LOOK HERE.
We have just received for sale, at the Jeffersonian Office, a supply of "Fenner's Oederiferous Compound for strengthening, softening and beautifying the Hair," also of "Fenner's Dentifrice for Preserving and Beautifying the Teeth, preventing Tooth Ache, &c." and also "Fenner's Pomade Divine," a preparation for curing chapped hands, bruises, &c. The articles are all of the first quality, and the high reputation which they have acquired in the cities, and wherever else they have been used, cannot fail to recommend them to the general notice and patronage of the people of this place and vicinity. A number of our citizens have already tried them, and pronounce them excellent. We invite all, who are in want of any such articles, to give us a call, and we are sure they will not go away unsatisfied.

THE NATIONAL PRESS;
A JOURNAL FOR HOME;
A Repository of Letters; a Record of Art; a Mirror of Passing Events.
To be Published every Saturday, at Two Dollars a Year, in Advance.

GEORGE P. MORRIS, Editor and Proprietor.
A number of the most eminent literary persons of this country, have proposed to the undersigned to publish, under the above title, a refined and valuable newspaper, upon a plan combining the highest resources of National Talent with the best elements of extensive popularity, and at so trifling an annual cost, as will place it within the convenient reach of all classes of society.

The control and management of this publication will form the exclusive and undivided attention of the Editor—whose long experience, ample facilities and practised care, will be exerted to select, unite and harmonize the various skill which is willing to seek development under his direction—The scope, design, and character of this paper will differ from those of any journals heretofore established, while it will comprehend all that they contain of importance to the community. The contents will be fitted to engage the attention of the man of business, and be a source of elegant instruction and entertainment to the domestic fire-side and family circle.

The leading characteristics of this paper will be as follows:

1. Early and Copious Intelligence of all interesting occurrences in Literature, Society, and Art, both at home and abroad.
2. A Foreign Correspondence of tried popularity and acknowledged merit has been engaged, and will be commenced with the first number.
3. Productions in fiction, romance and historical narrative: Sketches of the taste and manners of the time; Essays, after the manner of the Tatler and Spectator, on subjects connected with social interests; biographical notices and anecdotes, literary and professional; bon-mots, epigrams, and elegant trifles of every kind; the rumors of the day, and the comments that float upon the conversation of the hour—materials of this kind will form the ordinary staple of the work.
4. The department of Criticism will exhibit a discriminating and popular survey of the Literary Productions of the day. There will be a thorough and careful chronicle of every thing of value accomplished in Painting and Sculpture, and a candid and patriotic estimate of the National productions in comparison with other countries. Such exposition of the character and special excellencies of what is exhibited in Music will be constantly given as may lead to the more intelligent enjoyment of that most imaginative and delicate branch of the Fine Arts.
5. No original papers will appear, but those of obvious and decided merit; and the selections (which will commonly be from the foreign journals the least known in this country) will be made with the utmost attention and care.

The predominant design of the Editor is to add to the Republic of Letters a Weekly Journal, distinctly and decidedly national in tone and features, and at the same time, to avoid all connection with mere party politics. THE NATIONAL PRESS will, in brief, combine the striking and novel attractions of the newspaper, with the more abiding interest of the higher class of periodicals. It will be printed in the folio form, on large and superior paper, on a new and clear type, obtained expressly for the purpose, and will be, in its whole arrangement and details, a favorable specimen of the best typographical skill of the country. In addition to these, and as one of its most valuable peculiarities, it will be, in reference to the diversity of talent that will be employed upon it, the cheapest paper in the United States.

Terms—Two dollars a year, or three copies for five dollars, invariably in advance.
It will be sent by mail to all parts of the United States, and to the British Provinces, done up in strong wrappers, with the utmost punctuality and despatch.

Postmasters are requested to act as agents, receive subscriptions, and make remittances.

The first number will be issued on Saturday, the fourth of February next.

That a proper estimate may be formed of the number of copies that will be required, subscribers would oblige the Editor by sending in their names at as early a period as possible.

Newspaper and periodical agents and newsmen supplied on liberal terms. Burgess, Stringer & Co. 222 Broadway, wholesale agents.

Subscriptions, orders, remittances, and all communications, to be addressed, post-paid, to
GEORGE P. MORRIS, 222 Broadway,
corner of Ann st., New York.

With those Editors who copy the above Prospectus, the Editor will be most happy to exchange, and, at all times, as always heretofore, to reciprocate the liberalities and courtesies of the press.

PURIFY THE BLOOD.
MOFFAT'S
VEGETABLE LIFE PILLS
AND
PHENIX BITTERS

The high and envied celebrity which these pre-eminent Medicines have acquired for their invulnerable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing not only unnecessary, but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous.

IN ALL CASES
OF ASTHMA, ACUTE AND CHRONIC RHEUMATISM, AFFECTIONS OF THE BLADDER AND KIDNEYS, BILIOUS FEVERS & LIVER COMPLAINTS.— In the south and west, where these diseases prevail, they will be found invaluable. Plaster, farmers, and others, who once use these Medicines, will never afterwards be without them.

BILIOUS CHOLIC, AND SEROUS LOOSENESS, BILES, COSTIVENESS, COLIC & COUGHS, CHOLIC, CONSUMPTION. Used with great success in this disease.

CORRUPT HUMORS, DROPSIES, DYSENTERY. No person with this distressing disease, should delay using these medicines immediately.

ERUPTIONS OF THE SKIN, ERYSIPELAS, FLATULENCY.

FEVER AND AGUE. For this scourge of the western country these medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

FULNESS OF COMPLEXION, GENERAL DEBILITY, GOUT, GIDDINESS, GRAVEL, HEADACHES, OF every kind, INWARD FEVER, INFLAMMATORY RHEUMATISM, IMPURE BLOOD, JAUNDICE, LOSS OF APETITE.

LIVER COMPLAINTS, LEPROSY, LOOSENESS.

NERVOUS DISEASES.— Never fails to eradicate entirely all the effects of Mercury, and is never more than the most powerful preparation of Sarsaparilla.

NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, ORGANIC AFFECTIONS, PALPITATION OF THE HEART, PAINTER'S CHOLIC, PILES. The original proprietor of these medicines was cured of Piles of 35 years standing by the use of these Life Medicines alone.

PAINS in the head, side, back, limbs, joints and organs.

RHEUMATISM. Those afflicted with this terrible disease, will be sure of relief by the Life Medicines.

RUSH OF BLOOD TO THE HEAD, SCURVY, SALT-REEUM, SWELLINGS, SCROFULA, OR KING'S EVIL, in its worst form. ULCERS, of every description, are effectually expelled by these Medicines. Parents will do well to administer them whenever their existence is suspected. Relief will be certain.

THE LIFE PILLS AND PHENIX BITTERS
PURIFY THE BLOOD,
And thus remove all disease from the system.
A single trial will place the LIFE PILLS and PHENIX BITTERS beyond the reach of competition in the estimation of every patient.

The genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions, &c., on which is a drawing of Broadway from Wall street to our Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with white wrappers can be assured that they are genuine. Be careful, and do not buy those with yellow wrappers; but if you do, be satisfied that they come direct from us, or don't touch them.

Worms Kill Thousands.
CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges; he is now as fat as an alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over 2,000,000 of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them!

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges.—They saved the Rev. Richard De Forrest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard Rogers, from the consumptive's grave. They cured in one day, the Rev. Mr. Dunbar, the Rev. Mr. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and Palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies.

SAMUEL HAYDEN.
Stroudsburg, March 13, 1845.

Congressional Intelligencer.
The Proprietors of the National Intelligencer in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue during each session of Congress, a weekly sheet styled "The Congressional Intelligencer," to be devoted exclusively to the publication, as far as its limits will permit, of the Proceedings of both Houses of Congress, and Official Reports, and Documents connected therewith, including a complete official copy of all the Acts passed by Congress during the session.

To bring the price within the means of every man who can read, the charge for this paper will be for the first session of each Congress half a dollar.

The price of the "Congressional Intelligencer," to be issued on each Wednesday during the approaching Session of Congress, will therefore be one Dollar, paid in advance. To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session, would be needless. The man who takes no such paper, ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of this potentia forever.

When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of Five Dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

Weekly National Intelligencer.
This paper, being made up of such portion of the contents of the National Intelligencer proper, as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at Two Dollars a year, payable in advance in all cases—account being opened with subscribers to the weekly paper.

To bring this paper yet more nearly within the reach of such as desire to take by the year a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any person or association at the following rates:

- For Ten Dollars, six copies will be sent.
- For Twenty Dollars, thirteen copies; and
- For each sum of Ten dollars, above Twenty, eight copies will be forwarded: so that a remittance of Fifty Dollars will command thirty-seven copies.

Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement, (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.

FARMERS' LIBRARY.
Prospectus of the Farmer's Library, and Monthly Journal of Agriculture. JOHN S. SKINNER, Editor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefited with every advantage that science can confer and the most enlightened industry make available? Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply for its followers high mental cultivation and various attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture! Who, among modern Literati, enjoy more enviable distinction than Liebig and Johnston, and Boussingault and Candolle? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the *Farmer's Library and Monthly Journal of Agriculture*, to be edited by JOHN S. SKINNER, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.

Far from being designed or in any way calculated to affect injuriously the circulation of existing journals of less price and wider circulation, they may supply the Farmer's table with lighter and more agreeable refreshment, while in the Library he may find more solid as it will be more costly food.

Each number will consist of two distinct parts, viz:—

1. *The Farmers' Library*, in which will be published continuously the best *Standard Works* on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plough. In the *Farmer's Library* they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginning in Farming, owing to differences of Soil, Climate, &c. The works published in the *Library* will form a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology, and Mechanics, have yielded and may yield to lighten the labors and swell the harvests of the intelligent husbandman. The work will be so arranged that the *Farmer's Library* may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound separately.
2. *The Monthly Journal of Agriculture* will likewise contain about 50 pages per month, and will comprise, 1. *Foreign*: Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the *Library*, &c. &c. 2. *American*: Editorials, communicated and selected accounts of experiments, improved processes, discoveries in Agriculture, new implements, &c. In this department alone will our resemble any American work ever yet published. It can hardly be necessary to add that no Political, Economic, or other controverted doctrine, will be inculcated through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each.

Each number of the *Library* will be illustrated by numerous engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country, the fault shall not rest with the publishers, and we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical after the 1st of July—say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post Office. As Postmasters are permitted to frank money letters to publishers until that period, and as we wish to print only so many copies as may be wanted, we respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience.
