L. BARNES, at Milford, is duly authorfized to act as Agent for this paper; to receive subscriptions, advertisements, orders for job-work, and payments for the same.

The Governor of Massachusetts has assigned Monday, the third day of April next, for the choice of a member of the 30th Congress, in District No. 8, in place of John Quincy Adams.

Spring had but forth her blossems at New Orleans on the 22d February-the peach, plumb and cherry trees being then in full bloom, while "the orange, lemon, lime, and citron, are budding forth in all their fragrance upon the perfumed air."

The Dollar Weekly News.

We have received several numbers of this exlent weekly, and have found each filled with choice and instructive matter. It is fearless and independent in its tone, and far surpasses that sickly loco foco paper, published under the garb of neutrality, in the same city. The Daily News, from the same office, is also an excellent paper. They are published at Philadelphia, by Paxson, Sanderson & Killinger.

Whig State Convention.

The Whig State Convention assembled at Harrisburg yesterday. The object of the Convention is to nominate a candidate for Canal Commissioner, appoint Senatorial Delegates to the National Convention, and to form an Electoral Ticket.

Aid and Comfort.

The impudence of the Locofocos, from the President upward, in charging upon the Whigs a desire to afford 'aid and comfort to the enemy,' is only equalled by its falsehood. At a Locofoco Col. Ben. Taylor, a leading member of that party, made use of the following language:

Sometimes I have felt a little jealousy, in looking over the army roll, to see so many Whigs upholding the stars and stripes-because I am compelled to admit that they outnumber the Democrats.

What a Naughty Place!

Mr. Clay in New York.

On Tuesday of last week Mr. CLAY reached the city of New York, and, as might have been expected, met with a most enthusiastic reception .by the Mayor of the City, amid the triumphant cheers of many thousand people, and from thence the procession moved up Broadway. The whole of that beautiful thorough-fare was thronged with people, anxious to get a glance at their distinguished guest, and the ladies in the windows were prominent in welcoming him by the waving of their handkerchiefs. All the hotels and other buildings were surmounted by flags. The scene is described and honorable to the people of New York.

The Physicians who made an examination of the body of the lady who died in Cincinnati recently, whilst under the influence of chloroform have published a card in which they state the following facts:

"1st Mrs. Simmons, as shown by the condition of the various organs of the body, was in good health when the chloroform was administered. It is true she had labored under slight catarrh a few days previous to her death; but we are of opinion can be made :--that the very slight diseased action which existed was in no way instrumental in causing the fatal

Diminution of the Sun .-- A Joke.

Some weeks ago the proprietors of the New York "Sun" saw proper to diminish the size of their paper. The articles providing for the confirmation of the grants given by the Mexican government this day in our city whose lucrative trade it is to in Texas and California, are stricken out; and the unimportant provision to extend the jurisdiction of the Mexican church over the Catholic clergy in the ceded territory, is also stricken out. These are the principal modifications.

It will be recollected that the treaty indicates two modes of paying the indemnity agreed upon---one by the issue of six per cent stocks, or by instalments. The latter mode has been adopted. The three millions subject to Mr. Trist's order, are to be paid immediately upon He was received and welcomed at Castle Garden the ratification of the treaty by the Mexican government, and the remainder in annual instalments of three millions each, bearing six per cent interest, to commence from the ratification of the treaty by Mexico.

The following is a sketch of the articles of the treaty, as adopted by the Senate. It is probably, as correct as a compressed sketch
