The Prestient's Message.

We present our readers with an Analysis of Mr. Polk's last annual Message, in to days Jeffersonian. It is carefully prepared, and presents all the points touched upon in the Message. We copy it from the Pennsylvania Inquiter.

The Message itself occupies twelve columns o the Washington Union in small type, and could not be crowded into a single number of this paper. Still, notwithstanding its great length, we would endeavor to publish it, were it a document worthy of the high source from which it eminates. But it is not so. In our opinion it is altogether beneath the dignity of the Presidential station-and it would have been well for the fame of its author if he had never written it.

The Analysis we publish is far more creditabl than the Message. The Message is devoted to Rough and Ready is President we will look for

We support men for the sake of measures, not measures for the sake of men.
