the children began to cry for Sherman's Lozenges. The noise was not so loud at that time, but it has kept increasing ever since, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathises with the little sufferers, and very much regrets that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible

Worm Lozenges,

he has entered into arrangements for enlarging his Manufactory, by means of which he thinks he will be able to supply the demand. And the same pains and care will be taken, that these celebrated Lozenges be made as they have always been, in order that those who depend upon them may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozenges, that they would supercede the use of every other vermifuge, as the Lozenge is very p easant to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties in connexion with the fact that they are sold for 25 cents per Box, thus placing them in the reach of the poorest man in the land, has not only caused them to take the place of every other vermifuge ever offered, but also rendered them popular to the com-
