HORRIBLE MISTAKES !!

Are sometimes made by confounding one medicine with another, and administering the wrong article. Equally horrible are those mistakes which are made in supposing that all Pills are alike, and that therefore, it is indifferent which are taken, and if one kind is bad all are bad together. This is a very great mistake. There is as much difference

D^{R.} LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substances, purifying and purging, while the othor is strengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medicinal men, but never before discovered. In other words they do the work of the two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen ; and hence they cause no debili-
