The predominant design of the Editor is to add to the Republic of Letters a Weekly Journal, distinctly and decidedly national in tone and features. and at the same time, to avoid all connection with mere party politics. THE NATIONAL PRESS will, in brief, combine the striking and novel attractions of the newspaper, with the more abiding interest of the higher class of periodicals. It will be printed in the folio form, on large and superior paper, on a new and clear type, obtained expressly for the purpose, and will be, in its whole arrangement and details, a favorable specimen of the best typographical skill of the country. In addition to these, and as one of its most valuable peculiarities, it will be, in reference to the diversity of talent that will be employed upon it, the cheapest paper in the United States.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an alderman. The Hon B. B. Beardsley has saved the life of one of his children by them. The sale of over 2,000,000 of boxes has fully tested them. They are the only infallible worm destroying medicine known. What

family will be without them? Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges .-They saved the Rev. Richard De Forrest, the and customers. Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard Rogers, from the consumptive's grave. They cured in one day, the Rev. Mr. Dunbar, the Rev. Mr. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and Palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth, of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann street, Henry R. Goulding, 35 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. . Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

A fresh supply of these valuable medicines just received and for sale at the Republican office.

Fits, St Vitus' Dance, Locked Jaw, Apoplexy, Mania, Dropsy in the Hεad, Palsy, Consumption, Pleurisy, Dysentery, Convulsions, and many other supposed apparent diseases; and many have suffered for years and years, and have been doctored for some imaginary complaint without the least relief; and others are still suffering, when all the trouble arises from worms, and worms alone, which are entirely overlooked, and when the proper treatment would have saved their lives, and restored them to health. Every observant mother cannot but see and admit the truth; but still many physicians shut their eyes to that all-important cause of disease.

Persons of all ages and sexes, from the tender infant at the breast to old age, are all liable to be afflicted with worms. Many a person has suffered his whole life from them, and never suspected it. Different kinds of worms inhabit different parts of the body; but a long dissertation on their particular locality, origin, &c. is superfluous and unnecessary, so long as a proper, safe and certain remedy is at hand. That is all the public wants or cares for. Prospectus of the Farmer's Library, and Monthly Journal of Agriculture. JOHN S. SKINNER, Edi. tor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures. Commerce and Agriculture. The policy which strikes at the prosperity of the Many. facturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefitted with every advantage that science can confer and the most enlightened industry make available! Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit-one which should imply for its followers high mental cultivation and various attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature: and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interest. ing results of scientific investigation, than Agrimore enviable distinction than Liebig and John. ston, and Boussingault and Candolle? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the Farmer's Library and Monthly Journal of Agriculture, to be edited by John S. Skinner, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.
