

Missouri "Pukes" and "Suckers,"

According to the census of 1840, there were, in Missouri, at that time, the astonishing number of sixty-seven thousand one hundred and ninety seven babies, or young specimens of humanity under the age of five years.

An exchange paper submits the following:-- If our Creator should fashion the female race, henceforth, after the style of dromedaries, how would the "fair sex" like it?

Rise of Rents.--The demand for stores in the burnt district, N. Y., is so great that rents have risen very much. A store which rented for \$1300, has been rented for \$2700.

It is stated that a girl in Pittsfield was struck dumb by the firing of a cannon. Since then a number of married men, says an exchange, have invited the artillery companies to come and discharge their pieces on their premises.

Duelling in Oregon.--It is said that on the 2d of November last, in one of the courts of law of the Territory of Oregon, one criminal was fined \$500 for sending a challenge, was rendered ineligible to any office of trust or profit, and was deprived of the privilege of voting at any election.

SUCCESS OF THE "SUGAR COATED INDIAN VEGETABLE PILLS."

If this is not believed, people would not believe though one rose from the dead to proclaim it. Cazenovia, July 28th, 1844.

I have used forty boxes of Brandreth's Pills, and half as many more of different kinds, but the whole have not benefited me so much as two boxes of the "Sugar Coated Indian Vegetable Pills." They seem to strike right at the foundation of my disease, which is of a bilious character.

IRA ALVORD. This old gentleman settled Cazenovia fifty years ago.

Dealers furnished at the New York College of Health, 179 Greenwich street, New York, and sold by Agents in Monroe Co.

CAUTION.--As a miserable imitation has been made, by the name of "Sugar Coated Pills," it is necessary to be sure that Dr. G. Benjamin Smith's signature is on every box. Price 25 cents. Aug. 14, 1845.

DIED. On the 15th instant, at his residence, near Fenner'sville, Monroe county, after an illness of a few weeks, HENRY FENNER, Esq., aged 66 years 6 months and 25 days.

DANIEL BOYS. Stroud sp., Oct. 16, 1845.

V. M. SWAYZE, Dentist, of Easton. Returns his thanks to the Ladies and Gentlemen of Stroudsburg and vicinity, for the liberal patronage he received from them on a former visit, and hopes by strict attention to business to merit their confidence hereafter.

Congressional Intelligencer.

The Proprietors of the National Intelligencer in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue during each session of Congress, a weekly sheet styled "The Congressional Intelligencer," to be devoted exclusively to the publication, as far as its limits will permit, of the Proceedings of both Houses of Congress, and Official Reports, and Documents connected therewith, including a complete official copy of all the Acts passed by Congress during the session.

To bring the price within the means of every man who can read, the charge for this paper will be for the first session of each Congress half a dollar.

The price of the "Congressional Intelligencer," to be issued on each Wednesday during the approaching Session of Congress, will therefore be one Dollar, paid in advance. To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session, would be needless.

When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price; that is to say, a remittance of Five Dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

Weekly National Intelligencer.

This paper, being made up of such portion of the contents of the National Intelligencer proper, as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at Two Dollars a year, payable in advance in all cases--account being opened with subscribers to the weekly paper.

To bring this paper yet more nearly within the reach of such as desire to take by the year a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any person or association at the following rates:

For Ten Dollars, six copies will be sent. For Twenty Dollars, thirteen copies; and for each sum of Ten dollars, above Twenty, eight copies will be forwarded; so that a remittance of Fifty Dollars will command thirty-seven copies.

Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement, (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.

PROSPECTUS

THE NEW-YORKER.

The NEW-YORKER, a Weekly Journal of Literature and General Intelligence, was established by the present Editor of THE NEW-YORK TRIBUNE in March, 1834, and discontinued, or rather merged, on the establishment of the Weekly Tribune, in September, 1841, after having been published just seven years and a half. Having now ample and able Literary assistance, and having recently extended and perfected our Mechanical arrangements, we propose to re-visit and re-issue it on and after the 1st of October, 1845, on a sheet slightly differing in size or character from the old New-Yorker, but at a much lower price.

- 1. Original Literature--Reviews, Poems, etc. 2. Select Literature--Tales, Sketches, extracts from new Books, etc. 3. Miscellany--Letters from Europe and different parts of our own Country, Statistics, Anecdotes, &c. 4. Hints on Domestic Economy--Agriculture, Inventions, Recipes, &c. 5. General Intelligence--Foreign and Domestic, including Political events, Proceedings of Congress, &c. &c.

This last department will be carefully prepared, and will be as ample and varied as that of any other Weekly paper whatever. The extensive correspondence and other facilities for obtaining information which we have been years engaged in concentrating on the Daily and Weekly Tribune, will enable us to present early and authentic accounts of all transpiring events through this our cheaper Weekly, from which Political essays and all matter of a partizan character will be carefully excluded. In time, The New-Yorker will be simply and truly a Family Newspaper, of moderate size and the lowest possible price, intended for such readers as either dislike Political discussion or prefer to obtain this portion of their intellectual aliment through the gazettes of their respective localities. We intend that no matter to which rational men of any Political, Religious or other persuasion can object shall appear in this paper, though a large portion of its contents will appear also in the Weekly Tribune.

THE NEW-YORKER will be published every Saturday morning, but printed and mailed on Thursday and Friday, so as to reach as many of its patrons as possible before the Sunday rest of the Mails. It will be printed on a sheet of fine white paper, identical in size and quality with that of the Daily and Semi-Weekly Tribune, (of which this is a specimen,) and afforded to the subscribers at the low price of ONE DOLLAR a year, payable always in advance.

Twelve copies will be sent a year for Ten Dollars, or Twenty-five copies for Twenty Dollars.--Subscriptions are respectfully solicited by GREELEY & McELRATH, 158 Nassau street, New-York. September 18, 1845.

Postmasters may remit subscriptions at our risk. Bills of all specie-paying banks are received at par.

IN PRESS

POPULAR LECTURES

ON SCIENCE AND ART;

DELIVERED IN THE Chief Cities and Towns in the U. S. BY DIONYSIUS LARDNER.

Doctor of Civil Law; Fellow of the Royal Societies of London and Edinburgh; Member of the Universities of Cambridge and Dublin; and formerly Professor of Natural Philosophy and Astronomy in the University of London, &c. &c.

The publishers announce that Dr. Lardner having brought to a close his public Lectures in this country, they have availed themselves of the opportunity thus presented to induce him to prepare for publication a complete and authentic edition of these Discourses. The general interest which for the last four years they have excited in every part of this country is universally felt and acknowledged. Probably no public lecturer ever continued for the same length of time to collect around him so numerous audiences. Nor has there been any exception to this favorable impression. Visit after visit has been made to all the chief cities, and on every succeeding occasion audiences amounting to thousands have assembled to hear again and again these lessons of useful knowledge.

The same simplicity of language, perspicuity of reasoning, and felicity of illustration, which rendered the oral discourses so universally acceptable will be preserved in the published report, which will indeed be, as nearly as possible, identical with the Lectures as they were delivered. The publishers feel that in the volume now proposed they will present to the American public a most agreeable offering, and an interesting and useful miscellany of general information, which will also afford that large class of persons who have attended the Lectures, an agreeable means of reviving the impressions from which they have already derived so much profit and pleasure.

The subjects which will be included will embrace a variety of topics in the Astronomical and Physical Sciences, and in their application to the arts of life. Among these the following may be mentioned: The Plurality of Worlds; The Sun; The Moon; The Planets; The Comets; The Solar System; The Atmosphere; Popular Fallacies; Artificial Illumination; Light; Sound; Electricity; Galvanism; The Bridge Water Lecture; Lunar Influences; Weather Almanacs; Babbage's Calculating Machinery; Electric and Magnetic Telegraphs; The Telescope and Microscope; Galileo; Copernicus; Lavoisier; Newton; The Stellar Universe; The Power of Steam; Steam Navigation; Aurora Borealis; Water Spouts; Thunder and Lightning; Theory of Dew; Heat; The Barometer; The Thermometer, &c. &c.

The work will appear in numbers, or parts, will be well printed on good type, and copiously illustrated with engravings on wood. It will be completed in ten or twelve numbers, and the entire volume will be published within six months. The price will be 25 cents for each number. Any person wishing to procure this valuable work may apply to our agents, or to any of the Booksellers or Country Merchants in any part of the United States. Postmasters remitting one dollar will be entitled to five numbers. Orders are respectfully solicited. GREELEY & McELRATH, Tribune Buildings.

DISSOLUTION.

The partnership heretofore existing between the subscribers, trading under the firm of Hayden & Schlaugh, has this day been dissolved by mutual consent. All persons having demands against said firm, will present them to Samuel Hayden, for settlement; and all who are indebted thereto, are requested to make immediate payment to him, he being authorized to receive the same. SAMUEL HAYDEN. WILLIAM SCHLAUGH.

N. B.--The business will be continued by the subscriber, in the new building in the rear of John Boys' Store, who respectfully solicits a continuance of public patronage. SAMUEL HAYDEN. March 6, 1845.
