### READY MADE WORK:

and will devotelhis best efforts to the accommodation of those who will favor him with their patronage.

With an experience in the business of no inconsiderable length--a determination to adhere strictly to his promises -- and a resolution never to make unreasonable charges, he flatters himself that he will receive a fair proportion of the custom of the Borough and neighborhood.

Country produce of all kinds, taken in payment for work, if brought in reasonable time. N. B -- Repairing done at the shortest notice. April 3, 1845 .-- 6m.

IN PRESS

## POPULAR LECTURES

### SCIENCE AND ART;

DELIVERED IN THE

Chief Cities and Towns in the U. S BY DIONYSIUS LARDNER.

Doctor of Civil Law, Fellow of the Royal Societies of Londor and Edinburgh, Member of the Universities of Cambridge and Dublin, and formerly Professor of Natural Phi-losophy and Astronomy in the University of London, &c. &c.

The publishers announce that Dr. Lardner hav ing brought to a close his public Lectures in this country, they have availed themselves of the opportunity thus presented to induce him to prepare connected with a for publication a complete and authentic edition of these Discourses. The general interest which for the last four years they have excited in every part of this country is universally felt and acknowledged. Probably no public lecturer ever continued for the same length of time to collect around him so numerous audiences. Nor has there been any exception to this favorable impression. Visit after visit has been made to all the chief cities, and on every succeeding occasion audiences amounting to thousands have assembled to hear again and again these lessons of useful knowledge. reasoning, and felicity of illustration, which rendered the oral discourses so universally acceptable will be preserved in the published report, which will indeed be, as nearly as possible, identical with the Lectures as they were delivered.

The publishers feel that in the volume now proposed they will present to the American public a will also afford that large class of persons who of reviving the impressions from which they have already derived so much profit and pleasure.

The subjects which will be included will embrace a variety of topics in the Astronomical and Physical Sciences, and in their application to the arts of life. Among these the following may be

The Plurality of Worlds; The Sun; The Moon The Planets: The Comets: The Solar System; I'he Bridge Water Lecture; Lunar Influences; retreat. Weather Almanacs; Babbage's Calculating Machinery; Electric and Magnetic Telegraphs; The Telescope and Microscope; Galileo; Copernicus; Lavoisier; Newton; The Stellar Universe; The Power of Steam; Steam Navigation; Aurora Borealis; Water Spouts; Thunder and Lightning; The-ory of Dew; Heat; The Barometer; The Thermom-

The work will appear in numbers, or parts, will be well printed on good type, and copiously illustrated with engravings on wood. It will be completed in ten or twelve numbers, and the entire, ions, and is prepared to execute all orders in his price will be 25 cents for each number.

work may apply to our agents, or to any of the will furnish as cheap as can be had elsewhere. or Country Merchants in any part of the United States. Postmasters remitting one dollar will be entitled to five numbers. Orders are respectfully solicited.
