

morning of the 27th ult.—This is stated in a letter dated the 26th

The best estimates set down the number of troops at Vera Cruz at 3500—some say 3000. The garrison of San Juan de Ulloa does not exceed 1100 troops. Some accounts represent there are two months' provisions but we have a letter from a gentleman who has access to the most respectable sources of information, but whom we need not name, in which he assures us there is not a barrel of salted provisions in the castle, and the troops both of the castle and city, are dependent upon the back country for their daily supplies of food. They have been for some time in continual apprehension of an attack on Vera Cruz, and the inhabitants appear to have as little doubt as to the issue as we have. For some reason or other they were expecting an attack on the 5th of this month. Preparatory to it, orders had been issued for the removal into the interior of the cargoes of three or four vessels which had evaded the blockade of Vera Cruz and got into port. The Congress of the State of Vera Cruz had issued a manifesto calling on the people at all hazards to resist the invasion of the Americans. During the month of January the approaches to Vera Cruz on the road to the interior were strengthened by a battery of heavy guns. Through the same well informed gentleman from whom we learn this fact, we are confirmed in our belief expressed above as to the destitution of the troops in the city and castle. He writes: I do not see how it is possible to introduce any more troops with any prospect of feeding them."

The Picayune, whence we gather these accounts, says "that as to the condition of the military throughout Mexico we have the evidence of an eye witness. He testifies that every where it is deplorable from the state of destitution in which the troops now are. They are miserably clothed and fed."

The law to extort \$8,000,000 from the clergy had thus far been a dead letter, and the greatest opposition was manifested to it. Still the Government appear determined with Gomez Fariar and his friends, the Federalists, or radicals as we may call them. One of the clergy in the city of Mexico has been imprisoned for his factious opposition to the measure. At our last accounts the Mexican Congress, had before it a modification of the law, which would render it less burdensome, but without changing the principle.

#### Eggs and Potatoes.

At the latest dates, eggs were selling by retail in Liverpool, at 60 cents per dozen, and potatoes at two and a half cents per pound.

The Sheffield Iris states that neither sun, moon nor stars shone upon that town for the first thirteen days of the present year.

New York has contributed \$40,000 to the Irish.

VERY SENSIBLE.—It was well remarked by an intelligent old farmer—"I would rather be taxed for the education of the boy than the ignorance of the man—for one or the other I am compelled to be.

Indian Corn is worth two dollars and sixteen cents a bushel in England, while in some parts of Illinois it is worth but little more than nine cents a bushel. Thirty thousand bushels have recently been purchased near Springfield, Ohio, at twenty five cents per bushel.

More Specie.—Capt. Jenkins says that six millions of dollars in specie were ready to come in the Cambria, from England, could insurance have been obtained upon it, and had the directors of the line permitted her to take it. It is also said the Cambria brings an offer from Rothschilds for the twenty million United States loan at 20 years.

The Subscriptions to the Irish Relief fund in this country already amounts to upwards of \$125,000. It is believed that half a million of dollars will be collected.

A farmer of Warren county, New Jersey, has just taken to the New York market three 5 years old calves, all born at one birth, said to be remarkably handsome animals, and marked in the most singular manner.

#### Employment for Poor Emigrants.

A farmer residing near Morrisown, New Jersey, has hired 25 of the able bodied poor Germans, who were in the New York Alms House. They were employed to get work. The men receive \$6 per month, and the women \$2.50, the farmer agreeing to provide for their children. There are some hundreds more in the Alms House, anxious for work on the same terms. Farming is now the most profitable of all occupations, and a man who can buy or lease a farm near the city and get able bodied hands at six dollars per month can make an independent fortune in a few years.—N. Y. Sun.

LIVER COMPLAINT is generally accompanied with pain in the right side, extending up to the top of the shoulder; variable appetite, occasionally a disordered stomach, yellow tinge of the skin and eyes, and often a swelling over the region of the liver, together with many other symptoms of a loaded and corrupt state of the blood.

Wright's Indian Vegetable Pills will be found one of the very best medicines in the world for the cure of all diseases of the Liver; because they expel from the body those morbid humors which, when deposited upon the important organ, are the cause of every variety of Liver Complaint. From three to six of the above named Indian Vegetable Pills, taken every night on going to bed, will, in a short time, give such manifest relief, that no argument or persuasion will be necessary to induce a perseverance in their use, until the liver is restored to a healthy action, and pain or distress of every kind is driven from the body.

Wright's Indian Vegetable Pills also aid and improve digestion, and purify the blood; and, therefore, not only remove every vestige of the Liver Complaint, but, at the same time, give new life and vigor to the whole frame.

Beware of Counterfeits.—The public are cautioned against the many spurious medicines, which in order to deceive are called by names similar to Wright's Indian Vegetable Pills.

For sale by George H. Miller, Stroudsburg, who is the only authorized agent for that place; see advertisement for other agencies in another column. Office and general depot, 169 Race st., Phila.

#### It is Written

In the Book of Nature and Common Sense, that the natural vegetable productions of every country are, if properly applied, are amply sufficient for the cure of every malady incident to each peculiar climate.

Wright's Indian Vegetable Pills, of the North American College of Health, are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign Drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth

Subject to but One Disease, viz: corrupt humors, and that said medicine cures this disease on

#### Natural Principles

by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters; in like manner if we wish to restore the body to health, we must cleanse it of impurity.

Wright's Indian Vegetable Pills will be found one of the best, if not the very best medicine in the world for carrying out this

#### Grand Purifying Principle,

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and natural manner; and while they every day

#### Give Ease and Pleasure,

disease of every name is rapidly driven from the body.

The following Agencies have been established for the sale of Wright's Indian Vegetable Pills, in

#### MONROE COUNTY.

George H. Miller, Stroudsburg
