

**The Leading Periodical in America.**  
**GODEY'S LADY'S BOOK,**  
**For 1849.**  
*Dedicated to the Ladies of the United States.*  
 Edited by SARAH J. HALE,  
 GRACE GREENWOOD,  
 and L. A. GODEY.

A Novelette by Miss E. Leslie, who contributes to every No.  
 N. P. Willis' Original Scriptural Poetry.  
 T. S. Arthur, who contributes to every No.,  
 illustrative of Croome's Sketches of American Character.

We intend merely to give a notice of our intentions for next year, leaving to others long advertisements—full of sound and fury, signifying nothing. Agreeably to the practice of last year, the publisher will issue as good a number each month as he does in January. This is a novel feature in Magazine publishing. During the whole of last year he gave more engravings and more reading matter than any of his contemporaries, and will continue to do so next year. Those who subscribe to Godey's Lady's Book, may do so under the assurance that they will receive more for their money in the Magazine alone, than by subscribing to any other work. To this is added and included in the same \$3, the LADY'S DOLLAR NEWSPAPER, which contains in one month nearly, if not quite as much reading matter as the other monthlies, making for \$3, the amount of reading of two magazines a month. There are peculiarities about Godey's Lady's Book for the ladies that no other Magazine possesses. There is a Mezzotint and Line Engraving in each number—both by the best artists. In addition to these, there are given monthly what no other magazine gives—a Colored Fashion Plate, with a full description. This feature is peculiar to Godey, as no other work has them every month and colored. Then there are Caps, Bonnets, Chemisettes, Equestrianism for Ladies, with Engravings. The Ladies' Work Table, with designs for knitting, netting, crochet, and all other kinds of work. Patterns for Smoking Caps, Chair covers, Window curtains, D'Oyley's, Purses, Bags, &c. &c. Health and Beauty, with Engravings. Model Cottages, with ground plans, and other engravings, always illustrative of something useful. Music, beautifully printed on tinted paper, which may be taken out and bound. Colored Modern Cottages, and Colored Flower Pieces occasionally. These are all extra in Godey, and to be found in no other Magazine. These were all given last year, and will be continued. In addition, we shall have in every No., one of

"Croome's Sketches of American Characteristics," a most amusing series, now first given to the American public. These will be illustrated in every No. by a Story from the powerful pen of T. S. Arthur, Esq.  
 "The Changes of Fashion," illustrated by Fay Robinson, Esq. This series will be very interesting to the ladies.  
 "The Applicability of the Fine Arts to Domestic Uses."

is another series of Engravings now in preparation, and will be published during the year.  
 Cottage Furniture.  
 Having given so many Model Cottages, we intend now to commence the publication of Cottage Furniture—a very necessary appendage to a Cottage.  
 Religion and History.  
 Our superior Artists, Walters, Tucker, Pease and Welch, are now engaged upon a set of plates illustrative of these subjects.  
 Our Music.  
 Prepared expressly for us—mostly original, and beautifully printed, has long commanded a decided preference over that of any other Magazine. It is a feature in The Book.

The Literary Character of Godey's Lady's Book. With such writers as Miss Leslie, Grace Greenwood, W. G. Simms, Mrs. Ellet, T. S. Arthur, Mrs. F. Oakes Smith, Mrs. J. C. Neal, H. T. Tuckerman, H. W. Herbert, &c. the author of the Widow Bedott, Professor Frost, Bryant, Longfellow, Holmes—and a host of others—must always take the lead in literary merit.  
 Terms.—For Three Dollars we will send the Lady's Book, containing more reading than any other monthly, and the Lady's Dollar Newspaper published twice a month, which contains as much reading as any of the \$3 periodicals of the day—making three publications in one month, or if the subscriber prefers the following splendid engravings to the Lady's Dollar Newspaper, (although we would not advise it, as engravings cannot be sent through the mail without being crushed or creased,) we will send the beautiful plate containing the portraits of Harriet Newell, Fanny Foster, Mrs. Stewart, Mrs. Ann H. Judson and Mrs. E. B. Dwight, and the plates of Christ Weeping over Jerusalem. The opening of the Sepulchre, Deliverance of St. Peter, and The Rebuke. If preferred to the Newspaper or plates, we will send Miss Leslie's Novel of Amelia, and any three of Mrs. Grey's or Miss Pickering's popular novels.  
 For Five Dollars we will send two copies of the Lady's Book, and a set of the plates to each subscriber. For Ten Dollars we will send five copies of the Lady's Book, and a copy to the person sending the Club, and a set of plates to each. For Twenty Dollars, eleven copies of the Book and a set of plates to each subscriber, and a copy of the Book to the person sending the Club. For One Dollar we will send the Lady's Book 4 months, and all 25 cents any one No. Postage to be paid on all orders. Address, L. A. GODEY,  
 113 Chesnut street, Philada.

**NEW EDITION OF**  
**Dr. Weisselhoff's Scientific Work**  
**ON THE SUBJECT OF**  
**CHILD-BIRTH!**  
 A new and beautiful edition of this celebrated work, on the subject of GESTATION and CHILD-BIRTH, by R. M. Weisselhoff M. D. late of Paris, has just been issued in N. York. It is a work which should be in the hands of every MAN and WOMAN who has incurred, or intends to incur, the responsibilities of the Marriage state. It will be found of special value to those whose means, health or other circumstances, do not permit them to increase the number of their family, without great inconvenience, suffering, or perhaps risk of life. A method of avoiding these troubles and dangers at will, (recently discovered by a celebrated French Physician) is fully communicated in this work. The means of prevention, cost comparatively nothing, and are within the reach of all. The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate. Nor does it curtail matrimonial privileges in the least.  
 There is no deception or humbugger of any kind about this work. It is precisely what its title indicates, a scientific publication, containing information of great value to married people, or those contemplating marriage, expressed in plain language which all can understand. The whole story is told, and the means of accomplishing the objects of the work fully and faithfully given, so that the reader may avail himself of it once, without purchasing any medicine, instrument, or other article, from the author. The means of protection which it recommends, may also be relied upon, without fear of disappointment or injury.

**Beware of Frauds on this Work.**  
 Beware of a catch penny fraud upon this work, at 25 cents, which is only a decoy, to promote the sale of Mauriceau's or Desomeaux's instrument at \$10, for the same object that the work itself pretends to be written, the real secret of my original work being withheld. Those who wish for the original and genuine work, by Dr. Weisselhoff, with private notes added by his own hand, can obtain it only by sending directly to him, as he employs no Agents whatever, and never sells the work at wholesale—therefore no Book Agent, Pedler, Postmaster or Bookseller can possibly furnish the genuine work. Beware, therefore, of false copies and imitations, which may not only be worthless, but dangerous! All infringements of the copyright are promptly prosecuted; and cheats will only sell abridged or altered copies. This is the only original and true work—no other can be genuine. Thousands of copies have been sent by mail with perfect safety.

**HIGHLY IMPORTANT WORK.**  
**Child-Birth:**  
 A Valuable Scientific Work, upon the Subject of Gestation and Child-Birth, by R. M. WEISSELHOFF, M. D. late of Paris, just published in New-York by the Author.

This Work contains recently discovered information upon a subject of the highest importance to Married Persons, or those contemplating Marriage. It will be found of special value to those whose means, health or other circumstances, do not permit them to increase the number of their family, without great inconvenience, suffering, or perhaps risk of life. A method of avoiding these troubles and dangers, at will, (recently discovered by a celebrated French Physician) is fully communicated in this work, so that any person may avail himself of it at once, without purchasing any instrument, medicine, or other article, from the author. The means of prevention here set forth, cost comparatively nothing, and are within the reach of all. The process is new, safe, infallible, convenient, simple, and cannot injure the health of the most delicate.  
**Morality Considered.**  
 The object of this work can be shown to be of the highest utility, and sustained by the soundest principles of prudence, political economy, and virtue. It shows how a physiological effect may be produced, scientifically and without injury to the constitution, which thousand attempts to accomplish by the most unwise and reprehensible means. The object is by no means new to the world. The means will be esteemed by all scientific, right-minded and sensible people, as a discovery in physiology of the highest consequence to public morals and happiness.  
**The Instinct of Nature.**  
 Love, and the desire for union between the sexes, will be indulged, talk of prudence as we may. Without marriage, we have, in all countries, a debasement of one sex, and the criminal indulgence of the other; with marriage, and the unrestrained indulgence of the natural instinct, very often suffering and misery of the most fearful character. Who, then, shall deny to man, (a free agent,) the right to marry, and to regulate the instinct of nature?  
**Young Married People.**  
 Young Married People, whose fortunes are not yet established, will find in this work matter to interest them deeply, and information of the highest value, which they should not, on any account, be ignorant of. Hundreds of married people, now advanced in life, have assured the author, that if they had possessed such a treasure in early life, it would have saved them more than half the suffering and deprivation they have since endured.  
**Unhappy Wives.**  
 Unhappy Wives, who feel that their physical condition and health totally unfit them to become the mothers of a numerous off-spring, and who reasonably fear that each period of confinement will terminate their existence, will hail the discovery of this certain means of relief with unbounded joy. Let all such unfortunate and unhappy wives lose no time in obtaining this important work. It will be to them a precious boon through life, and prevent many an early and premature death.  
**Hereditary Diseases.**  
 Scrofula, Consumption, Insanity, Apoplexy, Disease of the Heart, and other horrible complaints, capable of transmission from parent to child, afflict many worthy people, who, at the same time, are as capable of enjoying themselves in the marriage state as their more fortunate fellow beings. Shall such persons refrain from marriage on this account, or shall they marry and give birth to a feeble off-spring, destined to a life of suffering or an early death? The answer to these serious questions will be found in the work here recommended.  
**Early Marriages.**  
 Early marriages are strongly advised by all philosophers and writers upon social and political subjects. Early marriages, beyond all questions, tend to promote virtue and happiness; and with the power of regulating the procreative function, made known in this work, may be freely entered into, without fear of incurring responsibilities which cannot be sustained.  
**Over Population of the Earth.**  
 Over Population of the earth need be no longer apprehended. The calculations of Malthus, and the wild fears of Robert Dale Owen, are alike rendered baseless by the discovery here communicated to the world. "The control of man over his accidents," in this respect at least, is here established. The wisdom of exercising such control, none who give the subject a moment's consideration, can doubt.  
**Honesty of the Work.**  
 There is no deception or humbugger of any kind about this work. It is precisely what its title indicates, a scientific publication, containing information of great value to married people, or those contemplating marriage, expressed in plain language, which all can understand, with no unnecessary words put in merely to swell the number of its pages. The whole story is told, and the means of accomplishing the objects of the work fully and faithfully given, so that the reader may avail himself of it at once, without purchasing any medicine, instrument, or other article from the author. The means of protection which it recommends, may also be relied upon, without fear of disappointment or injury.  
**Physicians, Professors, & Clergymen**  
 In all parts of the country, have given their testimony strongly in favor of the objects of this work, and the nature of the discovery. We annex a few of these recommendations:  
 NEW YORK, September 13, 1848.  
 DR. R. M. WEISSELHOFF—Dear Sir: I should have no question whatever that the means recommended in your work on Child-Birth, would

accomplish the objects intended, considered in reference to physiological principles alone; but I have also the happiness to know that it has stood the test of practical experiment. Yours truly,  
 R. LE DOYEN,  
 Professors of Midwifery, late of Paris.  
 NEW YORK, August, 1848.  
 DR. R. M. WEISSELHOFF—Sir: The moral effect of such information as your work contains, I believe to be decidedly salutary. The right of man to control the animal instincts cannot be questioned. I think that work will be the means of doing much good.  
 Rev. B. F. CROWLEY,  
 No. 8 Stately Park, New York.  
 DR. R. M. WEISSELHOFF—Sir: The principles of Chemistry applied to the basis for regulating the procreative functions, as stated in your work on Child-Birth, would satisfy any well informed person that the object of that publication could be attained with the most perfect ease, certainty and safety.  
 J. L. SULLINAN,  
 Professor of Chemistry, New University.  
 Copies of this work will be sent, in a close envelope, at single letter postage, to any part of the United States for \$1 sent, post paid, to DR. R. M. WEISSELHOFF,
