

Thousands upon thousands have gone down to graves from Marasmus, or a wasting away of the body, Epilepsy, Fits, St. Vitus' Dance, Locked Jaw, Apoplexy, Mania, Dropsy in the Head, Palsy, Consumption, Pleurisy, Dysentery, Convulsions, and many other supposed apparent diseases, and many have suffered for years and years, and have been doctored for some imaginary complaint without the least relief; and others are still suffering, when all the trouble arises from worms, and worms alone, which are entirely overlooked, and when the proper treatment would have saved their lives, and restored them to health. Every observant mother cannot but see and admit the truth; but still many physicians shut their eyes to that all-important cause of disease.

Persons of all ages and sexes, from the tender infant at the breast to old age, are all liable to be afflicted with worms. Many a person has suffered his whole life from them, and never suspected it. Different kinds of worms inhabit different parts of the body; but a long dissertation on their particular locality, origin, &c. is superfluous and unnecessary, so long as a proper, safe and certain remedy is at hand. That is all the public wants or cares for. The sale of over two millions of boxes of Sherman's Worm Lozenges, in less than five years, places their reputation far above all other worm medicines.

DeWitt, Brothers & Hagerty.

Have on hand 150,000 feet Hemlock and White and Yellow Pine Boards and Siding, at their Lumber establishment in Lord's Valley, 14 miles from Dingman's Bridge, which they will sell cheap for Grain, Straw, and Iron, and will not refuse to take current money or Park. We respectfully solicit a share of public patronage.

NOTICE.

Sherman's Cough Lozenges, and Clickener's Pills; For sale at this office.
