

JOB PRINTING.
Having a general assortment of large, elegant, plain and ornamental Type, we are prepared to execute every description of

FANCY PRINTING.
Cards, Circulars, Bill Heads, Notes, Blank Receipts, JUSTICES, LEGAL AND OTHER BLANKS, PAMPHLETS, &c.
Printed with neatness and despatch, on reasonable terms AT THE OFFICE OF THE **Jeffersonian Republican.**

LOOK HERE.
We have just received for sale, at the Jeffersonian Office, a supply of "Fenner's Odeuriferous Compound for strengthening, softening and beautifying the Hair," also of "Fenner's Dentifrice for Preserving and Beautifying the Teeth, preventing Tooth Ache, &c." and also "Fenner's Pomade Divine," a preparation for curing chapped hands, bruises, &c. The articles are all of the first quality, and the high reputation which they have acquired in the city, and wherever else they have been used, cannot fail to recommend them to the general notice and patronage of the people of this place and vicinity. A number of our citizens have already tried them, and pronounce them excellent. We invite all, who are in want of any such articles, to give us a call, and we are sure they will not go away unsatisfied.
December 19, 1844.

THE NATIONAL PRESS;
A JOURNAL FOR HOME;
A Repository of Letters; a Record of Art; a Mirror of Passing Events.
To be Published every Saturday, at Two Dollars a Year, in Advance.

GEORGE P. MORRIS, Editor and Proprietor.
A number of the most eminent literary persons of this country, have proposed to the undersigned to publish, under the above title, a refined and valuable newspaper, upon a plan combining the highest resources of National Talent with the best elements of extensive popularity, and at so trifling an annual cost, as will place it within the convenient reach of all classes of society.
The control and management of this publication will form the exclusive and undivided attention of the Editor—whose long experience, ample facilities and practised care, will be exerted to select, unite and harmonize the various skill which is willing to seek development under his direction—The scope, design, and character of this paper will differ from those of any journals heretofore established, while it will comprehend all that they contain of importance to the community. The contents will be fitted to engage the attention of the man of business, and be a source of elegant instruction and entertainment to the domestic fire-side and family circle.
The leading characteristics of this paper will be as follows:
1. Early and Copious Intelligence of all interesting occurrences in Literature, Society, and Art, both at home and abroad.
2. A Foreign Correspondence of tried popularity and acknowledged merit has been engaged, and will be commenced with the first number.
3. Productions in fiction, romance and historical narrative; Sketches of the taste and manners of the time; Essays, after the manner of the Tatler and Spectator, on subjects connected with social interests; biographical notices and anecdotes, literary and professional; bon-mots, epigrams, and elegant trifles of every kind; the rumors of the day, and the comments that float upon the conversation of the hour—materials of this kind will form the ordinary staple of the work.
4. The department of Criticism will exhibit a discriminating and popular survey of the Literary Productions of the day. There will be a thorough and careful chronicle of every thing of value accomplished in Painting and Sculpture, and a candid and patriotic estimate of the National productions in comparison with other countries. Such exposition of the character and special excellencies of what is exhibited in Music will be constantly given as may lead to the more intelligent enjoyment of that most imaginative and delicate branch of the Fine Arts.
5. No original papers will appear, but those of obvious and decided merit; and the selections (which will commonly be from the foreign journals the least known in this country) will be made with the utmost attention and care.
The predominant design of the Editor is to add to the Republic of Letters a Weekly Journal, distinctly and decidedly national in tone and features, and at the same time, to avoid all connection with mere party politics. THE NATIONAL PRESS will, in brief, combine the striking and novel attractions of the newspaper, with the more abiding interest of the higher class of periodicals. It will be printed in the folio form, on large and superior paper, on a new and clear type, obtained expressly for the purpose, and will be, in its whole arrangement and details, a favorable specimen of the best typographical skill of the country. In addition to these, and as one of its most valuable peculiarities, it will be, in reference to the diversity of talent that will be employed upon it, the cheapest paper in the United States.

TERMS—Two dollars a year, or three copies for five dollars, invariably in advance.
It will be sent by mail to all parts of the United States, and to the British Provinces, done up in strong wrappers, with the utmost punctuality and despatch.
Postmasters are requested to act as agents, receive subscriptions, and make remittances.
The first number will be issued on Saturday, the fourteenth of February next.
That a proper estimate may be formed of the number of copies that will be required, subscribers would oblige the Editor by sending in their names as early as possible.

Newspaper and periodical agents and newsmen supplied on liberal terms. Burgess, Stringer & Co. 222 Broadway, wholesale agents.
Subscriptions, orders, remittances, and all communications, to be addressed, post-paid, to
GEORGE P. MORRIS, 222 Broadway,
corner of Ann st., New York.
With those Editors who copy the above Prospectus, the Editor will be most happy to exchange, and, at all times, as always heretofore, to reciprocate the liberalities and courtesies of the press.

BLANK MORTGAGES.
For sale at this office.
January 1, 1845.

CABINET MAKING.
The subscriber hereby informs the public that he still continues the
Cabinet Making Business

at his old stand in Elizabeth st., Stroudsburch Pa. where he will be happy to furnish any person with Cabinet Ware, at low prices. He intends to keep on hand, and make to order, all kinds of wares in his line of business.
Side-Boards, Bureaus, Centre, Breakfast, Dining and End Tables, Wash Stands, Bedsteads, Wardrobes, Book Cases, Secretaries, &c.
ALSO—COFFINS made to order at the shortest notice.
CHARLES MUSCH.
Stroudsburch, April 4, 1844.

FOUNDRY AND MACHINE SHOP,
in the rear of John Boys' Store, and would be thankful for any patronage extended towards him, and respectfully announces that he is prepared to execute all orders in his line of business in the best manner and with despatch. He will manufacture
MILL GEARING
for Flour and other Mills, together with Castings of every description turned and fitted up in the best possible manner. He feels confident in his ability to execute all orders with which he may be entrusted in a workman-like manner. Particular care will be taken to employ none but good workmen in the different departments of the establishment, and no pains will be spared by the proprietor to give general satisfaction to those who may favor him with orders for work.
BRASS CASTINGS,
such as Spindle Steps, Shaft and Gudgeon Boxes, &c. will be made to order. Old Copper and Brass taken in exchange at the highest price. Patterns made to order.
Threshing Machines & Horse Powers of the most approved construction, will be furnished to order at the shortest notice.
Wrought Iron Mill Work will be done on the most reasonable terms, and all kinds of smith work.
The best kind of Sled Shoes and polished Wagon Boxes will always be kept on hand.
Ploughs of the most approved plan will be kept on hand, and an excellent assortment of Plough Castings which he offers for sale to Plough makers.
SAMUEL HAYDEN.
Stroudsburch, March 13, 1845.

Congressional Intelligencer.
The Proprietors of the National Intelligencer in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue during each session of Congress, a weekly sheet styled "The Congressional Intelligencer," to be devoted exclusively to the publication, as far as its limits will permit, of the Proceedings of both Houses of Congress, and Official Reports, and Documents connected therewith, including a complete official copy of all the Acts passed by Congress during the session.
To bring the price within the means of every man who can read, the charge for this paper will be for the first session of each Congress half a dollar.
The price of the "Congressional Intelligencer," to be issued on each Wednesday during the approaching Session of Congress, will therefore be one Dollar, paid in advance. To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session, would be needless. The man who takes no such paper, ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of this posterity forever.
When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of Five Dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

Worms Kill Thousands.
CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges; he is now as fat as an alderman. The Hon B. B. Beardsley has saved the life of one of his children by them. The sale of over 2,000,000 of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?
Consumption, Coughs, Colic, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges.— They saved the Rev. Richard De Forrest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard Rogers, from the consumptive grave. They cured in one day, the Rev. Mr. Dunbar, the Rev. Mr. Handcock, Wm. H. Atree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.
Headache, Sea-sickness and Palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies.
January 1, 1845.

WHO DOUBTS
Let them call and satisfy themselves.
That they can get higher prices for all kinds of produce, and buy Lumber cheaper, at Milford than in any other market in this section of country. The subscribers have on hand and for sale at their yard in Milford

50,000 feet White Pine Boards, \$9 to \$11 00	
50,000 " Hemlock " 6 50 to 7 00	
40,000 " Pine Siding, " 6 00 to 12 50	
20,000 " Sap Yellow Pine " 8 00 to 9 00	
20,000 " Heart " " 11 00 to 12 00	
3,000 " Panel boards, " " "	
20,000 " Ceiling Lath, " " "	
120,000 " Pine Shingles, " 4 50 to 8 00	

ALSO—About
110,000 feet White and Yellow Pine Boards at Shoholy Falls Mills, for sale at prices to suit the times. Call and satisfy yourselves.
C. W. DEWITT & BROTHER.
Milford, Dec. 14, 1843.

STROUDSBURG IRON AND BRAS FOUNDRY.
The subscriber, having purchased the interest of Wm. Schlaugh in the above establishment, takes this method to inform the public generally, and Millers and Farmers especially, that he has removed to the large and convenient
Foundry and Machine Shop,
in the rear of John Boys' Store, and would be thankful for any patronage extended towards him, and respectfully announces that he is prepared to execute all orders in his line of business in the best manner and with despatch. He will manufacture
MILL GEARING
for Flour and other Mills, together with Castings of every description turned and fitted up in the best possible manner. He feels confident in his ability to execute all orders with which he may be entrusted in a workman-like manner. READY PAY.
DRY GOODS,
GROCERIES,
HARDWARE, CROCKERY,
BOOTS AND SHOES,

The subscribers having adopted the above method of doing business, feel confident that it will be beneficial to the interests of their customers, as well as their own. They have just received in addition to their former stock, a large assortment of Dry Goods selected with care. Also, Groceries, Hardware, &c. which they will sell at prices to suit the times.
All persons having unsettled accounts with the subscribers, will confer a favor by settling and paying up at their earliest convenience.
Grateful for the liberal patronage heretofore extended to us, we respectfully solicit its continuance, and pledge ourselves to use every exertion to merit the favors of their friends and customers.
C. W. DEWITT & BROTHER.
Milford, July 12, 1843.

Dissolution of Partnership.
The partnership heretofore existing between the subscribers, as publishers of this paper, was on the 17th of August last, dissolved by mutual consent. All persons having demands against the said firm, will present them to Theodore Schoch for settlement, and all who are indebted thereto are requested to make immediate payment to him, he being authorized to receive the same.
THEODORE SCHOCH,
THOMAS L. KOLLOCK.
P. S. The Jeffersonian Republican will continue to be published by Theodore Schoch and F. E. Sperring, who respectfully solicit a continuance of public patronage.
THEODORE SCHOCH,
F. E. SPERING.

Spitting of Blood,
NIGHT SWEATS AND PAIN IN THE SIDE.
Jonathan Haworth, Esq. the well known Temperance Lecturer, was attacked with a cold from sleeping in damp sheets, in the winter of 1841. He neglected it at first, but soon found it assuming a somewhat alarming aspect, and then resorted to the various remedies usually recommended for lung complaints. When one thing failed he tried another, until he had exhausted his patience and the whole catalogue of remedies. His cough was almost incessant, so that he could get little or no sleep—attended with pain in his side, spitting of blood, night sweats, and all the usual symptoms of Consumption. While at Rome, (N. Y.) he felt that his end was nigh—that in that place he must soon end his journey of life. Providentially, a lady who visited him advised a trial of Dr Sherman's Cough Lozenges. He accordingly sent and got a box, and the first dose gave him more relief than all the other medicines he used before. By the time he had taken one small box, he was able to start for the city of New York, and in three weeks time he was perfectly restored to his usual health. He often announces the fact to his hearers, when lecturing on Temperance, and says he owes his life to Dr Sherman's Lozenges.
From the Cincinnati Daily Times, of Jan. 4th 1844.
Coughs—The variableness of the weather this winter has caused an unusual number of persons to be afflicted by colds and coughs—scarcely a family has escaped; and with many, carelessness in attending to a cough, has laid the foundation for consumption. Our family has not escaped the general affliction, but owing to a remedy, used for the first time, they were speedily cured. Sherman's Cough Lozenges, which we were induced to try, proved what they are represented to be, and affected a cure in a few days of a troublesome cough, which appeared so deeply seated that seemed doubtful if it could be removed at all.— We have not written the above as a puff, but as facts which the community should know. G. F. Thomas, No 147 Main street, is the sole agent in this city.

WORMS CAUSE DEATH.
Thousands upon thousands have gone down to graves from Marasmus, or a wasting away of the body, Epilepsy, Fits, St Vitus' Dance, Locked Jaw, Apoplexy, Mania, Dropsy in the Head, Palsy, Consumption, Pleurisy, Dysentery, Convulsions, and many other supposed apparent diseases; and many have suffered for years and years, and have been doctored for some imaginary complaint without the least relief; and others are still suffering, when all the trouble arises from worms, and worms alone, which are entirely overlooked, and when the proper treatment would have saved their lives, and restored them to health. Every observant mother cannot but see and admit the truth; but still many physicians shut their eyes to that all-important cause of disease.
Persons of all ages and sexes, from the tender infant at the breast to old age, are all liable to be afflicted with worms. Many a person has suffered his whole life from them, and never suspected it. Different kinds of worms inhabit different parts of the body; but a long dissertation on their particular locality, origin, &c. is superfluous and unnecessary, so long as a proper, safe and certain remedy is at hand. That is all the public wants or cares for. The sale of over two millions of boxes of Sherman's Worm Lozenges, in less than five years, places their reputation far above all other worm medicines.

FARMERS' LIBRARY.
Prospectus of the Farmer's Library, and Monthly Journal of Agriculture. JOHN S. SKINNER, Editor.
None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefited with every advantage that science can confer and the most enlightened industry make available? Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply to its followers high mental cultivation and various attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture! Who, among modern Literati, enjoy more enviable distinction than Liebig and Johnston, and Boussingault and Candolle? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the **Farmer's Library and Monthly Journal of Agriculture**, to be edited by JOHN S. SKINNER, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.
Far from being designed or in any way calculated to affect injuriously the circulation of existing journals of less price and wider circulation, they may supply the Farmer's table with lighter and more agreeable refreshment, while in the Library he may find more solid as it will be more costly food.
Each number will consist of two distinct parts, viz. —
1. *The Farmer's Library*, in which will be published continuously the best *Standard Works* on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plough. In the *Farmer's Library* they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginning in Farming, owing to differences of Soil, Climate, &c. The works published in the Library will form a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology, and Mechanics, have yielded and may yield to lighten the labors and swell the harvests of the intelligent husbandman. The work will be so arranged that the *Farmer's Library* may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound separately.
2. *The Monthly Journal of Agriculture* will likewise contain about 50 pages per month, and will comprise, 1. *Foreign*: Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the Library, &c. &c. 2. *American*: Editorials, communications and selected accounts of experiments, improved processes, discoveries in Agriculture, new implements, &c. In this department alone will occur resembling any American work ever published. It can hardly be necessary to add that no Political, Economic, or other controverted doctrine, will be inculcated through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each.
Each number of the Library will be illustrated by numerous engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country, the fault shall not rest with the publishers, and we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical after the 1st of July—say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post Office. As Postmasters are permitted to frank money letters to publishers until that period, and as we wish to print only so many copies as may be wanted, we respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience. Address
GREELEY & McELRATH,
Tribune Office,
Corner of Spruce-street, opposite the City Hall,
New York, July 31, 1845.
