It is Written

In the Book of Nature and Common Sense, that the natural vegetable productions of every country are, if properly applied, are amply sufficient for the cure of every malady incident to each peculiar climate.

Wright's Indian Vegetable Pills,

of the North American College of Health, are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from *foreign Drugs*, however well they may be compounded; and as they are founded upon the principle that the human body is in truth

Subject to but One Disease,

viz: corrupt humors, and that said medicine cures this disease on

Natural Principles

by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters; in like manner if we wish to restore the body to health, we must cleanse it of impurity.

Wright's Indian Vegetable Pills

will be found one of the best, if not *the very best medicine in the world for carrying out this*

Grand Purifying Principle,

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and *natural manner*; and while they every day

Give Ease and Pleasure,

disease of every name is rapidly driven from the body.
