A copy of the report of the Judges of Musical Instruments at the late exhibition of the Franklin Institute, Philadelphia:

The Committee have a warded C. Meyer with a premium for the best seven octave Piano .---The ground of this decision was the general excellence of the piano, and especially its power, brilliancy, and delicacy of touch. The judges did not give premiums for the best finished instruments, conceiving the best palpable tests of a piano to be its musical capabilities, and not its originality, its mechanical igenuity, or that elegance of finish, which effects neither the action nor the tone, and is only designed to please the eye and not to satisfy the ear.

Another copy of the report of the judges of musical instruments at the last exhibition at Boston:-- The committee have selected No. 591 a seven octave pizno made by C. Meyer, worthy of special commendation.

No. 591, is a very fine instrument, particularly commendable for its clastic and ready touch, in repeated trials by different hands ... The keys never failed of certain repetitions in the shake. The tone throughout was even of great beauty and power from the lowest note to highest, and the damping was perfect in all

These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substances, purifying and purging, while the other is strengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medicinal men, but never before discovered. In other words they do the work of the wo medicines, and do it much better than any tation, and are followed by no re-action. Dr. Le Roy's Pills have a wonderful influence on the blood; they not only purify without weakening it. but they remove all noxious particles from the chyle before it is converted into fluid, and thus makes impure blood an utter impossibility.
