

testator labored under delusions in regard to the subject of Religion, such as supposing he had held converse with God in person, that he was the only sanctified man on earth, a spiritual body, &c.

"The witnesses stated a number of incidents related by the testator in his life-time, in which he declared he had held arguments and conversations face to face with God—received commands from his Maker, &c., one of which commands was to liberate his slaves on penalty of being punished hereafter. On the other part it was shown that Mr. Townsend was shrewd at a bargain, and quite rational on all subjects but Religion. That he was a charitable man and a good neighbor, refusing to go to law on any subject, preferring to give up claims rather than do so—that he had a great repugnance to settling disputes of boundary, &c., by law, and would, after consulting his 'talking mind,' (as he sometimes called God,) give up parts of claims and pieces of land."

A Mr. Horst, of New Orleans, has invented a chair, in which a person may sit down and rock himself, aud, by a little exertion of his toes, be surrounded by the cool air, no matter how sultry the atmosphere.

On the 3d of March a portion of Lavaca county, Texas, was visited by a hail storm of great severity. The hail stones were of a very large size, and fell in great numbers, killing fowls, knocking horns off of cattle, breaking the branches of trees, &c., but, so far as heard from doing no very serious damage.

The Louisville Journal points out a curious sentence or two in the pages of its locofoco neighbor. On the 15th inst. the Louisville Democrat said:

"If Rhode Island should vote Democratic we should begin to examine what political rascality the party had been guilty of, that it should attract such company. The little plantation has lately spoken out against democracy as usual—a good omen!"

This opinion was formed for the same reason that Jack would not eat his supper; but the next day there went out to Louisville reports of a different complexion, and on the 16th the Democrat said:

"In Rhode Island, we now find that the vote stands, for Thurston, Democrat, 1,608; Updike, Federalist, 1,694; all others 592. The Democrats will get their man there yet!"

So that as Prentice remarks one day the Democrat thinks a locofoco victory in Rhode Island would indicate that its party has been guilty of some great political rascality, and the next day, confidently anticipates, that such a victory is about to happen.

THE time-honored custom of taking a little opening medicine in the Spring of the year, is founded in common sense and sound philosophy. Every one is sensible of the inconvenience experienced on the recurrence of a warm spell, after a season of cold weather. A feeling of lassitude, drowsiness, sometimes a swimming of the head and headache, a sense of fulness, and a host of unpleasant symptoms, are the general results.—The morbid accumulations of winter are set loose by warm weather, and float in the circulation or lodge in some part of the body. Hence it is perhaps, that Spring is so fatal to consumptives and others.

For the purpose of purifying the blood and other fluids, there is no medicine superior to Wright's Indian Vegetable Pills, and it is strongly recommended as a Spring medicine. These Pills act upon the whole system, and not on one part of it merely, as other pills do. Hence, if disease be present in any part, it must be driven forth.

Beware of Counterfeits.—The public are cautioned against the many spurious medicines, which in order to deceive are called by names similar to Wright's Indian Vegetable Pills.

JOB WORK
Neatly executed at this Office.

It is Written

In the Book of Nature and Common Sense, that the natural vegetable productions of every country are, if properly applied, are amply sufficient for the cure of every malady incident to each peculiar climate.

Wright's Indian Vegetable Pills, of the North American College of Health, are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign Drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth

Subject to but One Disease, viz: corrupt humors, and that said medicine cures this disease on

Natural Principles
by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters; in like manner if we wish to restore the body to health, we must cleanse it of impurity.

Wright's Indian Vegetable Pills will be found one of the best, if not the very best medicine in the world for carrying out this **Grand Purifying Principle,** because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and natural manner; and while they every day

Give Ease and Pleasure, disease of every name is rapidly driven from the body.

The following Agencies have been established for the sale of Wright's Indian Vegetable Pills, in
