We have just received for sale, at the Jefferonian Office, a supply of " Fenner's Oderiferous Compound for strengthening, softening and beautifying the Hair," also of " Fenner's Dentrifice for Preserving and Brautifying the Teeth, preventing Tooth Ache, &c." and also "Fenner's Pomade Divine," a preparation for curing chapped hands, bruses, &c. The articles are all of the first quality, and the high reputation which they have acquired in the cities, and wherever else they have been used, cannot fail to recommend them to the general notice and patronage of the people of this place and vicinity. A number of our citizens have already tried them, and pronounce them excellent. We invite all, who are in want of any such articles, to give us a call, and we are sure they will not go away unsatisfied.

December 19, 1844.

Folger's Olosaonian. OR ALL-HEALING BALSAM. Its Course is Onward.

So great has been the demand for Folger's Olosaonian, or All-Healing Balsam, and it has given such general satisfaction to those wno have used it and become acquainted with its virtues, that it now stands pre-eminent as a Remedy in DIS-EASES of the LUNGS, and the testimony which has been given by different persons who have been cured by it, is altogether voluntary on their may apply for it without delay.

Read the following letter received from the Rev. Mr. Shimeall, Pastor of St. Jude's Episcopal Free Church. Mr. S. has not used the medicine himself, but has witnessed its effects in several very trying cases of disease. The letter will show his opinion of its virtues.

Dear Sir,-Believing it to be but an act of common humanity to those suffering under the various diseases of Coughs, Colds, Consumptions, Hoarseness, Asthma, &c , to point them to a safe, speedy and radical remedy, 1 take pleasure in bearing my testimony to your invaluable medicine called Olosaoman, or All-healing Balsam. Of its efficacy I can speak first from my own experience. Being subject from exposure more or less to the vicissitudes of our climate, to frequent attacks of Influenza, Hoarseness, &c., I have always found it to afford almost instantaneous, and always by perseverance in its use, effectual relief. To a particular friend of mine, suffering severely under Asthma, and who had despaired of obtaining relief from any human source, upon my recommendation was induced to give the Olosaomian a trial, and he pronounced the effect produced upon him a perfect charm, affording him immediate, and almost incredible relief. In another instance I recommended it to a female friend, far advanced in Consumption. After the use of the first bottle, her Cough was entirely removed, and her appetite and strength restored to such a degree as to astonish all who saw her. With a long cherished and firmly established prejudice against the thousand and one specifics put forth in these days, as sovereign panaceas for all diseases. I assure you that nothing short of my firm conviction of the claims of your medicine to an origin so respectable, and to the effects of it as herein certified, both by my own experience and observation, I could not have been induced thus to come forward as a witness in its behalf.

I have the honor to be sir, respectfully yours, R. C. SHIMEALL.

HAVE YOU A COUGH

which is troublesome and has not yielded to any of the remedies which you have used? Is it attended with pain in the side, shortness of breath, and night sweats.

Do you raise Blood

when you Cough and find your strength gradually failing ! You will find that these symptoms if not properly attended to, will terminate in Consumption and Death. Are you troubled with that distressing complaint

Asthma

which deprives you of your rest at night, and renders life burdensome.

Here is the Remedy.

Remember the name, and place where it is to be obtained, and do not be put off with any other. It has produced a cure in as desperate cases as yours may appear to be, and doubtless will put to flight in a speedy manner those distressing symptoms which fill your minds with gloomy forebo-

dings of the future. Its Healing Properties do not deceive. The short dry Cough is quickly overcome, and easy and healthy expectoration takes its place. Spitting of Blood is immediately checked. Night Sweats, with pain in the Side and Chest, debility and difficulty of breathing, vield in a short time. Asthma, with all its dread-

and Lungs, give way before this Remedy, when all other means have failed. Persons may attempt to deceive you with some other Remedy, pronouncing it to be equally as

ful accompaniments is at once relieved. Bron-

chitis, and in fact all the diseases of the Throat

good, but remember life is at stake, therefore Be not Deceived.

The only place in the City of New York, where Folger's OLOSAONIAN, or ALL-HEALING BALSAM is sold, is at 106 Nassau street, one door above Ann street.

FARMERS' LIBRARY Prospectus of the Farmer's Library, and Monthly

Journal of Agriculture. John S. SKINNER, Editor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefitted with every advantage that science can confer and the most enlightened industry make available! Yet it has not been until comparatively a late period in Europe, and still later in America, that the pullic mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit-one which should imply for its attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been from or more interesting results of scientific investigation, than Agrito the able journals that encourage it, keeps pace with its progress in Europe. The more fully to Skinner, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.
