

Culture of Tea in the United States.

Communicated to the National Intelligencer. An attempt is about to be made on an extensive scale to raise, or to grow, tea in this country.

Having turned his attention to the subject of raising and curing tea, and the nature of climate and soil adapted to that plant, he thinks there is no reason why it should not be produced in this country, not only for home consumption, but exportation.

New Use for Ardent Spirits.—A correspondent of the Ohio Cultivator says that a little alcohol, or almost any kind of ardent spirits placed on the bottom boards around and under a hive of belligerent bees, will allay their fury, and cause them to cease fighting.

The Best Drove of Cattle in the World

Isaac Funk, E. q., of McLean county, in this State brought to this city, a few days ago, a drove of twelve hundred head of cattle, which were brought, slaughtered and packed by Messrs. Wadsworth, Dyer & Chapin, and which averaged 677 pounds per head.

"Too Late."

The Union advises its friends not to bet on Cass and Butler. This would have come better a month ago, and thus saved tens of thousands that arrogant Locofocos forced the Whigs to take, particularly in Washington, under the nose of the Union.

PRESERVING PENCIL DRAWINGS.—We have tried, says Dr. Holmes of the Maine Farmer, various methods of preserving drawings and writings made by the common black lead pencil, but not with very good success until recently.

COLDS, COUGHS, CONSUMPTION, &c.

It should be remembered that a cough is an evidence that some impurity is lodged in the lungs which, if not removed, will so irritate those delicate organs as to produce inflammation of the lungs, a disease which we all know is the high road to consumption.

FEVERS.

Fever of all kinds are peculiarly under the control of Clickener's Sugar Coated Purgative Pills, owing to their unrivaled efficacy in purifying the system, and thus depriving the blood of the nourishment that feeds its inflammation.

Father Ritchie "assumes for the sake of argument that Gen. Taylor has been elected President." Wonderful assumption!

Dangerous Counterfeit.—Willis and Co., Exchange Brokers, 25 State street, have shown us a new counterfeit \$3 on the Commercial Bank of Burlington, which is well calculated to deceive the most cautious.

MARRIED.

At Mauch Chunk, on the 16th inst., by the Rev. N. Heston, Mr. Richard S. Staples of Stroudsburg, and Miss Mary Ann Thompson, daughter of Dr. John D. Thompson of Mauch Chunk.

THE LARGEST, MOST FASHIONABLE,

AND CHOICE ASSORTMENTS OF Ready Made Clothing in America.

From which gentlemen may depend upon suiting themselves satisfactory, as regards quality, style, and price.

His large stock embraces Overcoats and Cloaks of the most approved styles, Dress, Frock, and other Coats. Pantalions of every desirable pattern, and the richest assortment of black Satin, Cassimer, and other styles of Winter Vests.

The Fancy Department

Embraces all the new and elegant patterns, and latest and most desirable styles of

Fancy, Silk, and Satin Cravats, Suspensers, Gloves and Hosiery, Shirts, Bosoms and Collars, Carpet Bags, &c., &c.

In addition to the above variety of Ready Made Articles, he has for sale by the piece or yard, at as low prices as can be found in either of the Atlantic cities, a beautiful assortment of the best quality.

Cloths, Cassimeres, & Vestings,

IF Gentlemen can have their orders filled at a few hours notice, and sent to any part of the United States—and by sending their measures, can obtain clothing on as good terms as though they were present to select for themselves. Address J. C. BOOTH, No. 27 Cortland street, New York. 6m.

October 5, 1848.

IF For the liberal share of patronage which has been extended to him for so many years, he returns unfeigned acknowledgements, and he promises that no efforts shall be spared on his part in future to continue to serve his customers on as favorable terms as any other house in the trade.

BLANK MORTGAGES

For sale at this Office.

HIGHLY IMPORTANT WORK.

Child-Birth:

A Valuable Scientific Work, upon the Subject of Gestation and Child-Birth, by R. M. WEISSELHOFF, M. D., late of Paris, just published in New-York by the Author.

This Work contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage. It will be found of special value to those whose means, health or other circumstances, do not permit them to increase the number of their family, without great inconvenience, suffering, or perhaps risk of life.

A method of avoiding these troubles and dangers, at will, (recently discovered by a celebrated French Physician) is fully communicated in this work, so that any person may avail himself of it at once, without purchasing any instrument, medicine, or other article, from the author. The means of prevention here set forth, cost comparatively nothing, and are within the reach of all.

The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate. Nor does it curtail matrimonial privileges in the least.

Mortality Considered.

The object of this work can be shown to be of the highest utility, and sustained by the soundest principles of prudence, political economy, and virtue. It shows how a physiological effect may be produced, scientifically and without injury to the constitution, which thousands attempt to accomplish by the most unwise and reprehensible means.

The Instinct of Nature.

Love, and the desire for union between the sexes, will be indulged, talk of prudence as we may. Without marriage, we have, in all countries, a debasement of one sex, and the criminal indulgence of the other; with marriage, and the unrestrained indulgence of the natural instinct, very often suffering and misery of the most fearful character.

Young Married People.

Young Married People, whose fortunes are not yet established, will find in this work matter to interest them deeply, and information of the highest value, which they should not, on any account, be ignorant of.

Unhappy Wives.

Unhappy Wives, who feel that their physical condition and health totally unfit them to become the mothers of a numerous off-spring, and who reasonably fear that each period of confinement will terminate their existence, will find the discovery of this certain means of relief with unbounded joy.

Hereditary Diseases.

Scrofula, Consumption, Insanity, Apoplexy, Disease of the Heart, and other horrible complaints, capable of transmission from parent to child, afflict many worthy people, who, at the same time, are as capable of enjoying themselves in the marriage state as their more fortunate fellow beings.

Early Marriages.

Early marriages are strongly advised by all philosophers and writers upon social and political subjects. Early marriages, beyond all questions, tend to promote virtue and happiness; and with the power of regulating the procreative function, made known in this work, may be freely entered into, without fear of incurring responsibilities which cannot be sustained.

Over Population of the Earth.

Over Population of the earth need be no longer apprehended. The calculations of Malthus, and the wild fears of Robert Dale Owen, are alike rendered baseless by the discovery here communicated to the world.

Honesty of the Work.

There is no deception or humbugger of any kind about this work. It is precisely what its title indicates, a scientific publication, containing information of great value to married people, or those contemplating marriage, expressed in plain language, which all can understand, with no unnecessary words put in merely to swell the number of its pages.

Physicians, Professors, & Clergymen

In all parts of the country, have given their testimony strongly in favor of the objects of this work, and the nature of the discovery. We annex a few of these recommendations:

New York, September 13, 1848.

DR. R. M. WEISSELHOFF—Dear Sir: I should have no question whatever that the means recommended in your work on Child-Birth, would

accomplish the objects intended, considered in reference to physiological principles alone; but I have also the happiness to know that it has stood the test of practical experiment. Yours, truly, R. LE DOYEN, Professors of Midwifery, late of Paris. NEW YORK, August, 1848.

DR. R. M. WEISSELHOFF—Sir: The moral effect of such information as your work contains, I believe to be decidedly salutary.

The right of man to control the animal instincts cannot be questioned. I think that work will be the means of doing much good.

Rev. B. F. CROWLEY, No. 8 Stanly Park, New York.

DR. R. M. WEISSELHOFF—Sir: The principles of Chemistry applied to the hints for regulating the precreative functions, as stated in your work on Child-Birth, would satisfy any well informed person that the object of this publication could be attained with the most perfect ease, certainty and safety.

J. L. SULLINAN, Professor of Chemistry, New University.

Copies of this work will be sent, in a close envelope, at single letter postage, to any part of the United States for \$1 sent, post paid, to DR. R. M. WEISSELHOFF, Box 2,710, New York City.

Copy-right secured. No Bookseller allowed to sell this work. PUBLICATION OFFICE, 258 BROADWAY, New York City.

CAUTION.

Persons who wish the Genuine work, by Dr. Weissehoff, with private notes added by his own hand, can obtain it only by sending directly to him, as he employs no Agents whatever, and never sells the work at wholesale—therefore no Book Agent, Pedler, Postmaster or Bookseller can possibly furnish the genuine work.

Beware, therefore, of false copies, and imitations, which may not only be worthless, but dangerous!

All infringements of the copy-right are promptly prosecuted; and cheats will only sell abridged or altered copies. This is the only original and true work—no other can be genuine.

Sent by mail as above; it is the only sure way to secure the work. Thousands of copies have been sent by mail with perfect safety.

November 2, 1848.--5m.

Almanacs! Almanacs!!

DOCTOR D. JAYNE would respectfully inform the public that he publishes annually for gratuitous distribution, by himself and all his Agents, an Almanac, called

Jayne's Medical Almanac,

And Guide to Health.

The calculations for this Almanac are made with great care and accuracy and for five different Latitudes and Longitudes, so as to make them equally useful as a Calendar in every part of the United States and British North America.

They are printed on good paper, and with handsome new type, and are neatly bound, and besides being the neatest and most accurate Calendar printed in the United States, they contain a large amount of valuable information, suited to the wants of all, and of that kind too, which cannot be found in books.

HIS CATALOGUE OF DISEASES, with remarks and directions for their removal is really invaluable, and make them welcome visitors in every house they enter.

Every family should possess at least one of these Annuals. His Almanac for 1849 is now ready for distribution, of which he designs to publish at least TWO MILLIONS, and in order that they every family in the United States and British America, may be furnished with a copy, he hereby invites.

MERCHANTS AND STOREKEEPERS to forward their orders to him as early as possible, and they shall be supplied GRATUITOUSLY with as many copies as they may deem necessary to supply their various customers.

They are also invited at the same time, to send a copy of their "BUSINESS CARD," which will be printed and placed on the cover of the Almanacs sent them, also without charge.

They are also requested to give all necessary directions how the Almanacs should be forwarded to them. By law they cannot be sent by mail unless the postage is first paid on them here.

Orders (post paid) directed to DR D JAYNE, Philadelphia, will meet with prompt attention.

IF FAMILIES can obtain these Almanacs gratis of JOHN MALVEN, Stroudsburg, November 10, 1848.--3t.

Good News! Not from Ireland, but from the HAT AND CAP STORE

OF Francis S. Pauli.

The public are respectfully informed that the subscriber has just received, and offers for sale, a splendid assortment of Hats and Caps, which will be sold on the most reasonable terms for cash.

The supply of Hats on hand embraces the following: BEAVER, SILK, MOLESKIN, FUR, CASSIMERE, BRUSH,
