 Milford, July 12, 1843.

PURIFY THE BLOOD.
MOFFAT'S
VEGETABLE LIFE PILLS
AND
PHENIX BITTERS

The high and envied celebrity which these pre-eminent Medicines have acquired for their invariable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing out only unnecessary, but unworthy of them. They are known by their fruits; their good works testify for them, as they strive not by the faith of the credulous.

IN ALL CASES
 OF ASTHMA, ACUTE and CHRONIC RHEUMATISM, AFFECTIONS OF THE BLADDER and KIDNEYS, BILIOUS FEVERS & LIVER COMPLAINTS.—In the south and west, where these diseases prevail, they will be found invaluable. Planters, farmers, and others, who once use these Medicines, will never afterwards be without them.

GENERAL DIRECTION.
 GOIT, GIDDINESS, GRAVEL, HEADACHES, of every kind, INWARD FEVER, INFLAMMATORY RHEUMATISM, IMPURE BLOOD, JAUNDICE, LOSS OF APPETITE.

LIVER COMPLAINTS.
 MERCURIAL DISEASES.—Never fails to eradicate entirely all the effects of Mercury, and to restore the system to its original purity. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, ORGANIC AFFECTIONS, PALPITATION OF THE HEART, PAINTER'S CHOLIC, PILES. The original proprietor of these Medicines was cured of Piles of 23 years standing by the use of these Life Medicines alone.

PAINS in the head, side, back, limbs, joints and organs.
RHEUMATISM. These affections, with this terrible disease, will be cured by the Life Medicines.

RUSH OF BLOOD TO THE HEAD, SCURVY, SALTREUM, SWELLINGS.
SCROFULA, or KING'S EVIL, in its worst forms. **ULCERS,** of every description.

WORMS, of all kinds, are effectually expelled by these Medicines. Parents will do well to administer them whenever their existence is suspected. Relief will be certain.

THE LIFE PILLS AND PHENIX BITTERS
PURIFY THE BLOOD,
 And thus remove all disease from the system.

A single trial will place the LIFE PILLS and PHENIX BITTERS beyond the reach of competition in the estimation of every patient.

The genuine of these Medicines are now put up in white wrappers and labels, together with a pamphlet, entitled "Moffat's Good Samaritan," containing the directions, &c. on which is a drawing of Broadway from Wall street to our Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with white wrappers can be assured that they are genuine. Be careful, and do not buy those with yellow wrappers; but if you do, be assured that they come direct from us, or from those to whom.

Folger's Olosaonian.
OR ALL-HEALING BALSAM.
Its Course is Onward.

So great has been the demand for Folger's Olosaonian, or All-Healing Balsam, and it has given such general satisfaction to those who have used it and become acquainted with its virtues, that it now stands pre-eminently as a Remedy in DISEASES of the LUNGS, and the testimony which has been given by different persons who have been cured by it, is altogether voluntary on their part. They have given it in the hope that all who may find themselves in need of this great remedy may apply for it without delay.

Read the following letter received from the Rev. Mr. Shimeall, Pastor of St. Jude's Episcopal Free Church. Mr. S. has not used the medicine himself, but has witnessed its effects in several very trying cases of disease. The letter will show his opinion of its virtues.

Dear Sir,—Believing it to be but an act of common humanity to those suffering under the various diseases of Coughs, Colds, Consumptions, Hoarseness, Asthma, &c. to point them to a safe, speedy and radical remedy, I take pleasure in bearing my testimony to your invaluable medicine called *Olosaonian*, or *All-healing Balsam*. Of its efficacy I can speak first from my own experience. Being subject from exposure more or less to the vicissitudes of our climate, to frequent attacks of Influenza, Hoarseness, &c., I have always found it to afford almost instantaneous, and always by perseverance in its use, effectual relief. To a particular friend of mine, suffering severely under *Asthma*, and who had despaired of obtaining relief from any human source, upon my recommendation was induced to give the *Olosaonian* a trial, and he pronounced the effect produced upon him a perfect charm, affording him immediate, and almost incredible relief. In another instance I recommended it to a female friend, far advanced in *Consumption*. After the use of the first bottle, her Cough was entirely removed, and her appetite and strength restored to such a degree as to astonish all who saw her. With a long cherished and firmly established prejudice against the thousand and one specifics put forth in these days, as sovereign panaceas for all diseases, I assure you that nothing short of my firm conviction of the claims of your medicine to an origin so respectable, and to the effects of it as herein certified, both by my own experience and observation, I could not have been induced thus to come forward as a witness in its behalf.

I have the honor to be, Sir, respectfully yours,
R. C. SHIMEALL.

HAVE YOU A COUGH
 which is troublesome and has not yielded to any of the remedies which you have used? Is it attended with pain in the side, shortness of breath, and night sweats.

Do you raise Blood
 when you Cough and find your strength gradually failing? You will find that these symptoms if not properly attended to, will terminate in *Consumption* and *Death*. Are you troubled with that distressing complaint

Asthma
 which deprives you of your rest at night, and renders life burdensome.

Here is the Remedy.
 Remember the name, and place where it is to be obtained, and do not be put off with any other. It has produced a cure in as desperate cases as yours may appear to be, and doubtless will put to flight in a speedy manner those distressing symptoms which fill your minds with gloomy forebodings of the future.

Its Healing Properties
 do not deceive. The short dry Cough is quickly overcome, and easy and healthy expectoration takes its place. Spitting of Blood is immediately checked. *Night Sweats*, with pain in the Side and Chest, debility and difficulty of breathing, yield in a short time. Asthma, with all its dreadful accompaniments is at once relieved. *Bronchitis*, and in fact all the diseases of the Throat and Lungs, give way before this Remedy, when all other means have failed.

Persons may attempt to deceive you with some other Remedy, pronouncing it to be equally as good, but remember life is at stake, therefore

Be not Deceived.
 The only place in the City of New York, where *Folger's OLOSANOIAN*, or *ALL-HEALING BALSAM* is sold, is at 106 Nassau street, one door above Ann street.

C. W. DEWITT & BROTHER.
 Milford, Dec. 14, 1843.

Worms Kill Thousands.
 CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowersy, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over 2,000,000 of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them!

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges.—They saved the Rev. Richard De Forrest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard Rogers, from the consumptive's grave. They cured in one day, the Rev. Mr. Dunbar, the Rev. Mr. Hancock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the season of any known remedy.

Headache, Sea-sickness and Palpitation, relieved in five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies.

January 1, 1846

Wrought Iron Mill Work
 will be done on the most reasonable terms, and all kinds of smith work.

The best kind of Sled Shoes and polished Wagon Boxes will always be kept on hand.

Ploughs of the most approved plan will be kept on hand, and an excellent assortment of Plough Castings which he offers for sale to Plough makers.

SAMUEL HAYDEN.
 Stroudsburg, March 13, 1845.

Congressional Intelligencer.
 The Proprietors of the National Intelligencer in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue during each session of Congress, a weekly sheet styled "The Congressional Intelligencer," to be devoted exclusively to the publication, as far as its limits will permit, of the Proceedings of both Houses of Congress, and Official Reports, and Documents connected therewith, including a complete official copy of all the Acts passed by Congress during the session.

To bring the price within the means of every man who can read, the charge for this paper will be for the first session of each Congress half a dollar.

The price of the "Congressional Intelligencer," to be issued on each Wednesday during the approaching Session of Congress, will therefore be one Dollar, paid in advance. To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session, would be needless. The man who takes no such paper, ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of this potery forever.

When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of Five Dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

Weekly National Intelligencer.
 This paper, being made up of such portion of the contents of the National Intelligencer proper, as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at Two Dollars a year, payable in advance in all cases—account being opened with subscribers to the weekly paper.

To bring this paper yet more nearly within the reach of such as desire to take by the year a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any person or association at the following rates:

- For Ten Dollars, six copies will be sent.
- For Twenty Dollars, thirteen copies; and
- For each sum of Ten dollars, above Twenty, eight copies will be forwarded: so that a remittance of Fifty Dollars will command thirty-seven copies.

Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement, (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.

FARMERS' LIBRARY.
 Prospectus of the Farmer's Library, and Monthly Journal of Agriculture. JOHN S. SKINNER, Editor. None can well have studied the true sources of National welfare, without perceiving the natural and friendly connexion existing between Manufactures, Commerce and Agriculture. The policy which strikes at the prosperity of the Manufacturing consumer, must damage the Agricultural producer, and neither can be injuriously affected without detriment to the Merchant, at once consumer and carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistence, should be encouraged and benefited with every advantage that science can confer and the most enlightened industry make available! Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply for its followers high mental cultivation and various attainments. Happily, however, educated young men are now betaking themselves to Farming, as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture! Who, among modern Literati, enjoy more enviable distinction than *Liebig* and *Johnston*, and *Bonnington* and *Candolle*? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the *Farmer's Library* and *Monthly Journal of Agriculture*, to be edited by JOHN S. SKINNER, late Assistant Postmaster General and founder of the first Agricultural periodical published in this country.

Far from being designed or in any way calculated to affect injuriously the circulation of existing journals of less price and wider circulation, they may supply the Farmer's table with lighter and more agreeable refreshment, while in the Library he may find more solid as it will be more costly food.

Each number will consist of two distinct parts, viz.:

1. *The Farmer's Library*, in which will be published continuously the best Standard Works on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plough. In the *Farmer's Library* they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginning in Farming, owing to differences of Soil, Climate, &c. The works published in the Library will form a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology, and Mechanics, have yielded and may yield to lighten the labors and swell the harvests of the intelligent husbandman. The work will be so arranged that the Farmer's Library may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound separately.
2. *The Monthly Journal of Agriculture* will likewise contain about 50 pages per month, and will comprise, 1. *Foreign*: Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the Library, &c. &c. 2. *American*: Editorials, communicated and selected accounts of experiments, improved processes, discoveries in Agriculture, new implements, &c. In this department alone will our resemble any American work ever yet published. It can hardly be necessary to add that no Political, Economic, or other controverted doctrine, will be inculcated through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each.

Each number of the Library will be illustrated by numerous engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country, the fault shall not rest with the publishers, and we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical after the 1st of July—say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post Office. As Postmasters are permitted to frank money letters to subscribers until that period, and as we wish to print only so many copies as may be wanted, we respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience. Address

GREELEY & McELRATH,
 Tribune Office,
 Corner of Spruce-street, opposite the City Hall,
 New York, July 31, 1845.
