

### A Yard of Pork.

In a small town 'down east,' in which they were building a railroad, a party of men, who were employed there, went to the store of a real Yankee, and thinking they would show a specimen of their wit, one asked for a yard of pork, whereupon the Yankee deliberately cut off three pig's feet, and handed them to the man. Pat notwithstanding the joke, asked: "And sure, and what that you would be after calling a yard of pork?" Certainly, replied the Yankee, coolly, "don't you know that in this country three feet make a yard."

### Prepared Wood.

The Mining Journal describes some beautiful specimens of wood, prepared under the patented process of a French gentleman of the name of Renard Perrin, which must open a wide field in the construction of useful and ornamental fancy cabinet work, and the internal architecture of our houses, public buildings, &c. All our commonest woods, such as pine, beech, arch, elm, oak, &c., have imparted to them an entire new character, both in color and the disposition of the grain, or curl, which from the wood, after the operation, being susceptible of high polish, is brought out to the greatest richness and beauty. Some specimens of tables, panels, &c., made from this prepared wood, are exceedingly rich, surpassing any of the more expensive woods in their natural state, and which will, doubtless, come into most extensive application. We are not aware of the material employed to have this effect on the wood, which, although patented, the proprietors keep a profound secret. The manipulation is of a simple nature, consisting in causing an exhaustion of the contents of the cellular tissue of the timber, and, while so exhausted, injecting a solution of the material into the pores. The operation is performed on green, or fresh cut timber, and the whole tree is operated upon once, which becomes so thoroughly saturated with the preparation, that on cutting any portion of it the same altered appearance in the grain present themselves, and the wood, we are informed, is very soon fit for use, which otherwise would require many months' seasoning. Wood thus prepared is rendered proof against dry rot, decay, and the ravages of insects; and thus, in addition to its great beauty; its wood may be brought economically into use for the common purposes of building, or other uses to which timber is generally applied. The cost of the machine is about \$60; and it can be used in the fields or forests, or on the shores of rivers, and does not require very experienced hands.

**Scientific Prophecy.**—About nineteen years ago Dr. Hail of Wilton Connecticut, then a remarkably good student in his Collegiate course, was suddenly deprived of his reason and his memory. In those circumstances, his father, Rev. Mr. Hail, sent him to Hartford; but finding no relief, he sent him to Dr. Chapin, of Cambridge, Mass. The Dr. said there was no relief for him at that time,—but at the age of thirty six or seven, there would be a change; that the brain was too much expanded for the cranium, and there would be at that age a contraction, which would enable it to act healthfully.

His anxious father and family saw their hopes pre-emptorily deferred for nineteen years. That time has recently expired, and to their great joy the prophecy is fulfilled. The man began to inquire for his books, as if he had just laid them down, and resumed his mathematical studies where he left them.

There was no trace in his mind of this long blank in his life, or of anything which has occurred in it, and he did not know that he was almost forty years of age.

The circumstances of greatest interest is, that where he went into this state of disarrangement in deep religious anxiety, he came out of it with a bright christian hope, which had been obtained without the knowledge of his friends a short time before.

The Pittsburg Mining Company have recently blasted down and cut up a mass of copper, nearly pure and malleable, which weighed no less than 80 tons, and the value of this mass, when delivered in market, will exceed \$25,000. Nothing in the whole history of copper mining approaches this.

**SMALL POX** generally begins with languor and weariness, chilliness and vomiting, soreness of the throat, great thirst, and many other unpleasant complaints.

Wright's Indian Vegetable Pills will be found the very best medicine in the world for the cure of Small Pox, because they cleanse the body from those poisonous humors which are the cause of small pox and other eruptive complaints. From three to six of said Indian Vegetable Pills, taken every night on going to bed, will in a short time take a perfect cure of the above dangerous complaint, and the blood and other fluids will be restored to a state of purity.

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame.

Beware of Sugar-Coated Counterfeits.—Remember, that the original and only genuine Indian Vegetable Pills have the signature of Wright's on the top label, of each box. For sale by George H. Miller, who is the only authorized agent for Stroudsburg; see advertisement for other agencies in another column. Office and general depot, 169 Race st. Phil'a.

**JEALOUSY AMONG THE LADIES.**—The ladies are all jealous of Clickener's Sugar-Coated Pills, heretofore they (the ladies) flattered themselves that they were the only medicine in nature which was at the same time sweet, to the lips and saving to the heart. In fact it is a luxury to be taken now-a-days, the pleasure is so great of being made whole again by Clickener's Sugar-Coated Purgative Pills, they being adapted to all constitutions, and their operations unattended with nausea, pain, or gripe.

For sale at the Republican Office, by T. S. Hoch, the only authorized agent for Stroudsburg.

A good, rich soil retains moisture much longer than that which is exhausted and poor.

### WOOD WANTED.

A few clocks on hand, which will be exchanged for wood, if immediate application be made to JOHN H. MELICK, Stroudsburg Nov. 16, 1848.

JOSEPH BENSER.

November 11, 1848.

### Almanacs! Almanacs!!

DOCTOR D. JAYNE would respectfully inform the public that he publishes annually for gratuitous distribution, by himself and all his Agents, an Almanac, called

#### Jayne's Medical Almanac, And Guide to Health.

The calculations for this Almanac are made with great care and accuracy and for five different Latitudes and Longitudes, so as to make them equally useful as a Calendar in every part of the United States and British North America. They are printed on good paper, and with handsome new type, and are neatly bound, and besides being the neatest and most accurate Calendar printed in the United States, they contain a large amount of valuable information, suited to the wants of all, and of that kind too, which cannot be found in books.

HIS CATALOGUE OF DISEASES, with remarks and directions for their removal is really invaluable, and make them welcome visitors in every house they enter. Every family should possess at least one of these Annuals. His Almanac for 1849 is now ready for distribution, of which he designs to publish at least TWO MILLIONS, and in order that they every family in the United States and British America, may be furnished with a copy, he hereby invites

MERCHANTS AND STOREKEEPERS to forward their orders to him as early as possible, and they shall be supplied GRATUITOUSLY with as many copies as they may deem necessary to supply their various customers. They are also invited at the same time, to send a copy of their "BUSINESS CARD," which will be printed and placed on the cover of the Almanacs sent them, also without charge.

They are also requested to give all necessary directions how the Almanacs should be forwarded to them. By law they cannot be sent by mail unless the postage is first paid on them here.

Orders (post paid) directed to DR D JAYNE, Philadelphia, will meet with prompt attention.

FAMILIES can obtain these Almanacs gratis of JOHN MALVEN, Stroudsburg, November 10, 1848.—3t

### STOVES! STOVES!

For sale by STOGDELL STOKES. Stroudsburg, November 10, 1848.

### CHILD-BIRTH:

A valuable Scientific Work, upon the subject of Gestation and Child-Birth, by R. G. GEISSNER, M. D. late of Paris, just published in New York by the Author.

Price Twenty-five Cents.

THIS WORK contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage.

It will be found of special value to those whose means, health or other circumstances, do not permit them to increase the number of their family, without great inconvenience, suffering, or perhaps risk of life. A method of avoiding these troubles and dangers, at will, (recently discovered by a celebrated French Physician,) is fully communicated in this work, so that any person may avail himself of it at once, without cost. The means of prevention here set forth are therefore within the reach of all. The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate.

#### CAUTION.

Some speculator has clandestinely (under another name) published an imitation, (bearing the same title,) which, besides omitting the MOST IMPORTANT PORTIONS of it, dupes the credulous out of

One Dollar,

Twenty-five Cents

For the genuine, full, and complete Work. Copies of this work will be sent in a close envelope, single letter postage to any part of the United States, for twenty five cents sent, post-paid, to Dr. R. G. Geissner, Box 2456, office 127 1-2 Liberty Street, New York. N. B.—No Bookseller allowed to sell this work. November 10, 1848.—5m.

For terms of tuition, &c. apply to the pre-ceptress.

By order of the board of trustees.

JOHN HUSTON, Pres't.

Stroudsburg, November 2, 1848.

### BLANKS.

The subscriber has on hand and offers for sale, a superior assortment of blanks, viz:

Deeds, Mortgages, Executions, Summonses, Subpoenas, Bonds, &c. L. F. BARNES.

Milford, November 2, 1848.

### CLOTHING EMPORIUM AND GENTLEMEN'S Outfitting Establishment.

No. 27 Cortland Street, NEW-YORK.

Strangers and citizens desiring to replenish their wardrobes, may be immediately accommodated in the very best style, and at the lowest Cash prices. With a choice selection of

#### Fall and Winter Garments

Of the newest patterns, of superior make and finish, and of the best materials; equal in every respect to the best custom work. Having adopted the cash principle, upon which certain calculations may be made, he has pursued successfully for upwards of ten years, in direct opposition to the ruinous system of credit, which imposes the necessity of exacting unnecessarily high prices from paying customers; he continues to provide, and has now on hand one of

THE LARGEST,

MOST FASHIONABLE,

AND CHOICE ASSORTMENTS OF

Ready Made Clothing in America. From which gentlemen may depend upon suiting themselves satisfactorily, as regards quality, style, and price. His large stock embraces Overcoats and Cloaks of the most approved styles, Dress, Frock, and other Coats. Pantalions of every desirable pattern, and the richest assortment of black Satin, Cassimer, and other styles of Winter Vests.

#### The Fancy Department

Embraces all the new and elegant patterns, and latest and most desirable styles of: Fancy, Silk, and Satin Coats, Suspenders, Gloves and Hosiery, Shirts, Bosoms and Collars, Carpet Bags, &c., &c.

In addition to the above variety of Ready Made Articles, he has for sale by the piece or yard, at as low prices as can be found in either of the Atlantic cities, a beautiful assortment of the best quality.

#### Cloths, Cassimeres, & Vestings,

Gentlemen can have their orders filled at a few hours notice, and sent to any part of the United States—and by sending their measures, can obtain clothing on as good terms as though they were present to select for themselves. Address J. C. BOOTH, No. 27 Cortland street, New York. 6m.

For the liberal share of patronage which has been extended to him for so many years, he returns unfeigned acknowledgments, and he promises that no efforts shall be spared on his part in future to continue to serve his customers on as favorable terms as any other house in the trade.

#### BLANK MORTGAGES

For sale at this Office.

### HIGHLY IMPORTANT WORK.

#### Child-Birth:

A Valuable Scientific Work, upon the Subject of Gestation and Child-Birth, by R. M. WEISSELHOFF, M. D. late of Paris, just published in New-York by the Author.

This Work contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage. It will be found of special value to those whose means, health or other circumstances, do not permit them to increase the number of their family, without great inconvenience, suffering, or perhaps risk of life.—A method of avoiding these troubles and dangers, at will, (recently discovered by a celebrated French Physician) is fully communicated in this work, so that any person may avail himself of it at once, without purchasing any instrument, medicine, or other article, from the author. The means of prevention here set forth, cost comparatively nothing, and are within the reach of all. The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate. Nor does it curtail matrimonial privileges in the least.

#### Morality Considered.

The object of this work can be shown to be of the highest utility, and sustained by the soundest principles of prudence, political economy, and virtue. It shows how a physiological effect may be produced, scientifically and without injury to the constitution, which thousands attempt to accomplish by the most unwise and reprehensible means. The object is by no means new to the world. The means will be esteemed by all scientific, right-minded and sensible people, as a discovery in physiology of the highest consequence to public morals and happiness.

#### The Instinct of Nature.

Love, and the desire for union between the sexes, will be indulged, talk of prudence as we may. Without marriage, we have, in all countries, a debasement of one sex, and the criminal indulgence of the other; with marriage, and the unrestrained indulgence of the natural instinct, very often suffering and misery of the most fearful character. Who, then, shall deny to man, (a free agent,) the right to marry, and to regulate the instinct of nature?

#### Young Married People.

Young Married People, whose fortunes are not yet established, will find in this work matter to interest them deeply, and information of the highest value, which they should not, on any account, be ignorant of. Hundreds of married people, now advanced in life, have assured the author, that if they had possessed such a treasure in early life, it would have saved them more than half the suffering and deprivation they have since endured.

#### Unhappy Wives.

Unhappy Wives, who feel that their physical condition and health totally unfit them to become the mothers of a numerous off-spring, and who reasonably fear that each period of confinement will terminate their existence, will hail the discovery of this certain means of relief with unbounded joy. Let all such unfortunate and unhappy wives lose no time in obtaining this important work. It will be to them a precious boon through life, and prevent many an early and premature death.

#### Hereditary Diseases.

Scrofula, Consumption, Insanity, Apoplexy, Disease of the Heart, and other horrible complaints, capable of transmission from parent to child, afflict many worthy people, who, at the same time, are as capable of enjoying themselves in the marriage state as their more fortunate fellow beings. Shall such persons refrain from marriage on this account, or shall they marry and give birth to a feeble off-spring, destined to a life of suffering or an early death? The answer to these serious questions will be found in the work here recommended.

#### Early Marriages.

Early marriages are strongly advised by all philosophers and writers upon social and political subjects. Early marriages, beyond all questions, tend to promote virtue and happiness; and with the power of regulating the procreative function, made known in this work, may be freely entered into, without fear of incurring responsibilities which cannot be sustained.

#### Over Population of the Earth.

Over Population of the earth need be no longer apprehended. The calculations of Malthus, and the wild fears of Robert Dale Owen, are alike rendered baseless by the discovery here communicated to the world. "The control of man over his accidents," in this respect at least, is here established. The wisdom of exercising such control, none who give the subject a moment's consideration, can doubt.

#### Honesty of the Work.

There is no deception or humbuggery of any kind about this work. It is precisely what its title indicates, a scientific publication, containing information of great value to married people, or those contemplating marriage, expressed in plain language, which all can understand, with no unnecessary words put in merely to swell the number of its pages. The whole story is told, and the means of accomplishing the objects of the work fully and faithfully given, so that the reader may avail himself of it at once, without purchasing any medicine, instrument, or other article from the author.—The means of protection which it recommends, may also be relied upon, without fear of disappointment or injury.

#### Physicians, Professors, & Clergymen

In all parts of the country, have given their testimony strongly in favor of the objects of this work, and the nature of the discovery. We annex a few of these recommendations:

NEW YORK, September 13, 1848.

DR. R. M. WEISSELHOFF—Dear Sir: I should have no question whatever that the means recommended in your work on Child-Birth, would

accomplish the objects intended, considered in reference to physiological principles alone; but I have also the happiness to know that it has stood the test of practical experiment. Yours, truly, R. LE DOYEN, Professors of Midwifery, late of Paris.

NEW YORK, August, 1848.

DR. R. M. WEISSELHOFF—Sir: The moral effect of such information as your work contains, I believe to be decidedly salutary. The right of man to control the animal instincts cannot be questioned. I think that work will be the means of doing much good.

Rev. B. F. CROWLEY.

No. 8 Stanly Park, New York.

DR. R. M. WEISSELHOFF—Sir: The principles of Chemistry applied to the limits for regulating the precreative functions, as stated in your work on Child-Birth, would satisfy any well informed person that the object of that publication could be attained with the most perfect ease, certainty and safety.

J. L. SULLINAN,

Professor of Chemistry, New University.

Copies of this work will be sent, in a close envelope, at single letter postage, to any part of the United States for \$1 sent, post paid, to DR. R. M. WEISSELHOFF,

Box 2,710, New York City.

Copy-right secured. No Bookseller allowed to sell this work. PUBLICATION OFFICE, 258 BROADWAY, New York City.

#### CAUTION.

Persons who wish the Genuine work, by Dr. Weisselhoff, with private notes added by his own hand, can obtain it only by sending directly to him, as he employs no Agents whatever, and never sells the work at wholesale—therefore no Book Agent, Pedler, Postmaster or Bookseller can possibly furnish the genuine work. Beware, therefore, of false copies, and imitations, which may not only be worthless, but dangerous! All infringements of the copy-right are promptly prosecuted; and cheats will only sell abridged or altered copies. This is the only original and true work—no other can be genuine. Send by mail as above—it is the only sure way to secure the work. Thousands of copies have been sent by mail with perfect safety. November 2, 1848.—5m.

### ORPHANS' COURT SALE.

By virtue of an order of the Orphans' Court of the County of Monroe, the following Real Estate, formerly of Charles G. Nebe, late of Pocono township, in said county, deceased, will be sold at public vendue, at the house of Jacob Knecht, in Stroudsburg, on

Saturday the 18th day of November

next, at 2 o'clock in the afternoon, one full equal undivided moiety or half part of a certain Saw Mill and 7 Tracts of Land, situate in Coolbaugh township, in said Monroe county, in the warrantee names of the following persons, to wit:

Daniel Shoemaker, containing 408 97 and allowance. Richard Shaw, " 408 97 " Tobias Gultner, " 412 72 " Aaron Depue, " 408 97 " Henry Biles, " 408 97 " Peter Hagle, " 408 97 " Nicholas Depue, " 408 97 "

These lands are heavily timbered with Spruce and Hemlock; the Tobyhanna Creek, a never failing stream of water passes through them, on which is erected a good and substantial

#### SAW MILL,

in complete order. The Sullivan Road passes within about two miles of the Saw Mill. The whole will be sold together or in parcels if desired.

The terms and conditions will be made known at the time and place of sale, by

J. H. STROUD, Administrator.

October 26, 1848.—4t.

### NOTICE
