Doct.'r Townsend's Sarsaparilla.

Wonder and Blessing of the Age. The most Extruordinary Medicine in the World. This Extract is put up in Quart Bottles: it is six times cheaper pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, that while it eradicates, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES Ever known; it not only purifies the whole system, and strengthens the person, but it creates new, pure and rich blood: a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past sea-

10,000 cases of General Debility and want of

Nervous Energy. Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensation, premature decay and decline, hastening towards that fatal disease, Consumtion, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

To Mothers and Married Ladies. This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, " The turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calcula ted to assist hature, by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which Stroudsburg, Feb. 12, 1816.

women are subject. It braces the whole system. renews permanently the natural energies; by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation, which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

Great Blessing to Mothers and Children. It is the safest and most effectual medicine for purifying the system, and relieveing the sufferings attendant upon child-birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food, those who have used it think it is indispensible. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth-in Costiveness, Piles, Cramps, Swelling of the Feet, Despondency. Heartburn, Vomiting, Pain in the Back and Loins, False Pains; Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine, in some a little Caster Oil, or Magnesia, is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement.

Beauty and Health. Cosmetics, Chalis, and a variety of prparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflame by the alkalies used in soaps, beautifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature-not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to activity to the limbs, and strength to the muscular the cheeks and a brilliancy to the eyes that is fascinating. This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step. buoyant spirits, sparnkling eyes and beautiful complexions, they should use Dr. Townsend's Dr Townsend-I verily believe that your Sar- Sarsaparilla.
