READ! BE GUARDED! To the Public.

In 1843, I commenced the manufacture of what are now extensively known as "Improved Indian Vegetable Pills, Sugar Coated," after expending a great deal in means and experiments.

Having brought these pills into market, where their virtues might be more extensively appreciated, I did a work of actual benevolence; and where I seek to make an honest livelihood after years of labor, I am, through these pills, improving the health and strength of thousands.

Now these pills are made to sell upon their reputation as a good medicine, and should they not be distinguished from every imitation that is sought to be palmed off on their reputation! As you value your life and health do not touch those pills which are offered simply from being "coated with sugar!"

Sworn before me, this 14th day of June, 1844. G. BENJ. SMITH, M.D. JAMES HARPER, Mayor of the City of New York.

Received this 17th day of June, 1844, from Dr. G. Benjamin Smith, the fee of \$30, paid on his application for a Patent for a 'Pill Coated with sugar'

G Benjamin Smith, M D--Dear sir: I believe you were the first by about a year, to make and introduce 'Sugar Coated Pills,' and are following your business with honorable and praiseworthy exertions

Important Fact--We, the undersigned, wholesale Druggists in Louisville, Kentucky, are satisfied from the information we can obtain, that Dr. G Benjamin Smith is the original inventor of the Sugar Coated Pills.

Some of Dr Smith's opponents have circulated the report, that the astonishing cures these pills have made, are attributable to mercury; but the first Chemist in New York, after a minute chemical examination, gives the following:

I have analyzed a box of Doctor Smith's Sugar Coated Indian Vegetable Pills, and find that they do not contain mercury in any form
