## THE UNION MAGAZINE,

LITATURE AND ART. EDITED BY MRS. KIRKLAND,

Strondsburg, and the public generally, AUTHOR OF "A NEW HOME," FORESTLIFE," ETC

AND FILLED WITH Contributions from the most eminent Writers of the

It requires some experience in catering for the ublic taste, to enter upon the conduct of a new Magazine with sanguine hope of success. To a mere observer, the field seems fully occupiedevery advantageous position secured, and all available force enlisted. It would appear, upon a of each calendar month,

Spread their light wings of saffron or of blue, and fly to the utmost parts of the earth, delighting the ladies of the torrid zone with our comfortable winter fashions, and enlightening the dandies of St. Petersburg with our opinions on politics. The American travelling in Sweden, or in Italy, is al ready sure of a monthly standard by which to regulate his notions of foreign countries; the gentlemen of the ward-room touching at Honolulu for supplies in the course of a three years' cruise, look for the New York and Philadelphia Magazines as confidently as for the replenishment of the water-butts. Why, then, attempt the establishment of another? Because it is the veritable belief of the publisher of the Union Magazine that much may yet be done for the advancement Invite the attention of Merchants, Manufactu of this popular class of publications. Every day witnesses the progress of our country in every thing connected with Literature and Art; and every day shows an increase in the number of those who take an interest in this progress; a taste for refined culture will always more than keep pace with the efforts which may be made to meet its requirements; and where there was one reader able to judge correctly of our periodical literature

Our plan for the Union Magazine embraces all turns. that enterprise, industry, skill and cost can accomplish for a publication of this description. We say our mlan, for we are shy of promising very great hand, and will suit those who may favor him things before hand. Our literary contributors will be nearly the same as those whose writings already give value to the other monthly magazines; although we hope to add to those well-known and highly-esteemed names some which are destined For the liberal support already received from to grow upon public favor hereafter. But in the his friends and customers he returns his sincere matter of pictorial illustrations we have a little more to say

> Our engravings are to be exclusively from original designs by T. H. Matteson, and of these we shall offer in each number, one in mezzotint by H. S. Sadd or T. Doney, and one line engraving by M. Osborne or John C. McRrae; besides illustrative wood-cuts by B. F. Childs and P. Loumis, dispersed through the body of the work, and a coloured fashion plate, engraved by W. S. Barnard, which may be relied on as the true mode of the month. If there be any reality in the warm interest lately expressed in the advance of Amer. ican art, this new feature of exclusively original pictures will afford opportunity for the expression of such interest; since those who know any thing of the subject will not need be reminded of the labor and risk to be incurred in the course of such an undertaking, we are confident that the mere mention of the plan will secure attention.

## READ! BE GUARDED! To the Public.

In 1843, I commenced the manufacture of what are now extensively known as "Improved Indian Vegetable, Pills, Sugar Coated," after expending a great deal in means and experiments. The pills are said to be superior to any others on various accounts. They are, every box, made of superior materials, are extremely pleasant, and always efficacious. The "Sugar Coating," which renders them still more pleasant, is also an original invention of my own, as is well known

Having brought these pills into market, where their virtues might be more extensively apprecia- mend them to the general notice and patronage ted, I did a work of actual benevolence; and where of the people of this place and vicinity. A I seek to make an honest livelihood after years o labor, I am, through these pills, improving the health and strength of thousands

Now these pills are made to sell upon their repwish for. All tastes can here be suited, with utation as a good medicine, and should they not be distinguished from every imitation that is sought to be palmed off on their reputation! As you value your life and health do not touch those pills which are offered simply from being "coated with sugar!" Have not several unprincipled persons put forth a "Sugar Coated" pill as such since Dr. Smith's have become popular! Now, all I ask is the candid attention of the public to the following:

Oath before the Mayor in 1814. State of New York:

The danger of being deceived is now apparent; as Dr. Smith's Pills have become very popular throughout the country, imitators have sought to palm off worthless stuff with a 'coating of sugar' to cover up a most dangerous compound

Dr. Crumbecker, of Wheeling, Va., says that a person in that place came near losing his life from the effects of the counterfeit 'Sugar Coated' Pills. Also, a gentleman in Louisville, Ky, was seized with violent vomiting after their use.
