A number of our citizens have already tried them, and pronounce them excellent. We invite all, who are in want of any such articles, to give us shortest notice. a call, and we are sure they will not go away unsatisfied. December 19, 1844.

Folger's Olosaonian, OR ALL-HEALING BALSAM. Its Course is Onward.

So great has been the demand for Folger's Olosuch general satisfaction to those who have used it and become acquainted with its virtues, that it now stands pre-eminent as a Remedy in DIS-EASES of the LUNGS, and the testimony which has been given by different persons who have been cured by it, is altogether voluntary on their part. They have given it in the hope that all who may find themselves in need of this great remedy may apply for it without delay.

Read the following letter received from the Rev. Mr. Shimeall, Pastor of St. Jude's Episcopal Free Church. Mr. S. has not used the medicine himself, but has witnessed its effects in several very trying cases of disease. The letter will show his opinion of its virtues.

Dear Sir,-Believing it to be but an act of common humanity to those suffering under the various diseases of Coughs, Colds, Consumptions, Hoarseness, Asthma, &c , to point them to a safe, speedy and radical remedy, 1 take pleasure in United States discounted at the lowest rates. bearing my testimony to your invaluable medi- Drafts, Notes and Bills collected on the most cine called Olosaonian, or All-healing Balsam. favorable terms. FARMERS' LIBRARY.

Prospectus of the Farmer's Library, and Monthly Journal of Agriculture. JOHN S. SKINNER, Editor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once corsumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefitted with every advantage that science can confer and the most enlightened industry make available 1 Yet generally, and Millers and Farmers especial- it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and in the rear of John Boys' Store, and would be dignified pursuit-one which should imply for its a business, which, like the learned professions, has its own principles and will have its literature ; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agrito the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided ut alojoialan uaaq seq requ puis and Jo Built will be spared by the proprietor to give gen- thereafter, the Farmer's Library and Monthly Aue of lotiadus 181 pue 'mon juarally fiatina eral satisfaction to the who may favor him Journal of Agriculture, to be edited by Jons S. SKINNER, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.

Far from being designed or in any way calculated to affect injuriously the circulation of existper and Brass taken in exchange at the highest ing journals of less price and wider circulation, they may supply the Farmer's table with lighter and more agreeable refreshment, while in the Library he may may find more solid as it will be

Each number will consist of two distinct parts, viz. :-

I. The Farmers' Library, in which will be published continuously the best Standard Works on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European kept on hand, and an excellent assortment of treatises and researches in Agriculture, costing Plough Castings which he offers for sale to ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plougi In the Farmers' Library they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginning in Farming, owing to differen-The Proprietors of the National Intelligencer ces of Soil, Climate, &c.
